Questions seeks to champion the art of curiosity by setting out a framework to make every question count. The fundamental building blocks of insight are data and information joined together in new and often unpredictable ways. The way we surface new data and information and make meaningful connections between data points is by asking smarter questions. By taking this approach you can make your organisation a less confrontational, more collaborative and more productive environment in which to work, particularly in the more distributed and remote settings that will characterise the 2020s. Managers, directors and leaders will find the universal principles, expert interviews and data-driven recommendations a source of inspiration to share with their teams. Asking Smarter Questions is aimed at professionals in businesses and organisations across all sectors and will help those working in many functions including market research, intelligence, insight, analytics, strategy, marketing, communications, planning, product development and innovation.

Data Driven Decision Making using Analytics Parul Gandhi, Surbhi Bhatia, Kapal Dev, 2021-12-16. This book aims to explain Data Analytics towards decision making in terms of models and algorithms, theoretical concepts, applications, experiments in relevant domains or focused on specific issues. It explores the concepts of database technology, machine learning, knowledge-based system, high performance computing, information retrieval, finding patterns hidden in large datasets and data visualization. Also, it presents various paradigms including pattern mining, clustering, classification and data analysis. Overall aim is to provide technical solutions in the field of data analytics and data mining. Features: Covers descriptive statistics with respect to predictive analytics and business analytics. Discusses different data analytics platforms for real-time applications. Explains SMART business models. Includes algorithms in data sciences along with automated methods and models. Explores varied challenges encountered by researchers and businesses in the realm of real-time analytics. This book aims at researchers and graduate students in data analytics, data sciences, data mining and signal processing.

The 7 Powers of Questions Dorothy Leeds, 2000-09-01. Questions demand answers, stimulate thinking, give us valuable information, put us in control, get people to open up, lead to quality listening, get people to sell themselves. They're an essential tool of the seeker and the problem solver and in our personal and professional lives they can make the difference between getting what we want and going without. Questions have power and by harnessing that power we can change our world. This unique book reveals the seven powers of questions and shows how to use them most effectively. Learn how questions can improve relationships, help determine what people really want, uncover opportunities, persuade others and get more out of every business or personal encounter.

Mobile Devices in Education: Breakthroughs in Research and Practice Management Association, Information Resources, 2020-01-03. As technology advances, mobile devices have become more affordable and useful to countries around the world. The use of technology can significantly enhance educational environments for students. It is imperative to study new software, hardware and gadgets for the improvement of teaching and learning practices. *Mobile Devices in Education: Breakthroughs in Research and Practice* is a collection of innovative research on the methods and applications of mobile technologies in learning and

explores best practices of mobile learning in educational settings Highlighting a range of topics such as educational technologies curriculum development and game based learning this publication is an ideal reference source for teachers principals curriculum developers educational software developers instructional designers administrators researchers professionals upper level students academicians and practitioners actively involved in the education field **Ask, Measure, Learn** Lutz Finger, Soumitra Dutta, 2014-01-23 You can measure practically anything in the age of social media but if you don't know what you're looking for collecting mountains of data won't yield a grain of insight This non technical guide shows you how to extract significant business value from big data with Ask Measure Learn a system that helps you ask the right questions measure the right data and then learn from the results Authors Lutz Finger and Soumitra Dutta originally devised this system to help governments and NGOs sift through volumes of data With this book these two experts provide business managers and analysts with a high level overview of the Ask Measure Learn system and demonstrate specific ways to apply social media analytics to marketing sales public relations and customer management using examples and case studies

Praxiology and the Philosophy of Technology Wojciech W. Gasparski, Timo Airaksinen, 2021-10-18 Technology is a crucial feature of the modern world and human beings are necessarily technological creatures Our goal must be to use technology effectively efficiently and ethically We have hands that are adept at using tools and intelligence that guides our actions We also have desires and emotions that motivate us to achieve more and more never allowing us to stop From the viewpoint of praxiology technology does not exist merely to satisfy the human need in an effective and efficient way The problems of the modern world and the questions we must ask with respect to technology and how it is used are complicated and demanding They may initially seem mysterious perhaps even partly subconscious In this fifteenth volume of a distinguished international series contributors address essential questions about the philosophy and ethics of technology Their intention is to point out the road not only to its better applications but also to its greater understanding The first part of the book addresses general questions about the theory of technology The second part of the volume focuses on special topics like information and communication technologies and work systems as well as the foundations of problem solving and the history of innovation in the age of enlightenment The third part of the book is on ethical judgments It emphasizes the importance of ethics in the application of technology and especially when we commercialize it in order to meet the needs of the people in a free market society This volume offers its reader a balanced picture of the state of the art of theoretical and applied issues in technology research emphasizing the praxiological perspective that characterizes the entire series

Blockchain and Applications Javier Prieto, Alberto Partida, Paulo Leitão, António Pinto, 2021-09-02 This book constitutes the refereed proceedings of the 1st International Congress on Blockchain and Applications 2021 BLOCKCHAIN 21 held in Salamanca Spain in October 2021 Among the scientific community blockchain and artificial intelligence are a promising combination that will transform the production and manufacturing industry media finance insurance e government etc

Nevertheless there is no consensus with schemes or best practices that would specify how blockchain and artificial intelligence should be used together The 38 full papers presented were carefully reviewed and selected from over 44 submissions They contain the latest advances on blockchain and artificial intelligence and on their application domains exploring innovative ideas guidelines theories models technologies and tools and identifying critical issues and challenges that researchers and practitioners must deal with in future research Risk in Social Work Practice Andrew Whittaker, Brian Taylor, 2020-04-28 The study of risk in social work involves complex interplay between human behaviour emotion evidence of fact professional values and organisational systems This book brings together contributions from key social work researchers and theorists from the UK USA New Zealand and Italy writing with a focus on aspects of risk within social work It examines key debates concerning risk in contemporary social work practice including ethical dilemmas approaches to decision making and the challenges of ignorance and errors Contributions range from the perennial challenges of how one uses formal knowledge when assessing risk to emerging risks arising from the counterterrorism agenda This book will enable practitioners policy makers and researchers to appreciate the complexities of risk in different settings and apply this understanding to their own practice This book was originally published as a special issue of the Journal of Social Work Practice
