Harper, Ph.D., 2014-09-02 The Secret to Helping More Animals What would it take to give all the animals the kind of lives that they deserve How do we work together to attain this vision The answer to both of these questions can be found within the hearts of the animal advocates and the beloved furry friends they help The secret is joy Read on and uncover the infinite power of joy that is already present on your life saving and life enhancing journey of giving to the animals A life of giving to animals offers amazing gifts of love purpose and contentment But instead of experiencing joy and fulfillment animal advocates often find themselves overwhelmed sad and depleted Clinical psychologist and lifelong animal lover Dr Linda Harper offers insight into the personality of the animal advocate and provides strategies to help face the challenges and find the gifts of their life saving and life enhancing journey When we balance the desires and needs of each unique giving heart we are at our best and joy flows freely and abundantly Joy is the self perpetuating contagious and powerful energy that is needed to bring us together to create a better world With a foreword and contributions by animal advocate Faith Maloney Dr Harper's newest book aims to help individuals realize the gifts of their purposeful journey of helping animals replenish their giving hearts and become their best as they work toward creating a kinder world not only for animals but for all living beings *Trusting Teachers with School Success* Kim Farris-Berg, Edward J. Dirks, Amy Junge, 2013 Lately our nation's strategy for improving our schools is mostly limited to getting tough with teachers Blaming teachers for poor outcomes we spend almost all of our energy trying to control teachers behavior and school operations But what if all of this is exactly the opposite of what is needed What if teachers are the answer and not the problem What if trusting teachers and not controlling them is the key to school success Examining the experiences of teachers who are already trusted to call the shots this book answers What would teachers do if they had the autonomy not

just to make classroom decisions but to collectively with their colleagues make the decisions influencing whole school success Decisions such as school curriculum how to allocate the school budget and whom to hire Teachers with decision making authority create the schools that many of us profess to want They individualize learning Their students are active not passive learners who gain academic and life skills The teachers create school cultures that are the same as those in high performing organizations They accept accountability and innovate and make efficient use of resources These promising results suggest it s time to trust teachers
