Some Old Portraits Booth Tarkington, 1939 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1969 **Lessons in Likeness** Estill Curtis Pennington, 2011

Between 1802 when the young Kentucky artist William Edward West began to paint portraits while on a downriver journey and 1920 when the last of Frank Duveneck's students worked in Louisville a large number of notable portrait artists were active in Kentucky and the Ohio River Valley. In *Lessons in Likeness: Portrait Painters in Kentucky and the Ohio River Valley 1802-1920* Estill Curtis Pennington charts the course of those artists as they painted a variety of sitters drawn from both urban and rural society. The work is illustrated when possible from The Filson Historical Society collection of some four hundred portraits representing one of the most extensive holdings available for study in the region. Portraiture involves artists and subjects known as sitters and is an art that combines elements of biography, aesthetics, and cultural history. Private portraits often attract an oral history that enlivens the more colorful aspects of local tradition and culture. Public portraits of towering figures such as George Washington, Henry Clay, and Abraham Lincoln were often reproduced in printed format to satisfy popular demand and subsequently attained an iconic, timeless status. *Lessons in Likeness* is organized in two parts. Part One, the cultural chronology, serves as a backdrop to the biographies of the portrait artists. This section identifies stylistic sources and significant historical moments that influenced the artists and their milieu. Rather than working in isolation, portrait artists were connected to the world around them and influenced by prevailing trends in their trade. Early in the nineteenth century, for instance, Matthew Jouett journeyed to Boston for study with Gilbert Stuart and upon his return to Kentucky painted in a style that subsequently influenced an entire generation. Later artists, notably Oliver Frazer and William Edward West, studied the lessons of Thomas Sully in Philadelphia. Sully popularized the lush, warmly colored and highly flattering style of portraiture practiced by many of the itinerant artists whose careers were facilitated by the introduction of steam and rail travel. The Civil War provoked a dramatic shift in the cultural terrain, further augmented by the rise of photography and the emergence of academic art centers. Painters who had previously worked with a master painter or learned on their own were now able to study at established schools, especially in Cincinnati, which became one of the leading centers for the teaching of art in late nineteenth-century America. Several of the teachers there, Frank Duveneck and Thomas Satterwhite Noble, in particular, had firsthand experience with avant-garde European styles, notably the realism and naturalism practiced in Munich and Paris in the last quarter of the nineteenth century, and then taught in the art schools of New York and Philadelphia. Part Two profiles the artists from this area and period who have appeared in previous art historical literature and have an identifiable body of work represented in public and private collections. Individual biographies provide details of the artists' lives, sources for further study, and locations of works in public collections.

Booth Tarkington: Novels & Stories (LOA #319) Booth Tarkington, 2019-06-04 Thomas Mallon and Library of America invite readers to rediscover the Pulitzer Prize winning novels of a classic American writer on the 150th anniversary of his birth Much in need of rediscovery today Booth Tarkington was among the most beloved and widely read writers of his era In such classic novels as *The Magnificent Ambersons* and *Alice Adams* both winners of the Pulitzer Prize Tarkington displayed a mastery of realism and an astute strikingly modern feel for psychology capturing crucial transformations in our national life as they were manifested in changing social customs and in the very landscape itself altered irrevocably by industrialization and environmental degradation Out of Tarkington's prolific writings novelist and critic Thomas Mallon has selected three works that show Tarkington at his best *The Magnificent Ambersons* inspiration for Orson Welles's classic film is a tour de force study in egoism depicting the fall from grace of George Minafer wayward scion of the once unassailable Amberson family The titular protagonist of *Alice Adams* portrayed unforgettably by Katharine Hepburn in what many consider her finest performance is one of the great heroines of American literature like Henry James's Isabel Archer and the young women of Edith Wharton's novels she is a spirited complicated young woman confronting the limits of her time and place with her own headlong desires These novels are joined here by the story collection *In the Arena* *Tales from Political Life* first published in 1905 and then in an expanded edition in 1920 These stories which exerted influence on Theodore Roosevelt inspiring perhaps his most famous speech draw from Tarkington's political career as a state legislator in Indiana which lasted briefly but had a profound impact on him Published to commemorate the 150th anniversary of Tarkington's birth *Novels and Stories* contains the most enduring works of a Hoosier luminary and an estimable chronicler of the American Midwest

