## **The Kinneavy Papers Theory And The Study Of Discourse:**

**The Kinneavy Papers** Lynn Worsham, Sidney I. Dobrin, Gary A. Olson, 2000-04-20 Documenting an era of dramatic change and growth in the sophistication of scholarship in rhetoric and composition studies this book includes essays which find in contemporary theory the language to ask new questions to reframe existing problems and to move beyond current impasses in thought and action The different perspectives offer a stand against current backlash theory as seen in the reassertion of expressivism and creative writing as the antidote to the difficulties wrought by too much theorizing All the essays included are winners of the James L Kinneavy Award and celebrate the award's tenth anniversary as well as its founder one of the discipline's most learned and beloved scholars Contributors include David Bleich Richard M Coe William A Covino Reed Way Dasenbrock Sidney I Dobrin Lester Faigley Pamela K Gilbert Susan C Jarratt Bruce McComiskey Michael Murphy Richard E Miller Jasper Neel Gary A Olson Joseph Petraglia George L Pullman Joy S Ritchie Phillip Sipiora David W Smit Patricia A Sullivan John Trimbur Nancy Welch and Lynn Worsham *Rhetoric and Composition As Intellectual Work* Gary A. Olson, 2002 In response to those who insist that rhetoric and composition should remain only a service discipline editor Gary A Olson's *Rhetoric and Composition as Intellectual Work* demonstrates that it already is an intellectual discipline that for at least a quarter of a century the field has developed an impressive tradition of intellectual work in a remarkable assortment of subject areas *Rhetoric and Composition as Intellectual Work* suggests the diversity of intellectual projects that have and will continue to make rhetoric and composition more than a service to the university more than a field devoted solely to improving writing pedagogy and more than a preliminary to literary studies This collection of nineteen essays by some of the most distinguished scholars in the discipline illustrates that rhetoric and composition has much to contribute to the intellectual milieu of the contemporary university as the field continues to push its disciplinary borders and discover new sites of investigation Publisher's description [Spectacular Rhetorics](#) Wendy Hesford, 2011-08-05 Scrutinizes spectacular rhetoric the use of visual images and imagery to construct certain bodies populations and nations as victims and incorporate them into human rights discourses geared toward Westerners [Being at Genetic Risk](#) Kelly Pender, 2020-04-27 Rhetorics of choice have dominated the biosocial discourses surrounding BRCA risk for decades telling women at genetic risk for breast and ovarian cancers that they are free to choose how and whether to deal with their risk Critics argue that women at genetic risk are in fact not free to choose but rather are forced to make particular choices In *Being at Genetic Risk* Kelly Pender argues for a change in the conversation around genetic risk that focuses less on choice and more on care *Being at Genetic Risk* offers a new set of conceptual starting points for understanding what is at stake with a BRCA diagnosis and what the focus on choice obstructs from view Through a praxiographic reading of the medical practices associated with BRCA risk Pender's analysis shows that genetic risk is not just something BRCA women know but also something that they do It is through this doing that genetic cancer risk becomes a reality in their lives one that we can explain but not one that we

