U.S. Democracy in Danger Adebowale Akande, 2023-10-19 Historically Donald Trump will be remembered as the first American president to be impeached twice and indicted He fed the grotesque myth that the election was stolen and summoned his supporters to storm Congress on 6 January 2021 in a bid to thwart the certification of Joe Biden's U.S. presidential election victory This volume vividly recounts the dramatic narrative of the January 6 Coup in America and how close we came to losing U.S. democracy For anyone seeking a comprehensive and multidisciplinary global overview of democracy an astute analysis of the forces that drive the dominance of the neo-liberal paradigm of the last decades should look no further than this volume Yet the volume takes the issue further by vigorously documenting the decline of the U.S. treaty process America's dysfunctional diplomacy and the doctrine of unpredictability There is an urgent need for a massive infusion of strategic support for democracy in the United States Because come 2024 or thereafter an unfinished work might drag American democracy to a dangerous inflection point Trump who has a complete hold on the Republican party still has a stranglehold on the MAGA base no matter what he does was instrumental to the breaking of U.S. diplomacy Undermining the democratic legitimacy of International Law adversely affected U.S. foreign policy Some federal and lower courts in the judiciary of the United States pose a real threat to Americans' democracy as well To that end when the principle of truth loses its relevance and meaning as benchmarks for appraisals and decisions and becomes a harmful tool for willful propaganda Everybody should be worried about U.S. democracy A real crisis is coming U.S. Democracy is at a breaking point Like a giant modern mirror standing behind democracy itself this book is a citizen's guide to saving U.S. Democracy Expertly drawn on global and regional examples and current literature the volume closes a gap in the multidisciplinary field Quite useful as a valuable resource as it helps us understand the shifting Trump agenda in diverse areas Essential reference across a range of subjects bringing together contributions from scholars and policymakers alike This extraordinarily well researched and practically crafted culture inclusive text could not be more relevant or timelier It is a must for everyone This volume will help to shape the political landscape of the 21st century and will remain a vital source of inspiration for modern day scholars and political activists

Fur, Fin and Feather: a Compilation of the Game Laws of the Principal States and Provinces of the United States and Canada United States,1870 *The Language Game* Thomas Edward Dutton,Malcolm Ross,Darrell T. Tryon,1992

The Privatised World Arthur Brittan,2024-10-31 Unemployment and the economic crisis are the brutal facts of life in the everyday world around us For many the only retreat from this is to the privatized world of the suburbs middle class housing estates and high rise developments a separate world in which the individual often feels entrapped and politically impotent In *The Privatised World* first published in 1978 Arthur Brittan argues that the experience of privatisation in contemporary society is reflected in sociology by the proliferation of social theories which appear to be obsessed with the self and consciousness Carefully avoiding the pitfalls of a merely autobiographical response he analyses the phenomenon and concludes that it is precisely because the privatised world does dominate the consciousness of so many people in Western societies that it is difficult to dismiss the partial and pessimistic theories which so many social theorists have employed to explain their predicament This book will be of interest to students and researchers of sociology and social psychology

Transcending Postmodernism M. Kaplan,I. Hamati-Ataya,2013-11-26 Contemporary philosophy is torn between a reliance on the pragmatic meanings of designated objects and a foundation based on formal theory This book shows that philosophical knowledge which no more has a terminal state than an infinite set has a last term advances when the dialectical relationship between the two approaches is synthesized The choice of designations is intimately related to theory and the form of theory is intimately related to the character of designated objects The intimate dialectical relationship between theory and meaning is explored in detail in the area of international theory The recent emphasis on realism rests on a regressive misunderstanding of the dialectical relationship between theory and

Beyond the Inner and the Outer M. ter Hark, 2012-12-06 Wittgenstein s aphoristic style holds great charm but also a great danger the reader is apt to glean too much from a single fragment and too little from the fragments as a whole In my first confrontations with the Philosophical Investigations I was such a reader and so it turned out were most of the writers on Wittgenstein s later philosophy Wittgenstein s remarkable ability to bring together many facets of his thought in one fragment is fully exploited in the critical literature but hardly any attention is paid to the connection with other fragments let alone to the many hitherto unpublished manuscripts of which the Philosophical Investigations is the final product The result of this fragmentary and ahistorical approach to Wittgenstein s later work is a host of contradictory interpretations What Wittgenstein really wanted to say remains insufficiently clear Opinions are also strongly divided about the value of his work Some authors have been encouraged by his aphorisms and rhetorical questions to dismiss the whole Cartesian tradition or to halt new movements in linguistics or psychology others exasperated reject his philosophy as anti scientific conceptual conservatism After consulting unpublished notebooks and manuscripts which Wittgenstein wrote between 1929 and 1951 I became a very different reader Wittgenstein turned out to be a kind of Leonardo da Vinci who pursued a form from which every sign of chiseling every attempt at improvement had been effaced
