Smiths Moscow:

A House Unlocked Penelope Lively, 2001 Lively takes readers on a journey of her familial country house in England purchased by her grandparents in 1923 As her narrative shifts from room object to object she paints a moving portrait of an era of rapid change and of the family that changed with the times **Annual Catalog ...** University of Idaho, 1915

Beetle D.K.R. Crosswell, 2010-11-01 This biography recounts one of the most significant yet unsung military careers of the twentieth century a major contribution to the history of World War II Foreign Affairs General Walter Bedell Smith began his public service career of more than forty years at age sixteen when he joined the Indiana National Guard His bulldog tenacity earned him an opportunity to work with General George C Marshall in 1941 playing an essential role in formation of the Combined and Joint Chiefs of Staff After his appointment as chief of staff to Dwight D Eisenhower in 1942 Smith took a central part in planning the major Allied operations of World War II in Europe Among his many duties Smith negotiated the surrenders of the Italian and German armed forces in 1945 Smith's postwar career included service as the US ambassador to the Soviet Union director of the Central Intelligence Agency and undersecretary of state In *Beetle* D K R Crosswell offers the first full length biography of the general including insights into his close relationships with Marshall and Eisenhower Meticulously researched and long overdue *Beetle* sheds new light on Eisenhower as supreme commander as well as the WWII campaigns in North Africa Italy and Europe Military Implications of the Treaty on the Limitations of Anti-ballistic Missile Systems and the Interim Agreement on Limitation of Strategic Offensive Arms United States. Congress. Senate. Committee on Armed Services, 1972 *Renegades* Michael Petrou, 2008-03-01 *Renegades* Canadians in the Spanish Civil War by veteran journalist Michael Petrou tells the story of the 1 681 Canadians who between 1936 and 1939 defied Canadian law to fight fascism in the Spanish Civil war The war pitted a left leaning democratically elected Spanish government against a military uprising led by Francisco Franco and supported with weapons and tens of thousands of troops by Fascist Italy and Nazi Germany By the time it was over fascism had triumphed in Spain and more than 400 Canadians were dead Until now little was known about these men and women and about those who survived Petrou has changed this He has drawn on recently declassified material interviewed veterans and visited the battlefields of Spain to write the definitive history of Canadians in the war Jack Granatstein one of Canada's leading military historians concludes Based on massive research this is the best and most complete account of Canadians in the Spanish Civil War we are ever likely to get *Renegades* reveals that Spanish Civil War veterans were pressured to become police informers with the cooperation of the federal government that a 1970 application by a veterans group for non profit status was opposed by the federal government out of fear that approving the application might offend Spain's fascist dictator Francisco Franco and that the RCMP spied on Canadian veterans at least until 1980 when one police report noted that the veterans political motivations are more in keeping with the NDP philosophies Other highlights include Detailed and vivid descriptions of the battles the Canadians fought and their lives in

Spain between action The stories of Canadian prisoners of war are also told as are accounts of Canadians who were imprisoned and otherwise punished sometimes severely by their own commanders New and sensational information about Dr Norman Bethune whom Spanish authorities accused of espionage and of having a secretly fascist lover The story of a young University Toronto student who was jailed as a suspected spy and was lucky to leave Spain alive After reading recently declassified documents from Soviet archives about this man Petrou tracked him down and interviewed him at the age of 90

The Price of Power Seymour Hersh, 2013-10-29 Price of Power examines Henry Kissinger's influence on the development of the foreign policy of the United States during the presidency of Richard Nixon **General Walter Bedell Smith as Director of Central Intelligence, October 1950-February 1953** Ludwell Lee Montague, 2010-11-01 He served as General Smith's executive assistant when Smith was appointed Director of Central Intelligence in 1950 and was one of the original members of the Board of National Estimates Montague argues that Smith was the first DCI with the skill and determination to implement the plan envisioned by JIC 239.5 This plan provided for a strong DCI who exercised authority over general intelligence community policy and the coordination of national estimates but retaining the autonomy of the individual intelligence services in day to day operations According to Montague Smith's predecessors had failed Souers was a caretaker Vandenberg tried to gain total control of all intelligence operations but was defeated Hillenkoetter was indecisive and unable to press the case for centralization **Cosmic Rays in Interplanetary Magnetic Fields** I.N. Toptygin, 2012-12-06 Fast particles of natural or γ cosmic rays have been used for a long time as an important source of astrophysical and geophysical information A study of cosmic ray spectra time variations abundances gradients and anisotropy provides a wealth of data on physical conditions in the regions of cosmic ray generation as well as in the media through which cosmic rays propagate Astrophysical aspects of cosmic ray physics have been considered in a number of monographs The most detailed seems to be The Origin of Cosmic Rays by V L Ginzburg and S I Syrovatskij 1964 which is however concerned mainly with galactic cosmic rays The physics of the circumsolar space is discussed in this book only rather briefly Several other monographs have been devoted mostly to the physics of the interplanetary medium and cosmic rays in interplanetary space These include the books by Dorman 1963 1975a b Parker 1963 Dorman and Miroshnichenko 1968 The present monograph differs from the above mentioned books in two main aspects i It presents a unified theoretical approach to analysing the properties of fast particles in interplanetary space based upon consideration of cosmic rays as a highly energetic component of the interplanetary plasma which makes use of the plasma physics methods to describe the behaviour of cosmic rays **Adam Smith Across Nations : Translations and Receptions of The Wealth of Nations** Cheng-chung Lai, 2000-03-30 The materials collected in this volume all concern the translations of and receptions to Adam Smith's The Wealth of Nations in ten non English speaking countries The Wealth of Nations provides the perfect basis for studying the international transmission of economic ideas as it is generally considered to be the foundation of modern political economy
