THE LAST
EUROPEAN
WAR **SEPTEMBER 1939-**
DECEMBER 1941

The Last European War September 1939 December 1941

Patrick Allitt

The Last European War September 1939 December 1941:

The Last European War, September 1939/December 1941 John Lukacs, 1976 This book describes the history of an entire continent during the two years from September 1939 to December 1941 John Lukacs looks at many of the myths military and political that still obscure the history of the Second World War He shows how the war was experienced by the many varieties of Europeans involved in it and presents a vivid picture of a civilization at the moment of its greatest agitation

The Last European War John Lukacs, 1941 Marriage and Fatherhood in the Nazi SS Amy Carney, 2018-01-01
Marriage and Fatherhood in the Nazi SS by Amy Carney is the first work to significantly assess the role of SS men as husbands and fathers These families contributed to the transformation of the SS into a racially elite family community that was poised to serve as the new aristocracy of the Third Reich

The Great Powers and Poland Jan Karski, 2014-01-16
This definitive study provides a comprehensive diplomatic history of Poland during the most seminal period in its existence when its destiny lay in the hands of France Great Britain and the United States Although sovereign in principle Poland was little more than an object of the Great Powers politics and rapidly changing relationships from the end of WWI to the end of WWII Focusing on the shifting policies of the Great Powers toward Poland from the Treaty of Versailles to Yalta the book ends with Poland's tragic abandonment by the West into the hands of the Soviet Union Enriched by unique anecdotal and archival material this book will be essential reading for all those seeking to understand Poland's role in twentieth century history

A Companion to Europe, 1900 - 1945 Gordon Martel, 2011-03-21 This volume brings together a distinguished group of international scholars to discuss the major debates in the study of early twentieth century Europe Brings together contributions from a distinguished group of international scholars Provides an overview of current thinking on the period Traces the great political social and economic upheavals of the time Illuminates perennial themes as well as new areas of enquiry Takes a pan European approach highlighting similarities and differences across nations and regions

History and the Human Condition John Lukacs, 2014-04-08 In a career spanning more than sixty five years John Lukacs has established himself as one of our most accomplished historians Now in the stimulating book History and the Human Condition Lukacs offers his profound reflections on the very nature of history the role of the historian the limits of knowledge and more Guiding us on a quest for knowledge Lukacs ranges far and wide over the past two centuries The pursuit takes us from Alexis de Tocqueville to the atomic bomb from American exceptionalism to Nazi expansionism from the closing of the American frontier to the passing of the modern age Lukacs's insights about the past have important implications for the present and future In chronicling the twentieth century decline of liberalism and rise of conservatism for example he forces us to rethink the terms of the liberal versus conservative debate In particular he shows that what passes for conservative in the twenty first century often bears little connection to true conservatism Lukacs concludes by shifting his gaze from the broad currents of history to the world immediately around him His reflections on his home his town his career and his experiences as an

immigrant to the United States illuminate deeper truths about America the unique challenges of modernity the sense of displacement and atomization that increasingly characterizes twenty first century life and much more Moving and insightful this closing section focuses on the human in history masterfully displaying how right Lukacs is in his contention that history at its best is personal and participatory History and the Human Condition is a fascinating work by one of the finest historians of our time More than that it is perhaps John Lukacs s final word on the great themes that have defined him as a historian and a writer

International History of the Twentieth Century and Beyond Anthony Best,2008 This major global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors cover events in Europe Asia the Middle East Africa and the Americas from the last century and beyond Among the areas this book covers are the decline of European hegemony over the international order the diffusion of power to the two superpowers the rise of newly independent states in Asia and Africa the course and consequences of the major

