## **The Kulunge Rai A Study In Kinship And Marriage Exchange:**

The Kulunge Rai Charles McDougal, 1979 Socio anthropological study of the Kulunge Rais an ethnic group of eastern Nepal      Culture, Creation, and Procreation Monika Böck, Aparna Rao, 2001-01-01 As reproduction is seen as central to kinship and the biological link as the primary bond between parents and their offspring Western perceptions of kin relations are primarily determined by ideas about consanguinity genealogical relations and genetic connections Advocates of cultural constructivism have taken issue with a concept that puts so much stress on heredity as being severely biased by western ideas of kinship Ethnosociologists in particular developed alternative systems using indigenous categories This symbolic approach has however been rejected by some scholars as plagued by the problems of the analytical separation of ideology from practice of largely overlooking relations of domination and of ignoring the questions of shared knowledge and choice This volume offers a corrective by discussing the constitution of kinship among different communities in South Asia and addressing the relationship between ideology and practice cultural models and individual strategies      **The Kulunge Rai** Charles McDougal, 1979 Socio anthropological study of the Kulunge Rais an ethnic group of eastern Nepal      **Nationalism and Ethnicity in a Hindu Kingdom** D. Gellner, J. Pfaff-Czarnecka, J. Whelpton, 2012-12-06 With its systematic coverage of different groups this book demonstrates how similar trends of ethnic formation are affecting all parts of Nepal Yet within the boundaries of a single culturally diverse state very different forms of ethnicity have emerged This is a truly thematic collection with a well defined focus on the important contemporary topics of ethnic identity and nationalism The importance of the theme is self evident in a world attempting to come to grips with such problems in virtually all modern states Anyone with an interest in contemporary Nepal should study this volume Nepal is the only officially Hindu kingdom in the world and remains so in spite of a revolution or people s movement in 1990 which overthrew the partyless Panchayat regime and instituted a multiparty constitutional monarchy Since November 1994 it has also had an elected Communist government the first of its kind in South Asia This volume takes a long term view of the various processes of ethnic and national development that have been displayed both before and after 1990 It brings together twelve carefully chosen ethnographic and historical chapters covering all of the major ethnic groups and regions of Nepal      *Nature, Culture and Religion at the Crossroads of Asia* Marie Lecomte-Tilouine, 2017-08-03 This book explores how ethnic groups living in the Himalayan regions understand nature and culture The first part addresses the opposition between nature and culture in Asia s major religious traditions such as Hinduism Buddhism Islam and Shamanism The second part brings together specialists of different representative groups living in the heterogeneous Himalayan region They examine how these indigenous groups perceive their world This includes understanding their mythic past in particular the place of animals and spirits in the world of humans as they see it and the role of ritual in the everyday lives of these people The book takes into account how these various perceptions of the Himalayan peoples are shaped by a globalized world The volume thus provides new ways of viewing the relationship between

humans and their environment      *Languages of the Greater Himalayan Region, Volume 4: A Grammar of Kulung* Gerard Tolsma, 2006-05-01 This book is the first description of Kulung a complex pronominalising Kiranti Tibeto Burman language spoken in eastern Nepal It contains the phonology morphology and syntax as well as sample texts verbal paradigms and a Kulung English lexicon The data presented here were collected during four field trips which the author undertook to Nepal between 1992 and 1995 This grammar of Kulung is an exhaustive reference work for Tibeto Burman linguistics language typology and linguistic theory With financial support of the International Institute for Asian Studies [www iias nl](http://www.iias.nl)      Barter, Exchange and Value Caroline Humphrey, Stephen Hugh-Jones, 1992-06-11 This novel treatment of barter represents a topical addition to the literature on economic anthropology      **Shamanism and Violence** Davide Torri, 2016-04-01 Proposing a new theoretical framework this book explores Shamanism s links with violence from a global perspective Contributors renowned anthropologists and authorities in the field draw on their research in Mongolia China Korea Malaysia Nepal India Siberia America Papua New Guinea Taiwan to investigate how indigenous shamanic cultures dealt and are still dealing with varying degrees of internal and external violence During ceremonies shamans act like hunters and warriors dealing with many states related to violence such as collective and individual suffering attack conflict and antagonism Indigenous religious complexes are often called to respond to direct and indirect competition with more established cultural and religious traditions which undermine the sociocultural structure the sense of identity and the state of well being of many indigenous groups This book explores a more sensitive vision of shamanism closer to the emic views of many indigenous groups      **Routledge Handbook of Highland Asia** Jelle J.P. Wouters, Michael T. Heneise, 2022-08-09 The Routledge Handbook of Highland Asia is the first comprehensive and critical overview of the ethnographic and anthropological work in Highland Asia over the past half a century Opening up a grand new space for critical engagement the handbook presents Highland Asia as a world region that cuts across the traditional divides inherited from colonial and Cold War area divisions the Indian Subcontinent South Asia Southeast Asia China East Asia and Central Asia Thirty two chapters assess the history of research identify ethnographic trends and evaluate a range of analytical themes that developed in particular settings of Highland Asia They cover varied landscapes and communities from Kyrgyzstan to India from Bhutan to Vietnam and bring local voices and narratives relating trade and tribute ritual and resistance pilgrimage and prophecy modernity and marginalization capital and cosmos to the fore The handbook shows that for millennia Highland Asians have connected far flung regions through movements of peoples goods and ideas and at all times have been the enactors repositories and mediators of world historical processes Taken together the contributors and chapters subvert dominant lowland narratives by privileging primarily highland vantages that reveal Highland Asia as an ecumene and prism that refracts and generates global history social theory and human imagination In the currently unfolding Asian Century this compels us to reorient and re envision Highland Asia in ethnography in theory and in the connections between this world region made of hills highlands