Twentieth Century American Literature Warren French, 1980-11-01 **My Amiable Uncle** Susanah Mayberry, 2019-08-15 Twice he won the Pulitzer Prize in fiction in 1919 for *The Magnificent Ambersons* and in 1922 for *Alice Adams* His play *Clarence* launched Alfred Lunt on his distinguished career and provided Helen Hayes with an early successful role His *Penrod* books continued the American boy story tradition which started with the works of Mark Twain Early in this century through his novel *The Turmoil* he warned of sacrificing the environment to industrial growth Yet since his death in 1946 Booth Tarkington this writer from the Midwest who accomplished so much has faded from the memory of the reading public and many of his works are out of print But his memory is fresh and vivid in the mind of his grandniece

Susanah Mayberry and her recollections of him leap from the pages of her book. She recalls that as a small child before she was aware of her uncle's fame as a writer, he emerged as the one figure whose outline was clear among the blur of forms that made up her large family. No one who met Booth Tarkington ever forgot him, says his great niece. So she introduces the reader to this multifaceted individual: the young man about town, the prankster, the writer of humorous letters who drew caricatures in the margins, the bereaved father, the inspiration of the affection of three women simultaneously, and the lover and collector of art objects and portraits. The author of this volume draws primarily upon her own personal experiences, family lore, and letters, some never published before, to portray her amiable uncle. She tells of the pleasure it gave him to entertain his young nephews and nieces at his Tudor style winter home in Indianapolis where they played a spirited form of charades. She recalls vacations which she, as a college student, spent at his light-filled summer home in Kennebunkport, Maine, where she met his famous neighbors. During all of those times, Uncle Booth was a keen observer of youth who created Penrod and friends from his observations, and the teacher of youth who transmitted his own love of art to his young relations. While recapturing memories of the unforgettable Tarkington, Mayberry recreates an era of elegant and leisurely living when, on the dining table, in the fingerbowls, were nosegays of sweet peas and lemon verbena or geranium leaves. Susanah Mayberry shares with the reader a treasure of family photographs, including Tarkington at various ages, interiors and exteriors of his homes, her father and uncles as children, the models of Penrod, the writer's indomitable sister who championed his early work, and his devoted second wife, a gentle dragon who kept his day-to-day life running smoothly. Indiana residents will feel at home with the frequent references to the state and its people. Indianapolis of the late nineteenth through the mid-twentieth centuries influenced Tarkington and his work. The city was his birthplace and his death place. He spent a year at Purdue University where he met such brilliancies as George Ade and John McCutcheon. Other famous and not so famous Hoosiers became a part of Tarkington's life, and they, along with international literary, theatrical, and political luminaries, reappear in Susanah Mayberry's recollections of her amiable uncle. Library, 1960. *Student Practice Test Booklet in Reading and Writing* Leslie Knight, 2015-10-13. This test booklet has some unique qualities. It allows the students to get an idea of the kinds of passages and the level of vocabulary used in questioning. But the uniqueness does not end there. The booklet also provides teachers and parents with the instruments that will improve the ability of the children to complete the state tests. Know that teachers and parents can begin by allowing their fourth-grade children to work on passages intended for third graders and move forward, and vice versa. Other grades can do the same. Everyone has the opportunity to look at the passages and questions presented to the other grades. Note carefully the approaches to the questions because there is a specific vocabulary used in the questions. There is a wealth of writing exercises that require the students to think deeply. Building stamina is very important. Length of passages and level of difficulty are considered. Each grade is presented with one mini test and three full-length tests. The parents and the teachers

can actually simulate the real test and give themselves time to identify the childrens weaknesses and strengths Therefore they can work on these weaknesses and reinforce concepts at the same time At the end of every test there are additional questions designed to challenge the children and encourage the teachers and the parents to create their own questions from the passages There is a teachers edition that identifies the answers to all questions and the types of questions For example there may be questions that require the students to know main idea authors purpose compare and contrast and so on These are indicated in the teachers edition There are writing exercises for the students to do Useful hints relating to the kinds of responses are also presented in the teachers edition A suggested rubric is also included This book is inclusive of all including Special Needs Students who must write the same tests as other students and whose grades and progress impact the general performance of the school
