## **The Kurdish Question In Iraq:**

**The Kurdish Question in Iraq** Edmund Ghareeb, 1981 This work first briefly examines the history of the Kurdish question in Turkey and Iran then concentrates on the Kurdish question in Iraq specifically the Iraqi Baath government's attempts since 1968 to achieve a political understanding with the Kurds concerning their status in northern Iraq The Kurdish Question and Iraq Nubar Hovsepian, David Barsamian, 1991 The Kurdish Question Revisited Gareth Stansfield, Mohammed Shareef, 2017-08-15 The Kurds once marginal in the study of the Middle East and secondary in its international relations have moved to centre stage in recent years The contributors to *The Kurdish Question Revisited* offer insights into how this once seemingly intractable immutable phenomenon is being transformed amid the new political realities of the Middle East Oil and the Kurdish Question Stephen C. Pelletiere, 2016-05-19 *Oil and the Kurdish Question* critiques the conventional narrative of the Iran Iraq War and the associated Anfal campaign This narrative claims that in the last two years 1987-88 of the Iran Iraq War the Ba'athists dominated the fighting using gas attacks According to this narrative the Ba'athists also used gas in a fearsome campaign of extermination against the Kurds of northern Iraq This book argues that contrary to conventional wisdom the Iraqis trained hard to turn the tables on Iran in the last months of the war and won by superior generalship without the use of gas Further it was only when the Iranians conceded defeat that the Iraqi army went north and in the space of nine days using conventional arms suppressed pockets of Kurdish insurgent unrest The book also examines how publicists exploited the myth of the Kurdish holocaust as justification for America to declare war on Iraq It exposes a scheme laid out before the war that aimed to defeat Iraq deconstruct it and create an autonomous Kurdish Regional Government which would then let lucrative oil concessions to interests mainly in the west The intrigue accomplished two things it subverted Iraq's oil nationalization law which forbade granting concessions to foreigners and it ended Iraq's existence as a sovereign nation state *The Kurds Ascending* Michael M. Gunter, 2008-07-02 For the first time in their modern history the Kurds in Iraq and Turkey at least are cautiously ascending This is because of two major reasons 1 In northern Iraq the two U.S. wars against Saddam Hussein have had the fortuitous side effect of helping to create a Kurdistan Regional Government KRG The KRG has become an island of democratic stability peace and burgeoning economic progress as well as an autonomous part of a projected federal democratic post Saddam Hussein Iraq If such an Iraq proves impossible to construct as it well may the KRG is positioned to become independent Either way the evolution of a solution to the Kurdish problem in Iraq is clear 2 Furthermore Turkey's successful EU candidacy would have the additional fortuitous side effect of granting that country's ethnic Kurds their full democratic rights that have hitherto been denied Although this evolving solution to the Kurdish problem in Iraq and Turkey remains cautiously fragile and would not apply to the Kurds in Iran and Syria because they have not experienced the recent developments their co-nationals in Iraq and Turkey have it does represent a strikingly positive future that until recently seemed so bleak **British Policy and the Kurdish Question in**

**'Iraq, 1918-1932** Othman Ali,1992 *Oil and the Kurdish Question* Stephen C. Pelletiere,2016-05-19 Oil and the Kurdish Question critiques the conventional narrative of the Iran Iraq War and the associated Anfal campaign This narrative claims that in the last two years 1987 88 of the Iran Iraq War the Ba thists dominated the fighting using gas attacks According to this narrative the Ba thists also used gas in a fearsome campaign of extermination against the Kurds of northern Iraq This book argues that contrary to conventional wisdom the Iraqis trained hard to turn the tables on Iran in the last months of the war and won by superior generalship without the use of gas Further it was only when the Iranians conceded defeat that the Iraqi army went north and in the space of nine days using conventional arms suppressed pockets of Kurdish insurgent unrest The book also examines how publicists exploited the myth of the Kurdish holocaust as justification for America to declare war on Iraq It exposes a scheme laid out before the war that aimed to defeat Iraq deconstruct it and create an autonomous Kurdish Regional Government which would then let lucrative oil concessions to interests mainly in the west The intrigue accomplished two things it subverted Iraq s oil nationalization law which forbade granting concessions to foreigners and it ended Iraq s existence as a sovereign nation state The Kurds and Kurdistan Lokman I. Meho,1997-06-25 As the Kurdish question becomes more prominent in Middle Eastern politics it is attracting attention from the media the academic community and governmental and non governmental organizations Swamped with questions from the press and academic departments students of Kurdish topics have needed a comprehensive bibliography on the Kurds This book meets that need An introductory essay provides users with general background information on the Kurds and Kurdistan With over 800 entries the annotated bibliography provides information on the most important works about the Kurds and Kurdistan published from World War II through 1996 Emphasizing recent titles the book focuses on English language scholarly works Arranged in topical chapters the book opens with a section on general works then covers travel works history and archaeology politics minorities and religion in Kurdistan society economy language and education literature and folklore and culture and arts

