Embedding Ethics Lynn Meskell, Peter Pels, 2020-05-27 Anthropologists who talk about ethics generally mean the code of practice drafted by a professional association for implementation by its members As this book convincingly shows such a conception is far too narrow A more radical approach is to recognize that moral judgments are made at every juncture of scientific practice and they require a negotiation of responsibility with all stakeholders in the research enterprise Embedding Ethics questions why ethics have been divorced from scientific expertise Invoking different disciplinary practices from biological archaeological cultural and linguistic anthropology contributors show how ethics should be resituated at the heart of rather than exterior to scientific activity Positioning the researcher as a negotiator of significant truths rather than an adjudicator of a priori precepts enables contributors to relocate ethics in new sets of social and scientific relationships triggered by recent globalization processes from new forms of intellectual and cultural ownership to accountability in governance and the very ways in which people are studied Case studies from ethnographic research museum display archaeological fieldwork and professional monitoring illustrate both best practice and potential pitfalls This important book is an essential guide for all anthropologists who wish to be active contributors to the discussion on ethics and the ethical practice of their profession

Binding Up the Wounds Leon C. Standifer, 2014-10-28 In his highly acclaimed Not in Vain Leon C Standifer recounted his experiences as a small town Mississippi boy who at age nineteen found himself fighting as a combat infantryman in World War II France and Germany Binding Up the Wounds carries the story beyond V E Day to describe what the author saw heard felt and learned as a member of the American occupation army in the homeland of its defeated enemy Standifer who served in the 94th Infantry Division in western Germany the Sudetenland and Bavaria in the first year of occupation chronicles that unique and chaotic time from the viewpoint of a typical GI Germany was an epic landscape of human need and cities lay in ruins But the war was over light and laughter were once again possible and as Standifer recalls we had a ball during that first year Among the things he experienced or witnessed were black market operations large and small American cigarettes served as a universal currency and a few ounces of mess hall grease or used coffee grounds were valuable commodities the spectacle of gung ho officers attempting to turn combat troops into spit and polish paraders the exploitative games played between American soldiers and German women a gut wrenching visit to a displaced persons camp and the difficulties involved in guarding captured soldiers who were no longer the enemy Perhaps most revealing and often surprising are the attitudes Standifer discovered among ordinary Germans toward the war the Nazis the Hitler times in general not only during the occupation but also decades later when he revisited Germany and spoke with elderly survivors of those times For there are really two voices telling the tale of Binding Up the Wounds One is that of the combat hardened but otherwise naive twenty year old who lived the experiences The other is that of the author as retired college professor looking back over half a century and puzzling out what those experiences meant for himself for America and for human kind

Kipling Abroad Rudyard Kipling, 2009-11-30 Rudyard Kipling is the doyen of travel writers His

genius for evoking the sights sounds and atmosphere of a place was crystallised in his fiction in which he introduced Victorian readers to the drama and exoticism of the East The teaming dusty Grand Trunk Road springs to life off the pages of Kim while the misty heights of imperial Simla provide an identifiable and almost tangible physical background to Plain Tales from the Hills Kipling s poetry journalism and letters also encapsulated the spirit of the places he visited from Egypt India and Brazil to the United States and Southern Africa He was fascinated by the practicalities and potential of travel the people encountered and experiences had At a time when tourism was in its infancy he prophetically reflected on the effects of mass transport and the globe trotters who thronged to India With his darting universal mind he was the first person to understand the relationship between travel and globalisation Kipling Abroad gathers together some of the most descriptive and revealing of his travel writing which has never before been published in one volume Introduced and edited by Andrew Lycett author of an acclaimed biography of Kipling it captures the range curiosity and sheer talent of one of our best loved authors revealing as much about Kipling himself as it does about the places he visited *The Fragrant Note Book* Clarence Arthur Coan,1917