The End of Illusions Joseph Loconte,2004-10-01 The rise of Islamic radicalism has led to heated discussions about how best to address the threat of religious terror Disputes covering the right and wrong of war with Iraq and the even bigger war on terrorism continue to rage across America But this is not the first argument of this nature America was faced with a similar moral dilemma on the eve of World War II Fascism was conquering Europe and religious leaders across the nation vehemently debated how to confront Nazi Germany In The End of Illusions Religious Leaders Confront Hitler s Gathering Storm Joseph Loconte brings together pieces from the most significant religious thinkers of the pre war period In these essays the writers eloquently and passionately present their arguments for going to war or maintaining the peace In doing so they explore issues vibrantly relevant today including the Christian cause for war the problem of evil and America s role in the world These urgently written pieces connect the past with the present and resonate with renewed clarity and poignancy

International History and International Relations Andrew J. Williams,Amelia Hadfield,J. Simon Rofe,2012 This innovative new textbook seeks to provide undergraduate students of international relations with valuable and relevant historical context bridging the gap and offering a genuinely interdisciplinary approach Each chapter integrates both historical analysis and literature and applies this to an international relations context in an accessible fashion allowing students to understand the historical context in which these core issues have developed The book is organised thematically around the key issues in international relations such as war peace sovereignty identity empire and international organisations Each chapter provides an overview of the main historical context theories and literature in each area and applies this to the study of international relations Providing a fresh approach this work will be essential reading for all students of international relations and international relations theory

World War II in Literature for Youth Patricia Hachten Wee,Robert James Wee,2004-11-10 This comprehensive volume provides a wealth of information with annotated listings of more than 3 500 titles a broad sampling of books on the war years 1939 1945 Includes both fiction and nonfiction

works about all aspects of the war Professional resources for educators aligned to the educational standards for social studies technical references periodicals and electronic resources a directory of WWII museums memorials and other institutions and topics for exploration complement this excellent library and classroom resource

What Ifs of Jewish History Gavriel D. Rosenfeld, 2016-09-08 Counterfactual history of the Jewish past inviting readers to explore how the course of Jewish history might have been different

The Strange Survival of Liberal Britain Vernon Bogdanor, 2022-10-20

Masterly A fascinating tour d horizon of the Edwardian political scene This must be a definitive account Professor Jane Ridley author of *George V Never a Dull Moment* A tour de force sympathetic in its treatment of the subject eminently wise in its judgement and invariably fair in its verdicts It purrs along like a Rolls Royce engine Professor T G Otte author of *Statesman of Europe A Life of Sir Edward Grey* This brilliant book from Britain s most important constitutional historian upends the orthodoxy about the decadent Edwardians A masterpiece of intelligent history both forceful and subtle which transforms how we view not just those most complex Edwardians but also our own equally complex times Professor Richard Aldous author of *The Lion and the Unicorn Gladstone vs Disraeli* Brilliant Instantly the leading history of this turbulent and critical period in Britain s transition towards a modern democracy Professor Robert Blackburn King s College London Vernon Bogdanor has the habit of unearthing gems that have been missed by others He does it again in this magisterial work on post Gladstonian Britain by challenging some of the long established myths about this period that deserve to be cast aside Professor Malcolm Murfett King s College London Professor Bogdanor argues with conviction and sometimes passion but always with judiciousness and in the light of deep reflection The result is a masterly work which speaks to the politics of our own time Alvin Jackson Richard Lodge Professor of History University of Edinburgh An extraordinary exploration of a political world whose dynamics continue to shape the future of liberal constitutionalism Bruce Ackerman Sterling Professor of Law and Political Science Yale University Crisp authoritative and lucid Nicholas Owen associate professor of politics University of Oxford The turbulent years of 1895 to 1914 changed Britain s political landscape for ever They saw a transition from aristocratic rule to mass politics and heralded a new agenda which still dominates today The issues of the period economic modernisation social welfare and equality secondary and technical education a new role for Britain in the world were complex and difficult Indeed they proved so thorny that despite the efforts of the Edwardians they remain among the most pressing problems we face in the twenty first century The period has often been seen as one of decadence of the strange death of liberal Britain In contrast Vernon Bogdanor believes that the robustness of Britain s parliamentary and political institutions and her liberal political culture with the commitment to rational debate and argument were powerful enough to carry her through one of the most trying periods of her history and so make possible the remarkable survival of liberal Britain In this wide ranging and sometimes controversial survey one of our pre eminent political historians dispels the popular myths that have grown up about this critical period in Britain s story and argues that it set the scene for much that is

