O'Connell,1990-04-19 O'Connell's vividly written history of weapons in Western culture from prehistoric times to the nuclear age demonstrates how social and economic conditions determine the types of weapons and the tactics used in warfare and how in turn innovations in weapons technology often undercut social values He integrates the evolution of politics weapons strategy and tactics into a coherent narrative one spiced with striking portraits of men in combat and brilliant insight into why men go to war **Catalogue of the Illinois state library.
