The Languages Of East Asia:

The Languages of East and Southeast Asia Cliff Goddard, 2005-07-14 This book introduces readers to the remarkable linguistic diversity of East and Southeast Asia. It combines serious but accessible treatments of diverse areas not usually found in a single volume: for example, word origins, cultural key words, tones and sounds, language families and typology, key syntactic structures, writing systems, and communicative style. Written with great clarity and an eye for interesting examples, the book is a textbook for students of linguistics, Asian languages, and Asian studies.

The Major Languages of East and South-East Asia Bernard Comrie, 2022-02-16 Based on Bernard Comrie's much-praised *The World's Major Languages*, this is a key guide to an important language family. The areas covered include Chinese, Japanese, and Sino-Tibetan languages.

Language Change in East Asia T. E. McAuley, 2013-10-11 This book adopts a wide focus on the range of East Asian languages in both their pre-modern and modern forms within the specific topic area of language change. It contains sections on dialect studies, contact linguistics, socio-linguistics, and syntax, phonology, and deals with all three major languages of East Asia: Chinese, Japanese, and Korean. Individual chapters cover pre-Sino-Japanese phonology, nominalizers in Chinese, Japanese, and Korean, Japanese loanwords in Taiwan, Mandarin changes in Korean honorifics, the tense and aspect system of Japanese, and language policy in Japan. The book will be of interest to linguists working on East Asian languages and will be of value to a range of general linguists working in comparative or historical linguistics, socio-linguistics, language typology, and language contact.

The Language of Food: Through the Lens of East Asian Films and Drama Jieun Kiaer, Loli Kim, Niamh Calway, 2024-09-30 *The Language of Food Through the Lens of East Asian Films and Drama* invites readers into the fascinating world where food culture and language intersect, revealing how each dish communicates beyond mere taste. Through East Asian films and television, this book uncovers the rich tapestry of food languages embedded within East Asian cultures. Divided into three parts: Base Ingredients and Seasoning, this book provides a structured exploration of this phenomenon. The Base section offers philosophical and historical context, while the Ingredients section delves deeper into specific themes using examples from film and television drama to illustrate the nuanced communication inherent in food culture. Finally, the book is seasoned with linguistic insights.

and a practical food words glossary aiding readers in navigating the intricate verbal and cultural nuances at play This illuminating resource goes beyond the realm of food itself offering a profound understanding of how each dish carries its language enriching communication and deepening cultural connections This book will captivate students and researchers of East Asian languages media studies film studies food studies and Korean Wave studies and anyone intrigued by the intricate relationship between food and language

Languages, Scripts, and Chinese Texts in East Asia Peter Francis Kornicki, 2018 Chinese Writing and the Rise of the Vernacular in East Asia is a wide ranging study of vernacularization in East Asia not only China Japan Korea and Vietnam but also societies that no longer exist such as the Tangut and Khitan empires Peter Kornicki takes the reader from the early centuries of the common era when the Chinese script was the only form of writing and Chinese Buddhist Confucian and medical texts spread throughout East Asia through the centuries when vernacular scripts evolved right up to the end of the nineteenth century when nationalism created new roles for vernacular languages and vernacular scripts Through an examination of oral approaches to Chinese texts it shows how highly valued Chinese texts came to be read through the prism of the vernaculars and ultimately to be translated This long process has some parallels with vernacularization in Europe but a crucial difference is that literary Chinese was unlike Latin not a spoken language As a consequence people who spoke different East Asian vernaculars had no means of communicating in speech but they could communicate silently by means of written conversation in literary Chinese a further consequence is that within each society Chinese texts assumed vernacular garb in classes and lectures Chinese texts were read and declaimed in the vernaculars What happened in the nineteenth century and why are there still so many different scripts in East Asia How and why were Chinese texts dethroned and what replaced them These are some of the questions addressed in Chinese Writing and the Rise of the Vernacular in East Asia

A History of East Asia Charles Holcombe, 2017-01-11 Charles Holcombe begins by asking the question what is East Asia In the modern age many of the features that made the region now defined as including China Japan Korea and Vietnam distinct have been submerged by the effects of revolution politics or globalization Yet as an ancient civilization the region had both an historical and cultural coherence This shared past is at the heart of this ambitious book which traces the story of East Asia from the dawn of history to the twenty first century The second edition has been imaginatively revised and expanded to place emphasis on cross cultural interactions and connections both within East Asia and beyond with new material on Vietnam and modern pop culture The second edition also features a Chinese character list additional maps and new illustrations

