Contemporary Economists in the West Isaak Ilyich Rubin, 2024-08-26 Isaak I Rubin author of numerous works in Marxist theory explains the failure of the Austrian School's attempt to reduce political economy to individual psychology Emphasising the sociological dimension of Marx's work Rubin welcomes a new social direction in the writings of Rudolf Stolzmann Alfred Amonn and Franz Petry These economists rejected Austrian individualism but their works were often influenced by the ethical idealism of Kant and Hegel resulting in detachment of the economy's social form from the material process of production Rubin critically explores methodological differences between Marx and early twentieth century critics and proponents of marginalist economic theory

Capital. Illustrated Karl Marx, 2020-01-14 Das Kapital also called Capital A Critique of Political Economy is the most cited book in the social sciences published before 1950 Marx aimed to reveal the economic patterns underpinning the capitalist mode of production in contrast to classical political economists such as Adam Smith Jean Baptiste Say David Ricardo and John Stuart Mill Marx proposes that the motivating force of capitalism is in the exploitation of labor whose unpaid work is the ultimate source of surplus value Das Kapital proposes an explanation of the laws of motion of the capitalist economic system from its origins to its future by describing the dynamics of the accumulation of capital the growth of wage labour the transformation of the workplace the concentration of capital commercial competition the banking system the decline of the profit rate land rents et cetera

What's Left Malcolm Harris, 2025-04-15 A vital guide for collective political action against the climate apocalypse from bestselling progressive intellectual Malcolm Harris a brilliant thinker and writer capable of making the intricacies of economic conditions supremely readable Vulture Climate change is the unifying crisis of our time But the scale of the problem can be paralyzing especially when corporations are actively staving off changes that could save the planet but which might threaten their bottom lines To quote Greta Thunberg despite very clear science and very real devastation the adults at the table are still saying blah blah blah Something has to change but what and how In What's Left Malcolm Harris cuts through the noise and gets real about

our remaining options for saving the world Just as humans have caused climate change we hold the power to avert a climate apocalypse but that will only happen through collective political action Harris outlines the three strategies progressive socialist and revolutionary that have any chance of succeeding while also revealing that none of them can succeed on their own What s Left shows how we must combine them into a single pathway a meta strategy one that will ensure we can move forward together rather than squabbling over potential solutions while the world burns Vital and transformative What s Left confirms Malcolm Harris as next generation David Graeber or Mike Davis a historian activist who shows us where we stand and how we got here while also blazing a path toward a brighter future

Theories of Surplus Value Karl Marx,2020-10-04

Theories of Surplus Value is a book that unlike Marx actually needs an introduction *Theories* was intended to be collected and published as the fourth volume to Marx s *Capital* but after Engels had successfully collected and published volumes two and three after Marx s death Engels died before he could publish it *Theories* has had a long history of being in and out of publication and particularly in and out of being an actually accessible publication In 1905 the infamously hated by Lenin Karl Kautsky published the first edition of the manuscript in three volumes separated and rearranged by Adam Smith in volume one to David Ricardo in the other two volumes with the breakup of the Ricardian school as the third volume Kautsky s version circulated in print and was translated to many languages over the decades remaining the sole version of *Theories* until The Institute of Marxism Leninism published a new German version This arrangement while still relatively close to Kautsky s narrative arrangement of tracing surplus value from Smith to the Ricardian split into vulgar economics annotated the manuscript with different topic headings This version was then translated into English by Progress Publishers and this is the version of the book which circulates today and is considered to be the most accurate version to Marx s notebooks This Radical Reprint by Pattern Books is made to be accessible and as close to only manufacturing cost as possible This third volume of *Theories of Surplus Value* covers the confusion between the concepts of commodity and capital constant and variable capital and over production the problem of the relativizing the categories of value and equivalence John Stuart Mill s reduction of Ricardian s economic theories and the reductions of surplus value into profit theory and as Marx continually says its descent into being vulgar political economy These three volumes in totality are to show how the classical theories of value led to a theory stuck within the market paradigm and caught in the loop of capitalist circularity For Marx the current ontology of political economy only ruled within the scope of pragmatism within the market system and these programs no longer offered any integrated theory of capitalism

