

Politically Incorrect Feminist Poem 1

So how would you feel if
you were lined up with the
80 virgins (I always thought
it was 76 - tough...)
lined up for
a 'martyr'
who'd just killed 80 people
including the odd fun-da-mental-ist?

Read the small print, honey.

(And that goes for you too, guys,
if the guy was.. well, you know?)

Just askin'...

The Killer And Other Politically Incorrect Poems:

Behind the Lines Philip Metres, 2007-05 Whether Thersites in Homer's Iliad Wilfred Owen in Dulce et Decorum Est or Allen Ginsberg in Wichita Vortex Sutra poets have long given solitary voice against the brutality of war The hasty cancellation of the 2003 White House symposium Poetry and the American Voice in the face of protests by Sam Hamill and other invited guests against the coming shock and awe campaign in Iraq reminded us that poetry and poets still have the power to challenge the powerful Behind the Lines investigates American war resistance poetry from the Second World War through the Iraq wars Rather than simply chronicling the genre Philip Metres argues that this poetry gets to the heart of who is authorized to speak about war and how it can be represented As such he explores a largely neglected area of scholarship the poet's relationship to dissenting political movements and the nation In his elegant study Metres examines the ways in which war resistance is registered not only in terms of its content but also at the level of the lyric He proposes that protest poetry constitutes a subgenre that by virtue of its preoccupation with politics history and trauma probes the limits of American lyric poetry Thus war resistance poetry and the role of what Shelley calls unacknowledged legislators is a crucial though largely unexamined body of writing that stands at the center of dissident political movements **The James White**

Leopard Desmond Morris, 2014-06-15 The sleek spotted leopard may be the smallest of the big cats but its ferocity and solitary style makes lions and tigers seem puny in comparison Lacking the social mentality of other animals the leopard is stealthy and selfish ambushing its prey and carrying it high into a tree where it can dine alone Humans call leopards the perfect predator In Leopard renowned zoologist Desmond Morris seeks to show all sides of the cat delving into the

fascinating history of these incredible animals Morris examines the leopard's athletic elegance predatory skill wary shyness and cunning intelligence while also exploring the animal's parental devotion preference for solitude and capacity for revenge In addition to tracing the evolution of leopards he considers how humans have related to the animal throughout history Leopards he shows have long featured in the art mythology and folklore of ancient Greece Persia Rome and even England where they have not lived for several millennia But humans and leopards do not always coexist peacefully as Morris explains leopards have been known to attack humans when their food is scarce or they are injured He reveals how humans have exploited the cats attempting to train them for circus roles and how today some people are now making strides toward the leopard's conservation He also describes their rich symbolism appearances in literature and film and the use of the leopard print in both haute couture and down market fashion Packed with compelling images of this amazing animal in action Leopard sheds new light on these gorgeous cats

Nobody's Business Brian M. Reed, 2013-08-15 Since the turn of the new millennium English language verse has entered a new historical phase but explanations vary as to what has actually happened and why What might constitute a viable avant garde poetics in the aftermath of such momentous developments as 9 11 globalization and the financial crisis Much of this discussion has taken place in ephemeral venues such as blogs e zines public lectures and conferences Nobody's Business is the first book to treat the emergence of Flarf and Conceptual Poetry in a serious way In his engaging account Brian M Reed argues that these movements must be understood in relation to the proliferation of digital communications technologies and their integration into the corporate workplace Writers such as Andrea Brady Craig Dworkin Kenneth Goldsmith Danny Snelson and Rachel Zolf specifically target for criticism the institutions skill sets and values that make possible the smooth functioning of a postindustrial globalized economy Authorship comes in for particular scrutiny how does writing a poem differ in any meaningful way from other forms of content providing While often adept at using new technologies these writers nonetheless choose to explore anachronism ineptitude and error as aesthetic and political strategies The results can appear derivative tedious or vulgar they can also be stirring compelling and even sublime As Reed sees it this new generation of writers is carrying on the Duchampian practice of generating antiart

that both challenges prevalent definitions of art and calls into question the legitimacy of the institutions that define it