laudable about our nation today *Hitler Strikes North* Jack Greene, Alessandro Massignani, 2013-03-19 A detailed account of Germany's groundbreaking Operation Weserbung the first three dimensional land sea air strategic invasion in history The German invasion of Denmark and Norway in April 1940 brought a sudden and shocking end to the Phoney War in the West In a single day multiple seaborne and airborne landings established German forces ashore in Norway overwhelming the unprepared Norwegian forces and catching the Allied Powers completely by surprise Their belated response was ill thought out and badly organized and by June 9 all resistance had formally ended The strategic importance of Scandinavian iron ore shipped through the port of Narvik to Germany was the main cause of the campaign The authors show how Allied attempts to interdict these supplies provoked German plans to secure them and also how political developments in the inter war years resulted in both Denmark and Norway being unable to deter threats to their neutrality despite having done so successfully in the First World War The German attack was their first joint air sea and land operation making large scale use of air landing and parachute forces and the Luftwaffe's control of the air throughout the campaign would prove decisive Although costly particularly for the Kriegsmarine it was a triumph of good planning improvisation and aggressive determined action by the troops on the ground Making full use of Norwegian Danish and German sources this book is a full and fascinating account of this highly significant campaign and its aftermath both for the course of the Second World War and the post war history of the two countries conquered with such unprecedented speed **Air University Library Index to Military Periodicals**, 1977 **The Rise and Fall of the Great Powers** Paul Kennedy, 2010-10-27 About national and international power in the modern or Post Renaissance period Explains how the various powers have risen and fallen over the 5 centuries since the formation of the new monarchies in W Europe *Restoring Democracy to America* John F. M. McDermott, 2010-12-13 If the current economic malaise accomplishes nothing else it should help awaken us all to the realization that our country has been on a path of self destructive behavior for several decades a reversal of the progressive path that had made major gains in economic and political equality for a large majority of the U S population starting in the 1870s It is John McDermott's purpose in this ambitious book to explain why that reversal happened how society has changed in dramatic ways since the 1960s and what we can do to reverse this downward spiral In Part 1 he endeavors to lay out the overall narrative of change from the 1960s to the present emphasizing how a novel social structure came to be developed around corporate America to form what he calls corporate society Part 2 analyzes what the nature of this corporate society is how it is a special type of fabricated structure and why it came to dominate society generally eventually including the government and university systems which themselves became increasingly corporatized The aim of Part 3 is to outline a path of reform that can if all its parts can be integrated sufficiently to be effective put us on the path to restarting the progressive movement **The Future of History** John Lukacs, 2011-04-26 Reflects upon the discipline of history claiming that the writing and teaching of history in higher education is in decline and explores ways in which the future of the discipline can thrive *The Pursuit of Victory*

Brian Bond, 1998 In Western Europe and North America the idea that war can deliberately be used as an instrument of policy has become unfashionable not least because of the carnage of two World Wars and the Americans humiliating experience in Vietnam But wars are still fought Those who start wars clearly believe they are worthwhile Why In this original and provocative study Brian Bond discusses the successes and failures of military and political leaders in their pursuit of victory over the last two centuries Professor Bond argues that in order to be counted victorious a leader has to progress beyond military triumph to preserve the political control needed to secure an advantageous and enduring peace settlement Napoleon was a brilliant general but failed as a statesman Bismarck on the other hand was a success in skilfully exploiting Moltke's victories on the battlefield to create a unified Germany In the First World War Germany and her allies were defeated but at such great cost that confidence in the idea that war could be controlled and the pursuit of victory made rational received a terrible shock Germany and Japan exploited their military opportunities between 1939 and 1942 but lack of political control and moderation brought them catastrophic defeat After 1945 nuclear weapons and the increased complexity of international relations blurred the identity of victors and losers and seemed to make the idea of a decisive victory almost unthinkable But this study warns against the assumption that war as an instrument of policy has now been completely discarded The Falklands and Gulf conflicts show that aggressors are still prepared to risk war for tangible goals and that their opponents are quite capable of responding successfully to such challenges

