Sound And Sense In The Poetry Of Theodor Storm A Phonologicalstatistical Study:

Sound and Sense in the Poetry of Theodor Storm Alan B. Galt, 1973 The Sound of Poetry / The Poetry of Sound Marjorie Perloff, Craig Dworkin, 2009-10-15 Sound one of the central elements of poetry finds itself all but ignored in the current discourse on lyric forms The essays collected here by Marjorie Perloff and Craig Dworkin break that critical silence to readdress some of the fundamental connections between poetry and sound connections that go far beyond traditional metrical studies Ranging from medieval Latin lyrics to a cyborg opera sixteenth century France to twentieth century Brazil romantic ballads to the contemporary avant garde the contributors to *The Sound of Poetry The Poetry of Sound* explore such subjects as the translatability of lyric sound the historical and cultural roles of rhyme the role of sound repetition in novelistic prose the connections between sound poetry and music between the visual and the auditory the role of the body in performance and the impact of recording technologies on the lyric voice Along the way the essays take on the ensemble discords of Maurice Scève's *Le Lie* Ezra Pound's use of Chinese whispers the alchemical theology of Hugo Ball's Dada performances Jean Cocteau's modernist radiophonics and an intercultural account of the poetry reading as a kind of dubbing A genuinely comparatist study *The Sound of Poetry The Poetry of Sound* is designed to challenge current preconceptions about what Susan Howe has called articulations of sound forms in time as they have transformed the expanded poetic field of the twenty first century

Crawford, 1977 This study attempts to identify and analyze the images of transience in Schiller's poetic work In the early poems a major series of images of transience reveals his baroque heritage The surprising aspect of the poems which follow the historical studies and the engrossment in Kant is that the same images of transience remain The persistent images of transience make it clear that Schiller was far from being an ivory tower idealist rather he was a realist who perceived the grim visage of life The Humorous and Grotesque Elements in Döblin's

F. Brogan, 1981 Bildung and Verbildung in the Prose Fiction Works of Otto Julius Bierbaum Roy L. Ackerman, 1974 This invaluable study of turn of the century German thought and literature examines the causes of Verbildung as revealed in the cultural social and political climate of Wilhelminian Germany It traces the early philosophic admonitions of Nietzsche and Langbehn how they gave rise to the Verbildungsroman and Schulliteratur and analyzes the life and prose fiction works of Otto Julius Bierbaum the only German author who made the issue of Verbildung the focal point of his life and work **The Writer and Society** Charlotte W. Ghurye, 1976 This study is concerned with the social and political awareness apparent in the works of G nter Grass and Heinrich B ll In particular the authors critical stance has been examined and in some instances the reaction of West German society to this criticism Behind B ll s censure there is evident an intention to alert his fellow citizens to the prevailing social inequities to awaken a deeper sense of democratic values and ultimately to create a more equitable and human society War and the Mind of Germany Wilhelm Johannes Schwarz, 1975 **Confrontation with Exile** Thomas A.
