Robert J.**

Smart Cards A Guide To Building And Managing Smart Card Applications:

Smart Cards Henry Dreifus,J. Thomas Monk,1998-01-07 A complete nuts and bolts guide to designing building and managing the smart card system that s right for your company Already a well established medium of exchange in Europe smart card technology has made major inroads in the North American market in the past few years Visa and Mastercard are committed to replacing credit cards with them over the next five years and Microsoft is racing to use them for e commerce Clearly the time for asking Why regarding smart cards has passed The important question companies now should be asking themselves is How how to plan how to develop how to implement and how to manage the smart card system that is right for our company This book provides complete unbiased answers to these and all your technical and business questions about smart card systems Dreifus and Monk guide you step by step through the entire process of selecting designing building and managing a smart card application tailored to your business They supply numerous checklists to help guarantee that you make the correct technical decisions during each phase of the process And they include real world case studies illustrating successful smart card implementations in a variety of industries including banking manufacturing entertainment healthcare and transportation Crucial topics covered in detail include Smart card architectures and standards Security and encryption Smart card operating systems Smart card application design and development Development tools Testing and certification Smart Cards arms you with everything you need to know to make informed decisions about the smart card system that s right for your company

Smart Card. Research and Applications Jean-Jacques Quisquater,Bruce Schneier,2006-12-30 Smart cards have been driven by the need for a secure portable computing platform Hence it is no surprise that security considerations dominated their research The CARDIS conferences were created to provide a forum for this research CARDIS 1998 is the third international conference on Smart Card Research and Advanced Applications held in Louvain la Neuve Belgium 14 16 Sept ber 1998 The rst CARDIS was held in Lille France in November 1994 and the second was held in Amsterdam The Netherlands in September 1996 The fourth CARDIS is scheduled to take place in Bristol UK in September 2000 <http://www.cardis.org> This volume contains the refereed papers presented at CARDIS 1998 These 35 papers were rst published in a pre proceedings and distributed to the tendees at the conference they have subsequently been revised and updated for this volume The papers discuss all aspects of smart card research Java cards elect nic commerce applications e ciency security including cryptographic al rithms cryptographic protocols and authentication and architecture Subm sions from Europe the U S Asia and Australia show that this is indeed an international area of research and one that is becoming more popular as pr tical demand for smart cards increase We wish to thank the Program Committee members who did an excellent job in reviewing papers and providing feedback to the authors

Java Card Technology for Smart Cards Zhiquan Chen,2000 Annotation This book is a guide to developing applications with Java Card technology It introduces you to the Java Card platform and features discussions of programming concepts It also provides a step by step Java Card applet

development guide to get you up and running Specific topics covered include smart card basics Java Card virtual machine persistent and transient objects atomicity and transactions handling APDUs applet firewall and object sharing Java Card platform security a step by step applet development guide applet optimization guidelines and a comprehensive reference to Java Card APIs BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Air Force Journal of Logistics ,1999 **Air Force journal of logistics: vol23_no2** , Intelligence in Services and Networks. Paving the Way for an Open Service Market Han Zuidweg,Mario Campolargo,Jaime Delgado,Al Mullery,2008-01-03 Paving the Way for an Open Service Market We live in an age when powerful communications technology is becoming available to everyone From our home we can send and receive not only analogue voice but also growing volumes of digital information and even intelligence in the form of agents We are becoming increasingly mobile and are expecting the same level of connectivity in the home in the office and on the road The regulatory and commercial environment in which we communicate is changing The telecommunications market is becoming increasingly competitive The Internet is erasing the borders between information technology and telecommunications And the way we do business is ever more dominated by electronic exchanges of information Is our technology ready for the open market of networks and services Can we manage the growing complexity of computing and telecommunications technology and place it at the service of the people The challenge for the research community is to develop the tools and techniques that will ultimately bring the full power of communications and information to everyone in a way that everyone can easily use The Sixth International Conference on Intelligence in Services and Networks IS N 99 is all about technology for paving the way to the open services market Since the first IS N conference in 1992 the focus of the IS N program has continually shifted We see existing technologies maturing while new ones emerge but the bottom line has always been putting technology at the service of the people Implementing Email and Security Tokens Sean Turner,Russ Housley,2008-04-30 It s your job to make email safe Where do you start In today s national and global enterprises where business is conducted across time zones and continents the e in email could stand for essential Even more critical is rock solid email security If you re the person charged with implementing that email security strategy this book is for you Backed with case studies it offers the nuts and bolts information you need to understand your options select products that meet your needs and lock down your company s electronic communication systems Review how email operates and where vulnerabilities lie Learn the basics of cryptography and how to use it against invaders Understand PKI public key infrastructure who should be trusted to perform specific tasks how PKI architecture works and how certificates function Identify ways to protect your passwords message headers and commands as well as the content of your email messages Look at the different types of devices or tokens that can be used to store and protect private keys **Critical Thoughts from a Government Mindset** Ali M. Al-Khouri,2013 The chapters in Critical Thoughts From A Government Mindset have been grouped into three categories strategic management e government development and practices and

identity management In the first section the book covers Corporate Government Strategy Development and Customer Relationship Management Key Features Is highly topical examines subjects that are of great current interest to governments and practitioners worldwide comprehensive detailed and thorough theoretical and practical analysis covers issues and sources rarely accessed on books on this topic The Author Dr Al Khouri is the Director General Under Secretary of the Emirates Identity Authority a federal government organisation established to rollout and manage the national identity management infrastructure program in the United Arab Emirates Readership Scholars practitioners business executives and government economic policy makers worldwide and especially those with an interest in the Middle East Contents Strategic management Corporate government strategy development a case study Customer relationship management proposed framework from a government perspective E government E government strategies the case of UAE E government in Arab countries a six staged roadmap to develop the public sector E voting in UAE FNC elections a case study Identity management Identity and mobility in a digital world Data ownership who owns my data Triggering the smart card readers supply chain
