Somoza Falling A Case Study Of Washington At Work

René De La Pedraja

Somoza Falling A Case Study Of Washington At Work:

Somoza Falling Anthony Lake,1990 Carefully examines how our policy toward Nicaragua in 1978-89 emerged describes the characteristics of the middle players in this decision making process and discusses the complexities which govern their two important groups career officers and political appointees The result is an insightful objective and clear account based in part on frank interviews and personal experiences that illustrates both policy making groups paradoxical positions and offers precise lessons to be learned from past dealings with Third World revolutions Library Journal

The Twilight Struggle Hal Brands,2022-01-25 A leading historian's guide to great power competition as told through America's successes and failures in the Cold War If you want to know how America can win today's rivalries with Russia and China read this book about how it triumphed in another twilight struggle the Cold War Stephen J Hadley national security adviser to President George W Bush The United States is entering an era of great power competition with China and Russia Such global struggles happen in a geopolitical twilight between the sunshine of peace and the darkness of war In this innovative and illuminating book Hal Brands a leading historian and former Pentagon adviser argues that America should look to the history of the Cold War for lessons in how to succeed in great power rivalry today Although the threat posed by authoritarian powers is growing America's muscle memory for dealing with dangerous foes has atrophied in the thirty years since the Cold War ended In long term competitions where the diplomatic jockeying is intense and the threat of violence is omnipresent the United States will need all the historical insight it can get Exploring how America won a previous twilight struggle is the starting point for determining how America can successfully prosecute another high stakes rivalry today

Inside The Volcano Frederick Stirton Weaver,2018-02-19 This book provides a historical background to recent Central American social unrest repression and revolution to help readers engage in current arguments claims and debates in a critically and historically informed manner

U. S. Intervention and Regime Change in Nicaragua Mauricio Solaun,2021-08-05 As President Carter's ambassador to Nicaragua from 1977-1979 Mauricio Solaun witnessed a critical moment in Central American history In *U S Intervention and Regime Change in Nicaragua* Solaun outlines the role of U S foreign policy during the Carter administration and explains how this policy with respect to the Nicaraguan Revolution of 1979 not only failed but helped impede the institutionalization of democracy there Late in the 1970s the United States took issue with the Nicaraguan dictator Anastasio Somoza Moral suasion economic sanctions and other peaceful instruments from Washington led to violent revolution in Nicaragua and bolstered a new dictatorial government A U S supported counterrevolution formed and Solaun argues that the United States attempts to this day to determine who rules Nicaragua Solaun explores the mechanisms that kept Somoza's poorly legitimized regime in power for decades making it the most enduring Latin American authoritarian regime of the twentieth century Solaun argues that continual shifts in U S international policy have been made in response to previous policies that failed to produce U S friendly international environments His historical survey of these policy shifts provides a

window on the working of U S diplomacy and lessons for future policy making **Historical Dictionary of the Carter Era**
Diane Kaufman, Scott Kaufman, 2013 James Earl Carter Jr better known as Jimmy Carter was not the greatest or most popular president of the United States but he did accomplish quite a lot in the fields of civil rights energy and foreign policy during his term from 1977 to 1981 However the economy fared badly and he lost face in his dealings with Iran So when he left after one term he was not greatly missed or so it seemed For after the presidency he made an amazing comeback as a diplomat and trouble shooter in international crises becoming an amazing ex president And even the earlier views of his presidency have been improving at least he did not get the country into a war This rather special trajectory is explained in the Historical Dictionary of the Carter Era with an obvious focus on his term as president His run for the presidency and what he did during his term in office is traced carefully by the chronology The introduction takes a longer view and also puts events in a broader context Then the dictionary section with hundreds of detailed and cross referenced entries tells us more about his policy in various fields but also how America changed culturally and socially during this period The extensive bibliography points toward further information although this book is certainly a good starting point and also a place to refresh one s memory