The Dream of the Great American Novel Lawrence Buell,2014-02-10

The idea of the great American novel continues to thrive almost as vigorously as in its nineteenth century heyday defying 150 years of attempts to dismiss it as amateurish or obsolete In this landmark book the first in many years to take in the whole sweep of national fiction Lawrence Buell reanimates this supposedly antiquated idea demonstrating that its history is a key to the dynamics of national literature and national identity itself The dream of the G A N as Henry James nicknamed it

crystallized soon after the Civil War In fresh in depth readings of selected contenders from the 1850s onward in conversation with hundreds of other novels Buell delineates four scripts for G A N candidates One illustrated by The Scarlet Letter is the adaptation of the novel s story line by later writers often in ways that are contrary to the original author s own design Other aspirants including The Great Gatsby and Invisible Man engage the American Dream of remarkable transformation from humble origins A third script seen in Uncle Tom s Cabin and Beloved is the family saga that grapples with racial and other social divisions Finally mega novels from Moby Dick to Gravity s Rainbow feature assemblages of characters who dramatize in microcosm the promise and pitfalls of democracy The canvas of the great American novel is in constant motion reflecting revolutions in fictional fashion the changing face of authorship and the inseparability of high culture from popular As Buell reveals the elusive G A N showcases the myth of the United States as a nation perpetually under construction Delphi Collected Works of Upton Sinclair (Illustrated) Upton Sinclair, 2023-04-02 Winner of the Pulitzer Prize in 1943 Upton Sinclair was a prolific American novelist and polemicist for socialism health temperance free speech and worker rights His classic muckraking novel The Jungle is regarded as a landmark naturalistic proletarian work praised by Jack London as the Uncle Tom s Cabin of wage slavery Sinclair also reached a wide audience with his Lanny Budd series of contemporary historical novels concerning the adventures of an antifascist hero who witnesses key events surrounding the two World Wars This comprehensive eBook presents Sinclair s collected works with numerous illustrations rare texts appearing in digital print for the first time informative introductions and the usual Delphi bonus material Version 1 Beautifully illustrated with images relating to Sinclair s life and works Concise introductions to the major novels 43 novels with individual contents tables The Complete Lanny Budd Series all eleven novels Features rare novels appearing for the first time in digital publishing Images of how the books were first published giving your eReader a taste of the original texts Excellent formatting of the texts Includes a selection of Sinclair s plays and non fiction Features two autobiographies discover Sinclair s intriguing life Ordering of texts into chronological order and genres CONTENTS The Lanny Budd Series World s End 1940 Between Two Worlds 1941 Dragon s Teeth 1942 Wide Is the Gate 1943 Presidential Agent 1944 Dragon Harvest 1945 A World to Win 1946 A Presidential Mission 1947 One Clear Call 1948 O Shepherd Speak 1949 The Return of Lanny Budd 1953 Other Novels A Prisoner of Morro 1898 Springtime and Harvest 1901 The Journal of Arthur Stirling 1903 On Guard 1903 The West Point Rivals 1903 A West Point Treasure 1903 A Cadet s Honor 1903 The Cruise of the Training Ship 1903 Manassas 1904 A Captain of Industry 1906 The Jungle 1906 The Overman 1907 The Metropolis 1908 The Moneychangers 1908 Samuel the Seeker 1910 Love s Pilgrimage 1911 Damaged Goods 1913 Sylvia 1913 Sylvia s Marriage 1914 King Coal 1917 Jimmie Higgins 1919 100% The Story of a Patriot 1920 They Call Me Carpenter 1922 The Millennium 1924 The Spokesman s Secretary 1926 Oil 1927 Boston 1928 The Gnomobile 1936 The Flivver King 1937 What Didymus Did 1954 Affectionately Eve 1961 The Plays Plays of Protest 1912 The Pot Boiler 1913 The Non Fiction The Industrial Republic 1907 Good Health and
