

WIND

The diagram shows a green hill on the right side of the frame. Three blue arrows originate from the left, representing wind flow. The bottom arrow is horizontal, while the two above it curve upwards as they approach the hill. A dashed arrow points to the right, labeled 'WIND'. The word 'SLOPE' is written in yellow on the hillside. The text 'Wind forced upwards over hill' is in the top right corner.

Byers, Donald A. Friend, Thomas Kohler, Larry W. Price, 2013-08-24 Mountains cover a quarter of the Earth's land surface and

a quarter of the global population lives in or adjacent to these areas The global importance of mountains is recognized

particularly because they provide critical resources such as water food and wood contain high levels of biological and

cultural diversity and are often places for tourism and recreation and or of sacred significance This major revision of Larry

Price's book Mountains and Man 1981 is both timely and highly appropriate The past three decades have been a period of

remarkable progress in our understanding of mountains from an academic point of view Of even greater importance is that

society at large now realizes that mountains and the people who reside in them are not isolated from the mainstream of

world affairs but are vital if we are to achieve an environmentally sustainable future Mountain Geography is a comprehensive

resource that gives readers an in depth understanding of the geographical processes occurring in the world's mountains and

the overall impact of these regions on culture and society as a whole The volume begins with an introduction to how mountains are defined followed by a comprehensive treatment of their physical geography origins climatology snow and ice landforms and geomorphic processes soils vegetation and wildlife The concluding chapters provide an introduction to the human geography of mountains attitudes toward mountains people living in mountain regions and their livelihoods and interactions within dynamic environments the diverse types of mountain agriculture and the challenges of sustainable mountain development
