Lawrence, 2020-10-01 The acclaimed author of *Sons and Lovers* explores the effects of war on humanity in three novellas Written between November 1920 and December 1921 these novellas were enthusiastically received by D.H. Lawrence's readers Including the original ending of *The Fox* the Cambridge edition adds new depth to the legacy of Lawrence's story of a disruptive fox in a troublesome time A visit to Austria in 1920 inspired the characters and settings of *The Captain's Doll* diving into a storied relationship between a Scottish soldier and a German countess in occupied Germany Also featuring the original unedited edition of *The Ladybird* a heartbreaking tale of a wounded soldier and the English nurse who tended his wounds this is a complete collection of three of Lawrence's brilliantly crafted war stories about human emotions and relationships *The Ladybird Book of London* John Lewesdon, 1961 **Ecology and Behaviour of the Ladybird Beetles (Coccinellidae)** Ivo Hodek, A. Broken Men Fiona Reid, 2014-03-04 Shell shock achieved a very high political profile in the years 1919-1922 Publications ranging from John Bull to the Morning Post insisted that shell shocked men should be treated with respect and the Minister for Health announced that the government was committed to protecting shell shocked men from the stigma of lunacy Yet at the same time many mentally wounded veterans were struggling with a pension system which was failing to give them security It is this conflict between the political rhetoric and the lived experience of many wounded veterans that explains why the government was unable to dispel the negative wartime assessment of official shell shock treatment There was also a real conflict between the government's wish to forget shell shock whilst memorialising the war and remembering the war dead As a result of these contradictions shell shock was not forgotten on the contrary the shell shocked soldier quickly grew to symbolise the confusions and inconsistencies of the Great War

From Biological Control to Invasion: the Ladybird *Harmonia axyridis* as a Model Species Helen E. Roy, Eric Wajnberg, 2008-01-26 *Harmonia axyridis* has been described as the most invasive ladybird on Earth It has a long history of use as a classical biological control agent in the USA and more recently in Europe This beetle has been effective at controlling pest insects in a variety of crop systems but it poses unacceptable risks by impacting on non target species as both an intraguild predator and competitor Written by renowned scientists this book is a synthesis of recent research on *H. axyridis* and provides informative insights into current perspectives and future directions Biological control is an essential component of sustainable agriculture but the distinction between a successful biological control agent and an invasive species can be narrow We hope that lessons can be learnt from *H. axyridis*
