Walter Aaron Clark, K. Meira Goldberg

Song And Dance:

English Folk-song and Dance Frank Kidson, Mary Neal, 1915 The work here reprinted is essentially in two parts an examination of the history of the English folk song by Frank Kidson together with a similar analysis of the English folk dance by Mary Neal Dust jacket flap Transatlantic Malagueñas and Zapateados in Music, Song and Dance Walter Aaron Clark, K. Meira Goldberg, 2019-06-20 Transatlantic Malagueñas and Zapateados is an exploration of two fandango dances recording the circulations of people imagery music and dance across what were once the Spanish and Portuguese Empires Although these dance musics seem to be mirror images the unbreachable space between them reflects the political fault lines along which nineteenth century musical populism and folkloric nationalism extend into present day debates about globalization immigration neoliberalism and neofascism If malagueñas are a fantastic incarnation of Spanishness caught like a fly in amber by their anachronistic references to a fraught imperial past noisy and raucous zapateado dances cut toward the future Inherently marked by European conventions of zapatos shoes zapateados are nonetheless shaped by Africanist and Native American footwork traditions In these Afro Indigenous mestizajes not only are European aesthetic values reordered and resignified but the Catholic catechism which indoctrinated the New World yields to alternate spiritual systems springing out of a culture of resistance to European domination Dance Me a Song Beth Genné, 2018-05-30 Dancer choreographer directors Fred Astaire George Balanchine and Gene Kelly and their colleagues helped to develop a distinctively modern American film dance style and recurring dance genres for the songs and stories of the American musical Freely crossing stylistic and class boundaries their dances were rooted in the diverse dance and music cultures of European immigrants and African American migrants who mingled in jazz age America The new technology of sound cinema let them choreograph and fuse camera movement light and color with dance and music Preserved intact for the largest audiences in dance history their works continue to influence dance and film around the world This book centers them and their colleagues within the history of dance where their work has been marginalized as well as film tracing their development from Broadway to Hollywood 1924-58 and contextualizing them within the American history and culture of their era This modern style like the nation in which it developed was pluralist and populist It drew from aspects of the old world and new high and low theatrical and social dance forms creating new sites for dance from the living room to the street A definitive ingredient was the freer more informal movement and behavior of their jazz age generation which fit with song lyrics that poeticized slangy American English The Gershwins Rodgers and Hart and others wrote not only songs but extended dance driven scores tailored to their choreography giving a new prominence to the choreographer and dancer actor This book discusses how these choreographers collaborated with directors like Vincente Minnelli and Stanley Donen and cinematographers like Gregg Toland musicians dancers designers and technicians to synergize music and moving image in new ways Eventually concepts and visual musical devices derived from dance making would give entire films the rhythmic flow and feeling of dance Dancing Americans came

to be seen around the world as archetypal embodiments of the free spirited optimism and energy of America itself

Hall, Naomi E. Langmore, 2017-09-11 Bird song traditionally regarded as primarily a male trait is in fact widespread among female songbirds and was probably present in the ancestor of modern songbirds Odom et al 2014 Nature Communications These recent findings challenge the view that sexual dimorphism in the expression and complexity of song is largely the outcome of sexual selection on males It is now clear that understanding the evolution of bird song requires explaining variation within and among species in the expression and complexity of female song To do this we need a better understanding of the nature of variation in female song in different contexts and systems as well as the fitness costs and benefits of variation in the expression and complexity of female song This Research Topic draws together current research on female song with the goal of understanding the fitness costs and benefits of the diversity of female singing behaviour apparent among songbirds It includes articles ranging from single species studies investigating how female song varies with context and contrasts with male song to comparative analyses exploring relationships between female song and