**British Policy and the Kurdish Question in 'Iraq, 1918-1932** Othman Ali,1992 **The Kurdish Conflict in Turkey** Ferhad Ibrahim,Gülistan Gürbey,2000 At the core of the interest are the controversy on the political implementation of violence the relevance of the international law for the conflict the regional and foreign relations of the PKK and the chances and obstacles of a peaceful democratic conflict resolution Jacket **Turkey's Kurdish Question** Henri J. Barkey,Graham E. Fuller,2000-01-01 The Kurds one of the oldest ethnic groups in the Middle East are reasserting their identity politically and through violence Divided mainly among Turkey Iran Iraq and Syria the Kurds have posed increasingly sharp challenges to all of these states in their quest for greater autonomy if not outright independence Turkey s essentially democratic structure and civil society\_ideal tools for coping with and incorporating minority challenge\_have so far been suspended on this issue which the government is treating almost exclusively as a security problem to be dealt with by force For the West the situation in Turkey is particularly significant because of the country s importance in the region and because

of the economic political and diplomatic damage that the conflict has caused If Turkey fails to find a peaceful solution within its current borders then the outlook is grim for ethnic and separatist challenges elsewhere in the region This study explores the roots dimensions character and evolution of the problem offers a range of approaches to a resolution of the conflict and draws broader parallels between the Kurdish question and other separatist movements worldwide Secession and Conflict Zheger Hassan,2023-02-15 The overthrow of Saddam Hussein in 2003 in Iraq opened the door for Kurdish nationalists to move toward outright independence Despite the recent visibility of the Kurds in the international media little is known about their political aspirations as citizens of an autonomous region In Secession and Conflict Zheger Hassan employs a comparative analysis to explore why Iraqi Kurdistan despite being better positioned institutionally and economically than the similar cases of South Sudan and Kosovo has not declared independence In rebuilding Iraq and fighting against the Islamic State the Kurds have cultivated important political alliances with the US and Europe which have garnered them international economic military and political support Though now well positioned to function as an independent state Iraqi Kurdistan has vacillated in seizing this golden opportunity to declare independence The apparent Kurdish willingness to forgo independence runs counter to the prevailing narratives about the Kurds in the Middle East Hassan draws not only on the history of the Kurds but also on first hand interviews with high ranking officials journalists and nationalists to provide a new window into the calculations of Kurdish leaders as they navigate the complicated politics of Iraq Secession and Conflict offers a new model for understanding the Kurdish question in Iraq **The Kurds in the Middle East** Mehmet Gurses,David Romano,Michael M. Gunter,2020-06-22 While dramatic changes taking place in the Middle East offer important opportunities to the Kurdish century long struggle for recognition serious obstacles seem to keep reemerging every time the Kurds anywhere make progress The large Kurdish geography extending from western Iran to near the eastern Mediterranean and a century of repression and denial have engendered various Kurdish groups with competing and at times conflicting views and goals The Kurds in the Middle East *Enduring Problems and New Dynamics* with an emphasis on continuity and change in the Kurdish Question brings together a group of well known scholars to shed light on this complex issue *The Kurdish Question in U.S. Foreign Policy* Lokman I. Meho,2004 The first ever sourcebook on U S Kurdish relations *The Kurdish Question in U S Foreign Policy* is a unique and timely work It not only reproduces the full text of over 325 of the most important U S government documents dealing with the Kurdish question but also provides both a guide to U S government sources for locating subsequently published materials and an annotated list of over 200 primary and secondary sources Thorough and instructive the book serves as an invaluable research tool and published national archive of U S government documents on U S Kurdish issues U S government information is crucial for any research or reading on American involvement in Kurdish affairs This sourcebook alleviates some of the problems associated with using U S government documents such as lack of access and difficulty in identifying relevant sources It educates users on where and how to find

