The Economics of Values, Ideals and Organizations Luigino Bruni,2021-03-18 Values based organizations are institutions communities and non governmental organizations NGOs which are inspired by a mission or a vocation for these

groups it is their ideals which are most important to them and economics does not have a way to incorporate that into its analysis This book provides a short introduction to the economics of values based organizations The book opens with an analysis of some phenomena common to all organizations the management of vulnerabilities in relationships and the role of incentives especially in relation to loyalty Turning to values based organizations more specifically the book explores the motivations of their members how they retain their most motivated people what happens when the ideals of the organization are perceived to have deteriorated and the decisions made by those in charge who focus on efficiency oblivious to values and identities The second part of the book explores the narrative dimensions of values based organizations Narrative capital is a precious resource in many of these organizations particularly through periods of crisis and change But problems can also be caused if the second and later generations after the foundations continue to use the original narrative without enough innovation Finally the book discusses the gaps the surpluses and misalignments between people their ideals and the organizations and how these can be managed The book is written for academics students and others interested in the role of values and ideals in organizations economists sociologist business scholars theologians and philosophers **Old School**

For the Love of Psychoanalysis Elizabeth Rottenberg, 2019-06-04 One of the most interesting scholars working at the intersection of deconstruction and psychoanalysis Rebecca Comay University of Toronto For the Love of Psychoanalysis is a book about what exceeds or resists calculation in life and in death Elizabeth Rottenberg examines what emerges from the difference between psychoanalysis and philosophy Part I Freuderrida announces a non traditional Freud a Freud associated not with sexuality repression unconsciousness and symbolization but with accidents and chance Looking at accidents both in and of Freud's writing Rottenberg elaborates the unexpected insights that both produce and disrupt our received ideas of psychoanalytic theory Whether this disruption is figured as a foreign body as traumatic temporality as spatial unlocatability or as the death drive it points to something neither simply inside nor simply outside the psyche neither

psychically nor materially determined Whereas the close reading of Freud leaves us open to the accidents of psychoanalytic writing Part II Freuderrida addresses itself to what transports us back and limits the openness of our horizon Here the example par excellence is the death penalty and the cruelty of its calculating decision If Freuderrida insists on the death penalty if it returns to it compulsively it is not only because its calculating drive is inseparable from the history of reason as philosophical reason it is also because the death penalty provides us with one of the most spectacular and spectacularly obscene expressions of Freud s death drive Brilliant pathbreaking witty and lucidly argued Elissa Marder Emory University this book will be essential reading for anyone interested in Freud Derrida and the many critical debates to which their thought gives rise Writing Appalachia Katherine Ledford,Theresa Lloyd,Rebecca Stephens,2020-03-17

Despite the stereotypes and misconceptions surrounding Appalachia the region has nurtured and inspired some of the nation s finest writers Featuring dozens of authors born into or adopted by the region over the past two centuries Writing Appalachia showcases for the first time the nuances and contradictions that place Appalachia at the heart of American history This comprehensive anthology covers an exceedingly diverse range of subjects genres and time periods beginning with early Native American oral traditions and concluding with twenty first century writers such as Wendell Berry bell hooks Silas House Barbara Kingsolver and Frank X Walker Slave narratives local color writing folklore work songs modernist prose each piece explores unique Appalachian struggles questions and values The collection also celebrates the significant contributions of women people of color and members of the LGBTQ community to the region s history and culture Alongside Southern and Central Appalachian voices the anthology features northern authors and selections that reflect the urban characteristics of the region As one text gives way to the next a more complete picture of Appalachia emerges a landscape of contrasting visions and possibilities
