Motivating Teen and Preteen Readers Jeffrey Pflaum, 2011-07-21 *Motivating Teen and Preteen Readers* How Teachers and Parents Can Lead the Way contains over 1,000 diverse original fun creative absurd challenging questions on reading that will inspire adolescent reading lives from the inside out. The four books of questions contained in this volume are designed to help kids help themselves find their ways to a desire to read.

Intervention & Strategies in Counseling and Psychotherapy Richard E. Watts, Jon Carlson, 2013-08-21 Psychology has recently shifted toward a phenomenological approach closely aligned with theories originally put forth by noted psychologist Alfred Adler. However, modern approaches are often presented in a language that differs from the original theories with no acknowledgment to the contributions of Adler. *Interventions and Strategies in Counseling and Psychotherapy* corrects this oversight illustrating the many ways in which Adlerian ideas underpin and influence contemporary therapeutic approaches. Original chapters by leading thinkers in the field address the practice of counseling and psychotherapy from a social cognitive perspective and logically combine classic Adlerian theories with proven and effective methods from other approaches. The book covers a wide range of topics including play therapy, parent education, couples therapy, and problem-solving counseling. This book is essential reading not only for Adlerian psychologists but also for counselors, psychologists, and psychotherapists of any theoretical stripe who wish to keep their practical skills up to date. It is also of use to graduate and doctoral students enrolled in counseling and psychology programs.