relevant U S government information on the Kurds as well as other stateless nations Detailed subject author and title indices are also included to allow easy access and identification of key materials The first ever documentary sourcebook and annotated bibliography on U S foreign policy towards the Kurds *The Kurdish Question in U S Foreign Policy* should appeal to all academic special and public libraries as well as among government and news agencies *The Kurds and US Foreign Policy* Marianna Charountaki,2010-10-18 This book provides a detailed survey and analysis of US Kurdish relations and their interaction with domestic regional and global politics Using the Kurdish issue to explore the nature of the engagement between international powers and weaker non state entities the author analyses the existence of an interactive US relationship with the Kurds of Iraq Drawing on governmental archives and interviews with political figures both in Northern Iraq and the United States the author places the case study within a broader International Relations context The conceptual framework centres on the inter relations between actors both state and non state and structures of material and ideational kinds while the detailed survey and analysis of US Kurdish relations in their interaction with domestic regional and global politics forms the empirical core of the study Stressing the intertwining of domestic and foreign policy as part of the same set of dynamics the case study explains the emergence of the interactive and institutionalized US relationship with the Kurds of Iraq that has brought about the formation within an Iraqi framework of an undeclared US official Kurdish policy in the post Saddam era Filling a gap in the literature on US Kurdish relations as well as the broader topic of International Relations this book will be of great interest to those in the areas of International Relations Middle Eastern and Kurdish Politics

*Kurdistan in Iraq* Aram Rafaat,2018-05-11 The Kurdish Iraqi conflict lies in the fact that Kurdistan is a nation without a state and Iraq is a non nation state each possessing a nationhood project differing from and opposing the other Iraqi Kurdistan is an outward looking entity seeking external patronage Though external patronage has played a pivotal role in the evolution of the Kurdish quasi state a lack of positive patronage has prevented it from achieving independence This book looks at how the Kurdish and Iraqi quests for nationhood have led to the transformation of Iraqi Kurdistan into an unrecognised quasi state and the devolution of the Iraqi state into a recognised quasi state This is done by examining the protracted Iraqi Kurdish conflict and by analysing the contradictions and incompatibilities between the two different nationalisms Iraqi and Kurdish The author explains that Kurds as a nation without a state have their own nationhood project which is in opposition to the Iraqi nationhood project Each has its own identity loyalty and sovereignty The book answers the question as to how the Kurdish quest for nationhood has been treated by successive Iraqi regimes Furthermore it fills in the literary gaps which exist in relation to the Iraqi Kurdish conflict by specifying and categorising the cardinal conditions that drive ethnic and nationalist conflicts which lead to the creation of separatist entities Drawing upon a vast amount of untapped Kurdish and Arabic primary sources the book draws on prominent theories on nation states and quasi states It will particularly appeal to students and scholars of international relations political theory and Middle Eastern Studies

**Historical Dictionary of the Kurds** Michael M. Gunter, 2018-02-20 The failed states of Iraq and Syria plus the rise and fall of ISIS have helped lead to near Kurdish statehood in Iraq the KRG and Kurdish autonomy in Syria Rojava In Turkey too as illustrated by its negotiations and temporary cease fire with the PKK and the rise of the HDP as the first pro Kurdish party to be elected to the Turkish parliament as a party and not as mere independents the Kurds have reached new heights of recognition These major developments and much more are prominently reflected and developed in this new third edition of Historical Dictionary of the Kurds This third edition of Historical Dictionary of the Kurds contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture of the Kurds This book is an excellent resource for students researchers and anyone wanting to know more about the Kurds

**The Kurdish Question** Iraq. Wizārat al-I'lām, 1976

*Iraqi Kurdistan, the PKK and International Relations* Hannes Černý, 2017-07-28 Due to its primacy in explaining issues of war and peace in the international arena the discipline of International Relations IR looms large in analyses of and responses to ethnic conflict in academia politics and popular media in particular with respect to contemporary conflicts in the Middle East Grounded in constitutive theory this book challenges how ethnic ethno nationalist conflict is represented in explanatory IR by deconstructing its most prominent state centric models frameworks and analytical concepts As much a critique of contemporary scholarship on Kurdish ethno nationalism as a detailed analysis of the most prominent Kurdish ethno nationalist actors the book provides the first in depth investigation into the relations between the PKK and the main Iraqi Kurdish political parties from the 1980s to the present It situates this inquiry within the wider context of the ambiguous political status of the Kurdistan Region of Iraq its relations with Turkey and the role Kurdish parties and insurgencies play in the war against ISIS in Iraq and Syria Appreciating these complex dynamics and how they are portrayed in Western scholarship is essential for understanding current developments in the Iraqi and Syrian theatres of war and for making sense of discussions about a potential independent Kurdish state to emerge in Iraq Iraqi Kurdistan provides a comprehensive and critical discussion of the state centric and essentialising epistemologies ontologies and methodologies of the three main paradigms of explanatory IR as well as their analytical models and frameworks on ethnic identity and conflict in the Middle East and beyond It will therefore be a valuable resource for anyone studying ethnicity and nationalism International Relations or Middle East Politics