can explain away Well researched and thoughtfully argued *Being at Genetic Risk* will be welcomed by scholars of rhetoric and communication particularly those who work in the rhetoric of science technology and medicine as well as scholars in allied fields who study the social ethical and political implications of genetic medicine Pender s insight will also be of interest to organizations that advocate for those at genetic risk of breast and ovarian cancers *Ethnography Unbound* Stephen Gilbert Brown,Sidney I. Dobrin,2012-02-01 These provocative new essays redefine the goals methods and assumptions of qualitative and ethnographic research in composition studies making evident not only the crucial importance of ethnographic research but also its resilience As *Ethnography Unbound* makes evident critical ethnographers are retheorizing their methodologies in ways that both redefine ethnographic practices and values and at the same time have begun to liberate ethnographic practices from the often disabling stronghold of postmodern critique Showing how ethnography works through dialogic processes and moves toward political ends this collection opens the doors to rethinking ethnographic research in composition studies **Rhetoric and Composition** Steven Lynn,2010-09-30 Rhetoric and composition is an academic discipline that informs all other fields in teaching students how to communicate their ideas and construct their arguments It has grown dramatically to become a cornerstone of many undergraduate courses and curricula and it is a particularly dynamic field for scholarly research This book offers an accessible introduction to teaching and studying rhetoric and composition By combining the history of rhetoric explorations of its underlying theories and a survey of current research with practical examples and advice Steven Lynn offers a solid foundation for further study in the field Readers will find useful information on how students have been taught to invent and organize materials to express themselves correctly and effectively and how the ancient study of memory and delivery illuminates discourse and pedagogy today This concise book thus provides a starting point for learning about the discipline that engages writing thinking and argument *Writing Environments* Sidney I. Dobrin,Christopher J. Keller,2005-01-27 Including interviews with several of America s leading environmental writers this volume addresses the intersections between writing and nature *Ecocomposition* Christian R. Weisser,Sidney I. Dobrin,2012-02-01 *Ecocomposition* examines current trends in universities toward more environmentally sound work explores the intersections between composition research that is discourse studies and ecostudies and offers possible pedagogies for the composition classroom Never before have the intersections between ecotheory and composition studies in theory and pedagogy been addressed in this much depth or detail As universities become increasingly concerned with issues of the environment within academic disciplines across the spectrum this book brings together a diverse group of prominent voices to discuss the development of *ecocomposition* and its possibilities and to argue for a greening of composition studies through which to engage the world in which we live **Dialogue on Writing** Geraldine DeLuca,Len Fox,Mark -Ameen Johnson,Myra Kogen,Geri DeLuca,2013-06-17 This primary textbook for courses on theories methods of teaching at the college writing level brings together seminal articles followed by questions for reflection writing and

discussion      Critical Intellectuals on Writing Gary A. Olson, Lynn Worsham, 2010-11-15 Writing is central to the work of all intellectuals yet any given scholar's relationship to writing is a uniquely personal one Gary A Olson and Lynn Worsham bring together some of the world's leading scholars from a variety of disciplines to examine how they conceive of their own relationship to writing and to the work of being a critical intellectual Using excerpts from interviews originally published in JAC each scholar's thoughts are revealed about writing habits how writing relates to intellectual work and the politics of intellectual work Included are excerpts of interviews with the following Gloria Anzaldá Mary Field Belenky Homi Bhabha Judith Butler Noam Chomsky Donald Davidson Jacques Derrida Michael Eric Dyson Stanley Fish Paulo Freire Clifford Geertz Henry Giroux Stuart Hall Donna Haraway Sandra Harding bell hooks Luce Irigaray Ernesto Laclau Jean François Lyotard J Hillis Miller Chantal Mouffe Avital Ronell Richard Rorty Gayatri Chakravorty Spivak Jane Tompkins Stephen Toulmin and Slavoj Žižek      JAC, 2005      American Book Publishing Record, 2000      **Encyclopedia of Rhetoric and Composition** Theresa Enos, 2013-10-08 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company      **The SAGE Handbook of Organizational Discourse** David Grant, 2004-08-24 Providing an overview of domains such as study methodologies and perspectives used in research this text shows how discourse analysis has moved beyond its roots in literary theory to become an important approach in the study of organizations      Encyclopedia of Rhetoric and Composition Theresa Jarnagin Enos, 2011-04-06 This reference guide surveys the field covering rhetoric's principles concepts applications practical tools and major thinkers Drawing on the scholarship and expertise of 288 contributors the Encyclopedia presents a long needed overview of rhetoric and its role in contemporary education and communications discusses rhetoric's contributions to various fields surveys the applications of this versatile discipline to the teaching of English and language arts and illustrates its usefulness in all kinds of discourse argument and exchange of ideas      **The Battles of Texas** Nate Kreuter, Mark Garrett Longaker, 2025-01-07 The 1980s were a consequential decade for universities The marketization of higher education the adjunctification of labor and culture wars over curriculum transformed the landscape in a short period of time The Battles of Texas traces the lived consequences of this upheaval by focusing on one influential institution the writing program at the University of Texas at Austin Drawing from university records newspaper archives and present day interviews Nate Kreuter and Mark Garrett Longaker provide an on the ground perspective of the radical creation of UT Austin's writing program and the subsequent events that made national headlines the mass firing of lecturers in 1985 the national debate over multicultural content in the first year curriculum and the divorce of the writing program from the English Department in 1992 Despite these pressures however the authors also reveal how writing program administrators at UT Austin exerted their own agency to resist economic and political forces in service of their students and adjunct lecturers By highlighting the parallels between the 1980s and current labor and political pressures in higher education The Battles of Texas offers a strategic perspective for academics and administrators today Combining a narrative institutional history with a
