technological world and how bands can use integrated marketing communication to effectively brand themselves This branding is intended as a protection so that technology and delivery changes don't stifle the bands success KISS AC DC Ozzy Osbourne Phish and Miley Cyrus are all popular musical influences considered in this part of the analysis In the second section the authors explore how some musicians effectively use attention grabbing issues such as politics for example Kanye West and countless country musicians and religion such as with Christian heavy metal bands and Bon Jovi in their lyrics and also how imagery is utilized by artists such as Marilyn Manson to gain a fan base Finally the book will explore specific changes in the media available to market music today see M I A and her use of new media and similarly how these resources can benefit music icons even after they are long gone as with Elvis and Michael Jackson Rock Brands further examines gaming reality television and social networking sites as new outlets for marketing and otherwise experiencing popular music What makes some bands stand out and succeed when so many fail How does one find a niche that isn't just kitsch and can stand the test of time allowing the musician to grow as an artist as well as grow a substantial fan base Elizabeth Barfoot Christian and the book's contributors expertly navigate these questions and more in Rock Brands Selling Sound in a Media Saturated Culture

The Bully Society Jessie Klein, 2013-08 Choice's Outstanding Academic Title list for 2013 Through interviews and case studies Klein develops an explanation for bully behavior in America's schools In today's schools kids bullying kids is not an occasional occurrence but rather an everyday reality where children learn early that being sensitive respectful and kind earns them no respect Jessie Klein makes the provocative argument that the rise of school shootings across America and childhood aggression more broadly are the consequences of a society that actually promotes aggressive and competitive behavior The Bully Society is a call to reclaim America's schools from the vicious cycle of aggression that threatens our children and our society at large Heartbreaking interviews illuminate how both boys and girls obtain status by acting masculine displaying aggression at one another's expense as both students and adults police one another to uphold gender stereotypes Klein shows that the aggressive ritual of gender policing in American culture creates

emotional damage that perpetuates violence through revenge and that this cycle is the main cause of not only the many school shootings that have shocked America but also related problems in schools manifesting in high rates of suicide depression anxiety eating disorders self cutting truancy and substance abuse After two decades working in schools as a school social worker and professor Klein proposes ways to transcend these destructive trends transforming school bully societies into compassionate communities

Relative Intimacy Rachel Devlin, 2006-03-08 Celebrated as new consumers and condemned for their growing delinquencies teenage girls emerged as one of the most visible segments of American society during and after World War II Contrary to the generally accepted view that teenagers grew more alienated from adults during this period Rachel Devlin argues that postwar culture fostered a father daughter relationship characterized by new forms of psychological intimacy and tinged with eroticism According to Devlin psychiatric professionals turned to the Oedipus complex during World War II to explain girls delinquencies and antisocial acts Fathers were encouraged to become actively involved in the clothing and makeup choices of their teenage daughters thus domesticating and keeping under paternal authority their sexual maturation In Broadway plays girls and women's magazines and works of literature fathers often appeared as governing figures in their daughters sexual coming of age It became the common sense of the era that adolescent girls were fundamentally motivated by their Oedipal needs dependent upon paternal sexual approval and interested in their fathers romantic lives As Devlin demonstrates the

pervasiveness of depictions of father adolescent daughter eroticism on all levels of culture raises questions about the extent of girls independence in modern American society and the character of fatherhood during America s fabled embrace of domesticity in the 1940s and 1950s

perpetuation of dehumanizing stereotypes have led to a crisis of connection that is now widespread Finally the practitioners in the volume present concrete solutions that show ways we can create a more just and humane world This profoundly important book suggests that our innate human determination to bridge differences and live in vulnerable loving
