Weir, 2014-06-06 Reading in a Second Language sets the testing and teaching of reading against a theoretical background discussing research from both applied linguistics and cognitive psychology Where possible it focuses on research into second language readers and distinguishes different kinds of reading particularly expeditious as opposed to careful reading and emphasizes the validity of each Sandy Urquhart and Cyril Weir relate testing and teaching discussing similarities and differences providing a comprehensive survey of both methods with the emphasis on those which have been substantiated or supported by research evidence Finally the book proposes specific research topics and detailed advice on how to construct tests of language for academic purposes and suggestions for further research

**The Hermeneutics of Distraction in Early Medieval England** Erica Weaver, 2025-02-12 Distraction is now too easily and often considered a metonym for modern consciousness but it was also a medieval concern which posed a particular threat to religious life Distraction opened the door to all other temptations and most disturbingly of all for the monastic communities at the heart of this book it invalidated central devotional acts like reading praying and reciting the Psalms Far from an innocuous sensation distraction posed a significant spiritual danger It also generated powerful countervailing responses in literature pedagogy and religious observance profoundly shaping literary interpretation in the process The Hermeneutics of Distraction in Early Medieval England writes this cultural and intellectual history It comes at the topic of distraction through the study of the affective practices of a particular community of writers and readers the influential circle of the Wold Bishop of Winchester

963 984 It also explores the implications of this focused study both for a larger historical context Western monasticism from the fifth century to the twelfth and for the history of a unifying concept the experience of distraction In doing so this book reveals that the pervasive threat of distraction precipitated the development of several different tactics for reorienting attention especially in the tenth century monastic correction movement traditionally known as the Benedictine Reform which reshaped monastic life across Europe From the development of the hermeneutic style to new textual and theatrical modes these correctional projects make visible an enduring problem present from the beginnings of monasticism and persisting throughout its long history