Catholic Intellectuals and Conservative Politics in America, 1950-1985 Patrick Allitt, 2019-01-24 At the end of World War II conservatism was a negligible element in U S politics but by 1980 it had risen to a dominant position Patrick Allitt helps explain the remarkable growth of the contemporary conservative movement in the light of Catholic history in the United States Allitt focuses on the role of individual Catholics against a backdrop of volatile cultural change showing how such figures as William F Buckley Jr Garry Wills John T Noonan Jr Michael Novak John Lukacs Thomas Molnar Russell Kirk Clare Boothe Luce Ellen Wilson Charles Rice and James McFadden forged a potent anti liberal intellectual tradition Catholic Intellectuals and Conservative Politics in America 1950 1985 is much more than a history of conservative Catholics for it illuminates critical themes in postwar American society As Allitt narrates the interplay of liberal and conservative politics among Catholics he unfolds a history both intricate and sweeping After describing how New Conservatism was shaped in the 1950s by William F Buckley Jr and an older generation of Catholic thinkers including Ross Hoffman and Francis Graham Wilson Allitt traces the range of Catholic responses to the cataclysmic events of the 1960s the election of John F Kennedy the civil rights movement the decolonization of Africa Supreme Court decisions on school prayer the war in Vietnam and nuclear arms proliferation He shows how the transformation of the Church prompted by the Second Vatican Council not only intensified existing divisions among Catholics but also shattered the unity of the Catholic conservative movement Turning to the 1970s Allitt chronicles bitter controversies concerning family roles contraception abortion and gay rights Next comparing the work of John Lukacs Thomas Molnar Garry

Wills and Michael Novak from the 1950s through the 1980s Allitt demonstrates how individual Catholic conservatives drew different lessons from similar contingencies He concludes by assessing recent ideological shifts within American Catholicism using as his test case the conservative resistance to the Catholic Bishops 1983 Pastoral Letter on Nuclear Weapons Offering new insight into the subtle interplay between religion and politics Catholic Intellectuals and Conservative Politics in America 1950 1985 will be engaging reading for everyone interested in the postwar evolution of American politics and culture

June 1940, Great Britain and the First Attempt to Build a European Union Andrea Bosco, 2016-06-22 June 2016 represents a significant moment in British history The decision to leave the European Union at the most critical period since its existence could bring unpredictable and far reaching consequences both for the United Kingdom and the Union itself June 1940 was also a turning point in British history On the afternoon of 16 June a few hours before the French Government opted for the capitulation Churchill made on behalf of the British Government an offer of indissoluble union When a sceptical Churchill put forward to the British Cabinet the text of the declaration drafted by Jean Monnet Sir Arthur Salter and Robert Vansittart he was surprised at the amount of support it received The Cabinet adopted the document with some minor amendments and de Gaulle who saw it as a means of keeping France in the war telephoned Reynaud with the proposal for an indissoluble union with joint organs of defence foreign financial and economic policies a common citizenship and a single War Cabinet The proposal however never reached the table of the French Government The spirit of capitulation embodied in Weygand and P tain prevailed and France submitted herself to the German will for the second time in seventy years After the Munich crisis Great Britain had to face the danger of another European war with the inevitable loss of the Empire and it was at this point that the country first began to favour the application of the federalist principle to Anglo French relations In this conversion to federalism a fundamental role was played by the Federal Union the first federalist movement organised on a popular basis The contribution of Federal Union to the development of the federal idea in Great Britain and Europe was to express and organise the beginning of a new political militancy and it represented the first step of a historical process the overcoming of the nation State the modern political formula which institutionalises the political division of mankind This study principally examines the first eighteen months of the Federal Union during which time it was able to raise itself to the attention of the general public and the political class as the heir of the League of Nations Union The research is based on extensive unpublished archival material found across the globe from London Oxford Brighton and Edinburgh to Washington Paris and Geneva