US Foreign Policy and Democracy Promotion Michael Cox, Timothy J. Lynch, Nicolas Bouchet, 2013-04-17 The promotion of democracy by the United States became highly controversial during the presidency of George W Bush The wars in Iraq and Afghanistan were widely perceived as failed attempts at enforced democratization sufficient that Barack Obama has felt compelled to downplay the rhetoric of democracy and freedom in his foreign policy This collection seeks to establish whether a democracy promotion tradition exists or ever existed in US foreign policy and how far Obama and his predecessors conformed to or repudiated it For more than a century at least American presidents have been driven by deep historical and ideological forces to conceive US foreign policy in part through the lens of democracy promotion Debating how far democratic aspirations have been realized in actual foreign policies this book draws together concise studies from many of the leading academic experts in the field to evaluate whether or not these efforts were successful in promoting democratization abroad They clash over whether democracy promotion is an appropriate goal of US foreign policy and whether America has gained anything from it Offering an important contribution to the field this work is essential reading for all students and scholars of US foreign policy American politics and international relations *The Sandinista Revolution*
Mateo Jarquín, 2024-04-30 The Sandinista Revolution and its victory against the Somoza dictatorship in Nicaragua gripped the United States and the world in the 1980s But as soon as the Sandinistas were voted out of power in 1990 and the Iran Contra affair ceased to make headlines it became in Washington at least a thing of the past Mateo Jarquín recenters the revolution as a major episode in the history of Latin America the international left and the Cold War Drawing on research in Nicaragua Cuba Mexico Panama and Costa Rica he recreates the perspective of Sandinista leaders in Managua and argues that their revolutionary project must be understood in international context Because struggles over the Revolution unfolded

transnationally the Nicaraguan drama had lasting consequences for Latin American politics at a critical juncture It also reverberated in Western Europe among socialists worldwide and beyond illuminating global dynamics like the spread of democracy and the demise of a bipolar world dominated by two superpowers Jarqu n offers a sweeping analysis of the last left wing revolution of the twentieth century an overview of inter American affairs in the 1980s and an incisive look at the making of the post Cold War order

Guide to the White House Staff Shirley Anne Warshaw,2013-03-27 *Guide to the White House Staff* is an insightful new work examining the evolution and current role of the White House staff It provides a study of executive legislative relations organizational behavior policy making and White House cabinet relations The work also makes an important contribution to the study of public administration for researchers seeking to understand the inner workings of the White House In eight thematically arranged chapters *Guide to the White House Staff* Reviews the early members of the White House staff and details the need statutory authorization and funding for staff expansion Addresses the creation of the Executive Office of the President EOP and a formal White House staff in 1939 Explores the statutes executive orders and succession of reorganization plans that shaped and refined the EOP Traces the evolution of White House staff from FDR to Obama and the specialization of staff across policy and political units Explores how presidential transitions have operated since Eisenhower created the position of chief of staff Explains the expansion of presidential in house policymaking structures beginning with national security and continuing with economic and domestic policy Covers the exodus of staff and the roles remaining staff played during the second terms of presidents Examines the post White House careers of staff *Guide to the White House Staff* also provides easily accessible biographies of key White House staff members who served the presidencies of Richard M Nixon through George W Bush This valuable new reference will find a home in collections supporting research on the American presidency public policy and public administration

Falling Friends Martin Staniland,2019-04-08 For U S policymakers the collapse of governments headed by good friends of the United States has been over the past thirty years a repeated cause of alarm and embarrassment Such crises of succession have implications not only for U S foreign policy but also for recent and forthcoming changes in Eastern Europe and the Soviet Union Martin Staniland draws together extended case studies illustrating regime change and shows how each crisis resembles the others in its phases of development from the status quo to the attack phase and ultimately to negotiating the succession In the process students get to know the history culture and personalities involved from Batista and Eisenhower to Marcos and the Reagan administration As in every volume in the *Case Studies in International Affairs* series this volume opens with an introduction that taps into current theoretical debates in international relations while giving students a framework for understanding and comparing the cases that follow Individual introductions to each case place the study in context and discussion questions and exercises are strategically interjected throughout to encourage students to explore the issues and to assess the choices facing policymakers

Wars of Latin America, 1948-1982 René De La Pedraja,2013-04-17 This book

continues the narrative begun by the author in *Wars of Latin America 1899-1941*. It provides a clear and readable description of military combat occurring in Latin America from 1948 to the start of 1982. In an unusual peaceful lull, Latin America experienced no wars from 1942 to 1947. Although the text concentrates on combat narrative, matters of politics, business, and international relations appear as necessary to explain the wars. The author draws on many previously unknown sources to provide information never before published. The book traces the many insurgencies in Latin America as well as conventional wars. Among the highlights are the chapters on the Cuban and Nicaraguan insurrections and on the Bay of Pigs invasion. One goal of the text is to explain why of the many insurgencies appearing in Latin America only those in Cuba and Nicaragua were successful in overthrowing governments. The book also helps explain why even unsuccessful insurgencies have survived for decades as has happened in Colombia and Peru. Instructors considering this book for use in a course may request an examination copy [here](#).

Eventually, you will certainly discover a additional experience and feat by spending more cash. nevertheless when? complete you agree to that you require to get those all needs afterward having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will guide you to understand even more around the globe, experience, some places, following history, amusement, and a lot more?
