Launching Liberty Doug Most, 2025-08-19 Out of nothing but the government s behest a few bold men conjured a giant ship building industry in 1940 and launched the ships that took America to war and to victory In 1940 the shadow of war loomed large over American life President Roosevelt understood that it wasn t a matter of if the United States would be pulled into battle but when He foresaw a new kind of war one that hinged on efforts at home Long before the attack on Pearl Harbor German U boats were relentlessly attacking American vessels prompting Roosevelt to launch a monumental ship building campaign He knew that no matter how much weaponry and how many tanks planes and trucks America built the Arsenal of Democracy would be useless unless it could be brought in massive volume and at breakneck speed to troops fighting overseas Launching Liberty tells the remarkable story of how FDR partnered with private businessmen to begin the production of cargo freighters longer than a football field ships he affectionately dubbed ugly ducklings These colossal Liberty Ships took over six months to build at the start of his 350 million emergency shipbuilding program far too long The government turned to Henry Kaiser the man who had delivered the Boulder Dam ahead of schedule and under budget but had never built a ship in his life Kaiser established a network of shipyards from coast to coast and recruited tens of thousands of workers eager to contribute to the war effort Many particularly African Americans and women traveled from some of the most downtrodden rural parts of the nation to help their country and to find a better life of greater equality As German U boats maintained their pace of attack Roosevelt and Kaiser initiated a bold nationwide competition among shipyards to see who could construct ships the fastest Driven by duty and the thrill of innovation workers reduced the shipbuilding timeline from months to weeks and then to days Launching Liberty is a tapestry of voices reflecting the diverse American experience of World War II From the halls of the White House to the cramped quarters of half finished cargo ships we hear from naval architects welders nurses engineers daycare providers and mothers balancing family life with the

demands of wartime economy This book uncovers the inspiring untold stories of those who rose to the challenge during one of America s most tumultuous times **World War II in Literature for Youth** Patricia Hachten Wee,Robert James

Mrozek, 1998 *Sea History*, 2002 , *Maine Metaphor: The Gulf S.* Dorman, 2023-06-29 Each summer weekend can be like a holiday here in Maine Once to the Vikings it was rugged Vineland today Maine is Vacationland After a hard dirty winter mild air and watery sunlit places are calling an abundance of evocative coastal places within a couple minutes or couple of hours drive The author experienced one beach not typical of Maine It was different in a lively way She and her spouse Allen drove to Auburn for groceries and suddenly decided over lunch in the Nickel Diner to go visit Old Orchard Beach before grocery shopping Old Orchard Beach has long been a resort town situated in a curve of Saco Bay and full of mechanized carnival life its waterfront crammed with screaming or jovial activity shimmering in sunlight After a search in side streets full of summer lodgings and cars the travelers locate a place to park then walk down to the sea down to Maine on the Mediterranean **A History of Ship Launches and Their Ceremonies** George Hodgkinson, 2023-10-31 This is an interesting and informative book about a shipbuilding process that might be considered routine Far from it This fine book is full of centuries of launching methods ceremonies superstitions and mishaps PowerShips Throughout history man has been performing rituals at the launch of a new ship to seek supernatural or divine protection for his ship and those who will sail in her The form of the ritual varies according to local custom and religion from the breaking of a coconut to the release of doves to the role of astrologers in choosing an auspicious day for the launch But the sentiment that lies behind all launching ceremonies is fear At the moment of launching a new ship a seafarer is alert to any sign that his ship is not sound He is superstitious and seeks reassurance that his ship and those who will sail in her will be protected The rites of blood sacrifice and libations performed by the ancient Babylonians and Greeks are well evidenced The evolution of this practice into today's tradition of breaking a bottle of wine against the bow of a ship before launch still symbolising sacrifice is explored as well as the now widely practised custom of inviting ladies to name and launch new ships