The Languages and Linguistics of Mainland Southeast Asia Paul Sidwell, Mathias Jenny, 2021-08-23 The handbook will offer a survey of the field of linguistics in the early 21st century for the Southeast Asian Linguistic Area The last half century has seen a great increase in work on language contact work in genetic theoretical and descriptive linguistics and since the 1990s especially documentation of endangered languages The book will provide an account of work in these areas focusing on the achievements of SEAsian linguistics as well as the

Noun Phrase Structure in the Languages of Europe Frans Plank, 2008-08-22 The result of over five years of close collaboration among an international group of leading typologists within the EUROTyp program this volume is about the morphology and syntax of the noun phrase Particular attention is being paid to nominal inflectional categories and inflectional systems and to the syntax of determination modification and conjunction Its areal focus like that of other EUROTyp volumes is on the languages of Europe but in order to appreciate what is peculiarly European about their noun phrases a more comprehensive and genuinely typological view is being taken at the full range of cross linguistic variation within this structural domain There has been no shortage lately of contributions to the theory of noun phrase structure the present volume is however unique in the extent to which its theorizing is empirically grounded

Past Human Migrations in East Asia Alicia Sanchez-Mazas, Roger Blench, Malcolm D. Ross, Ilia Peiros, Marie Lin, 2008-07-25 The study of the prehistory of East Asia is developing very rapidly In uncovering the story of the flows of human migration that constituted the peopling of East Asia there exists widespread debate about the nature of evidence and the tools for correlating results from different disciplines Drawing upon the latest evidence in genetics linguistics and archaeology this exciting new book examines the history of the peopling of East Asia and investigates the ways in which we can detect migration and its different markers in these fields of inquiry Results from different academic disciplines are compared and reinterpreted in the light of evidence from others to attempt to try and generate consensus on methodology Taking a broad geographical focus the book also draws attention to the roles of minority peoples hitherto underplayed in accounts of the region s prehistory such as the Austronesian Tai Kadai and Altaic speakers whose contribution to the regional culture is now becoming accepted Past Human Migrations in East Asia presents a full picture of the latest research on the peopling of East Asia and will be of interest to scholars of all disciplines working on the reconstruction of the peopling of East and North East Asia

East Asia in the World Anne Prescott, 2015-05-15 From the Foundations in Global Studies series this text offers students a fresh comprehensive multidisciplinary entry point to East Asia After a brief introduction to the study of East Asia the early chapters of the book survey the essentials of East Asian history important historical narratives and the region s languages religions and global connections Students are guided through the material with relevant maps resource boxes and text boxes that support and guide further independent exploration of the topics at hand The second half of the book features interdisciplinary case studies each of which focuses on a specific country or region and a particular issue Each chapter gives a flavor for the cultural distinctiveness of the particular country yet also draws attention to global linkages Readers will come away from this book with an understanding of the larger historical political and cultural frameworks that shaped East Asia as we know it

today and of current issues that have relevance in Asia and beyond *The Languages of Mainland Southeast Asia* N. J. Enfield, 2021-04-01 Mainland Southeast Asia is one of the most fascinating and complex cultural and linguistic areas in the world This book provides a rich and comprehensive survey of the history and core systems and subsystems of the languages of this fascinating region Drawing on his depth of expertise in mainland Southeast Asia Enfield includes more than a thousand data examples from over a hundred languages from Cambodia China Laos Malaysia Myanmar Thailand and Vietnam bringing together a wealth of data and analysis that has not previously been available in one place Chapters cover the many ways in which these languages both resemble each other and differ from each other and the diversity of the area s languages is highlighted with a special emphasis on minority languages which outnumber the national languages by nearly a hundred to one The result is an authoritative treatment of a fascinating and important linguistic area **The Major Languages of South Asia, the Middle East and Africa** Bernard Comrie, 2022-11-30 Based on the much praised *The World s Major Languages* this is the first comprehensive guide in paperback to describe the development grammar sound and writing system and sociological factors of the major language families in these areas **The Language of Asian Gestures** Jieun Kiaer, Loli Kim, 2024-03-29 *The Language of Asian Gestures* explores Asian gestures as a non verbal language within the context of films and dramas This book provides a cross cultural Asian perspective on a range of important common gestures and their meanings covering a range of Asian regions including Korea China Hong Kong Japan Taiwan Vietnam Singapore Thailand Indonesia the Philippines India and Pakistan While most studies focus on text based communication gestures find themselves overshadowed by text and speech Asian gestures too often reside in the shadow of Eurocentric viewpoints This book will shift this dynamic and amplify the voices that have typically been marginalised within 20th century Eurocentric discussions The book will be informative for students and researchers interested in Asian languages cultures film studies and pragmatics It bridges the gap between words and gestures unveiling a world of concealed meanings and enriching our understanding of diverse forms of expression
