Smith Voices Selected Works By Smith College Women:

Smith Voices Smith College, 1990 Passion for History Natalie Zemon Davis, Denis Crouzet, 2010-02-01 The pathbreaking work of renowned historian Natalie Zemon Davis has added profoundly to our understanding of early modern society and culture She rescues men and women from oblivion using her unique combination of rich imagination keen intelligence and archival sleuthing to uncover the past Davis brings to life a dazzling cast of extraordinary people revealing their thoughts emotions and choices in the world in which they lived Thanks to Davis we can meet the impostor Arnaud du Tilh in her classic *The Return of Martin Guerre* follow three remarkable lives in *Women on the Margins* and journey alongside a traveler and scholar in *Trickster Travels* as he moves between the Muslim and Christian worlds In these conversations with Denis Crouzet professor of history at the Sorbonne and well known specialist on the French Wars of Religion Natalie Zemon Davis examines the practices of history and controversies in historical method Their discussion reveals how Davis has always pursued the thrill and joy of discovery through historical research Her quest is influenced by growing up Jewish in the Midwest as a descendant of emigrants from Eastern Europe She recounts how her own life as a citizen a woman and a scholar compels her to ceaselessly examine and transcend received opinions and certitudes Davis reminds the reader of the broad possibilities to be found by studying the lives of those who came before us and teaches us how to give voice to what was once silent *Notable American Women with Czechoslovak Roots* Miloslav Rechcigl Jr., 2019-09-16 Even though there exist only a few general studies on the subject of Czechoslovak American women this is not at all a reflection of the paucity of work done by these women as this publication demonstrates This monograph is a compendium of notable American women with Czechoslovak roots who distinguished themselves in a particular field or area from the time they first immigrated to America to date Included are not only individuals born on the territory of former Czechoslovakia but also their descendants This project has been approached strictly geographically irrespective of the language or ethnicity Because of the lack of bibliographical information most of the monograph comprises biobibliographical information in which area a plethora of information exists As the reader will discover these women have been involved practically in every field of human endeavor in numbers that surprise On the whole they have been noted for their independent spirit and nonconforming role **American Learned Men and Women with Czechoslovak Roots** Mila Rechcigl, 2020-11-18 Apart from a few articles no comprehensive study has been written about the learned men and women in America with Czechoslovak roots That's what this compendium is all about with the focus on immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them Czech and Slovak immigrants including Bohemian Jews have brought to the New World their talents their ingenuity their technical skills their scientific knowhow and their humanistic and spiritual upbringing reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home This accounts for the

remarkable success and achievements of these settlers in their new home transcending through their descendants as this monograph demonstrates The monograph has been organized into sections by subject areas i e Scholars Social Scientists Biological Scientists and Physical Scientists Each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study The selection of individuals has been strictly based on geographical ground without regards to their native language or ethical background This was because under the Habsburg rule the official language was German and any nationalistic aspirations were not tolerated Consequently it would be virtually impossible to determine their innate ethnic roots or how the respective individuals felt Doing it in any other way would be a mere guessing and thus less objective

Revolution from Above Kerry Raymond Bolton,2011 Dr Bolton demonstrates that the supposed rivalry between Marxist inspired movements and capitalism has always been an illusion He shows that the ultimate goal of capitalism is to create a worldwide collectivist society of consumers and Marxism is merely one means of attaining this He traces this idea back to Plato through the Illuminati the Freemasons the French Revolution and Communism

Gustav Holst Mary Christison Huismann,2011-04-26 First published in 2011 this text provides citations to the core Holst literature The volume is intended for students and researchers as well as those seeking an introduction to Holst The inclusion of materials for the non specialist seems entirely appropriate as Holst devoted much of his career to teaching amateur musicians The contents of this book presents a selective annotated list of essential materials published through the end of 2009 although a very few exceptions were made for a limited number of post 2009 print and web resources
