## Foundations of Bangladesh's Foreign Policy Interactions

Iftekhar Ahmed Chowdhury<sup>1</sup>

### Abstract

*The two major foreign policy aspirations of Bangladesh are security and preservation of sovereignty, and the quest for resources for development. Both these objectives combined with the fact that Bangladesh being nearly geographically 'India-locked' suggests its method of external behaviour. That is, in Bangladesh's interest to enmesh herself among a web of extra-regional linkages, that would heighten global stakes within, and also reduce the power-gap with pre-eminent regional protagonists. This high level of international interactions is based on twelve pillars that this essay identifies. It analyses the contribution to behaviour, which has 'West-leaning' predilections, by the values espoused by her vibrant civil society and her burgeoning and powerful middle class. The penchant for 'multilateralism' is met with caution and circumspection in global politics, implying avoidance of 'flashy' policies, together with the adoption, generally, of a 'low-profile' on 'high-risk' issues, and 'high-profile' on 'low-risk' issues.*

## **Some Regional Views On Our Foreign Polic:**

Some Regional Views on Our Foreign Policy Council on Foreign Relations, 1941 Comprises the reports of discussions by the various committees on foreign relations formed with the assistance of the Council on Foreign Relations *Think Tanks and Power in Foreign Policy* I. Parmar, 2004-03-31 What is the role of elites in shaping foreign policy Did unaccountable foreign policy elites shape the post 1945 world order Chatham House and the Council on Foreign Relations were vital in America's shift from isolationism to globalism and in Britain's shift from Empire to its current pro American orientation and were also fundamental in engineering public backing for a new world order Inderjeet Parmar presents new evidence to show how well organized and well connected elite think tanks helped to change the world *Faith and Foreign Affairs in the American Century* Mark Thomas Edwards, 2019-08-22 The United States has led the world in almost every way since World War I In 1941 Life magazine publisher Henry Luce dubbed his country's preponderant power the American Century His editorial was a statement of fact but also an aspiration for countrymen to unite in promotion of a world order friendly to American interests Faith and Foreign Affairs in the American Century examines the nature of public involvement in American diplomacy As a concept decades in the making the American Century was conceived by those connected through the country's leading foreign policy think tank the Council on Foreign Relations The missionary couple and Washington insiders Francis and Helen Miller who fought to make the American empire a radically democratic one figured prominently in that work The Millers many partnerships embodied the conflicts as well as the cooperation of Christianity and secularism in the long reimagining of the United States as a global state Mark Thomas Edwards offers in this study a genealogy of the concept of the American Century Readers will encounter moments of Protestant Christian power and marginalization in the making of modern American foreign relations **Foundations of the American Century** Inderjeet Parmar, 2012-04-03 Inderjeet Parmar reveals the complex interrelations shared mindsets and collaborative efforts of influential public and private organizations in the building of American hegemony Focusing on the involvement of the Ford Rockefeller and Carnegie foundations in U S foreign affairs Parmar traces the transformation of America from an isolationist nation into the world's only superpower all in the name of benevolent stewardship Parmar begins in the 1920s with the establishment of these foundations and their system of top down elitist scientific giving which focused more on managing social political and economic change than on solving modern society's structural problems Consulting rare documents and other archival materials he recounts how the American intellectuals academics and policy makers affiliated with these organizations institutionalized such elitism which then bled into the machinery of U S foreign policy and became regarded as the essence of modernity America hoped to replace Britain in the role of global hegemon and created the necessary political ideological military and institutional capacity to do so yet far from being objective the Ford Rockefeller and Carnegie foundations often advanced U S interests at the expense of other nations Incorporating case studies of American philanthropy in Nigeria Chile

and Indonesia Parmar boldly exposes the knowledge networks underwriting American dominance in the twentieth century

**Admiral William Veazie Pratt, U.S. Navy** Gerald E. Wheeler, 1974 **To Have and Have Not** Jonathan Marshall, 2023-04-28 Jonathan Marshall makes a provocative statement it was not ideological or national security considerations that led the United States into war with Japan in 1941 Instead he argues it was a struggle for access to Southeast Asia's vast storehouse of commodities rubber oil and tin that drew the United States into the conflict Boldly departing from conventional wisdom Marshall reexamines the political landscape of the time and recreates the mounting tension and fear that gripped U S officials in the months before the war Unusual in its extensive use of previously ignored documents and studies this work records the dilemmas of the Roosevelt administration it initially hoped to avoid conflict with Japan and after many diplomatic overtures it came to see war as inevitable Marshall also explores the ways that international conflicts often stem from rivalries over land food energy and industry His insights into resource war the competition for essential commodities will shed new light on U S involvement in other conflicts notably in Vietnam and the Persian Gulf This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995

**Global and Regional Approaches to Arms Control in the Middle East** Gamal M. Selim, 2013-07-11 Since the end of the Cold War the Middle East has been the focus of various projects for the establishment

of arms control including CBMs regimes Whereas some of these projects were initiated at the global level others were discussed and debated at the regional level This book analyses the global and regional dynamics of arms control in the Middle East in the post Cold War era It examines American and European arms control projects the contexts in which they were presented the reactions of major regional actors and their impacts on arms control efforts in the region It assesses Arab perceptions of the motivations for and constraints on establishing arms control regimes It also explores the prospects of regional arms control in the context of the ongoing Arab Spring with its ramifications for Arab regional politics and provides a new perspective on arms control in the Middle East This volume enriches the ongoing discourse which to date has been dominated by mainly Western perspectives      *108-1 Hearing: Foreign Assistance Oversight (Part 2), S.
