## Textual Practice 11:

**Textual Practice**, 1997 **Textual Practice** Jean Howard, Alan Sinfield, Lindsay Smith, 1997-07-10 In this volume Textual Practice brings together some of its most pressing concerns by exploring the interaction of texts with language politics gender and history Textual Practice has a theoretical approach that crosses over into a range of other apparently disparate disciplines philosophy history law medicine science architecture gender and media studies Key Features Features the most exciting new voices and the most influential new scholars in the field Multidisciplinary Includes two articles on Ireland \_ \_ \_ **Textual Practice** Terence Hawkes, 2005-08-03 First published in 1992 Routledge is an imprint of Taylor Francis an informa company Shakespeare and the Problem of Adaptation Margaret Jane Kidnie, 2009 Kidnie's study presents original sophisticated and profoundly intelligent answers to important questions Lukas Erne University of Geneva This is a fine and productive book one that will surely draw significant attention and commentary well beyond the precincts of Shakespeare studies W B Worthen Columbia University Shakespeare's plays continue to be circulated on a massive scale in a variety of guises as editions performances and adaptations and it is by means of such mediation that we come to know his drama Shakespeare and the Problem of Adaptation addresses fundamental questions about this process of mediation making use of the fraught category of adaptation to explore how we currently understand the Shakespearean work To adapt implies there exists something to alter but what constitutes the category of the play and how does it relate to adaptation How do play and adaptation relate to drama's twin media text and performance What impact might answers to these questions have on current editorial performance and adaptation studies Margaret Jane Kidnie argues that play and adaptation are provisional categories mutually dependent processes that evolve over time in accordance with the needs of users This theoretical argument about the identity of works and the nature of text and performance is pursued in relation to diverse examples including theatrical productions by the Royal Shakespeare Company the BBC's ShakespeaRe Told the Reduced Shakespeare Company and recent print editions of the complete works These new readings build up a persuasive picture of the cultural and intellectual processes that determine how the authentically Shakespearean is distinguished from the fraudulent and adaptive Adaptation thus emerges as the conceptually necessary but culturally problematic category that results from partial or occasional failures to recognize a shifting work in its textual theatrical instance Violence, Scripture, and Textual Practices in Early Judaism and Christianity Raanan Shaul Boustán, Alex P. Janssen, Calvin J. Roetzel, 2010 This volume analyzes the emergence of Jewish and Christian discourses of religious violence within their Roman imperial context with an emphasis on the shared textual practices through which authoritative scriptural traditions were redeployed to represent legitimate and indeed sacralize violence **Versions of Antihumanism** Stanley Eugene Fish, 2012-04-19 Stanley Fish's finest published work is brought together here with brand new material on Milton and on other authors and topics in early modern literature Lucid provocative direct and inimitable this book is required reading for

anyone teaching or studying Milton and early modern literary studies      *Masculinity and the Other* Heather Ellis, Jessica Meyer, 2009-01-14 Histories of masculinity have generally examined both social ideologies of masculinity and subjective male identities within frameworks that define them against the feminine Yet historians and sociologists have increasingly argued that men have been and continue to be defined both socially and subjectively as much by their relations to other men as in relation to women This collection brings together the work of scholars of masculinities working in a variety of fields including literature history and art history to examine some of the forms of otherness against which ideas of masculinity have been defined throughout history The collection reflects the current breadth of scholarship relating to the study of masculine alterity While the subjects addressed are largely historical the time span covered is broad and the disciplinary approaches to the subject matter are equally wide ranging A huge variety of men masculine behaviours and definitions of masculinity are considered in an exciting and invigorating collection that showcases both established academics and emerging scholars in the field      Embodying the Militia in Georgian England Matthew McCormack, 2015 The militia was a key institution in Georgian England and arguably one that was very characteristic of its age A militia is an informal military organisation made up of part time civilians rather than professionals As an island Britain had historically relied on forces of this type for home defence but threats of a French invasion during the Seven Years War 1756-63 highlighted that the militia had fallen into disrepair and prompted calls for its revival In this important new study Matthew McCormack re-examines the debates on the militia and argues that this military reform was informed and driven by concerns about politics nationalism and gender The militia tells us a great deal about the political culture of the eighteenth century which was suspicious of professional armies and executive power and which placed great emphasis on the liberties and masculine attributes of the ordinary citizen Its advocates even suggested that mass military service would prompt a reinvigoration of English masculinity The Militia Act passed into law in 1757 From this date until the New Militia's slow demise after the Napoleonic Wars *Embodying the Militia in Georgian England* considers civilian men's experience of military service How was the militia embodied both in the contemporary sense of assembling for service and also as a gendered bodily experience Chapters explore questions such as physical training masculine honour material culture self identity and citizenship As such the volume's interdisciplinary approaches offer new perspectives on the history of war      On Sexuality and Power Alan Sinfield, 2004 This book argues that hierarchies in interpersonal relations are inextricably linked to the main power differentials of our social and political life gender class age and race therefore it is not surprising that they govern our psychic lives Recent writing enables an exploration of their positive potential especially in fantasy as well as their danger The book focuses on the writing of the last thirty years revisiting also Whitman Wilde Mann Forster and Genet and reassessing the very idea of a gay canon      The Victorian Eighteenth Century B.W. Young, 2007-10-18 Exploring the Victorian fascination with the generation of their grandparents and great grandparents Brian Young illuminates Victorian intellectual religious and cultural history Examining

the work of men such as Thomas Carlyle the book reveals how the Victorians were haunted by the eighteenth century both metaphorically and literally

Uncover the mysteries within Explore with is enigmatic creation, **Textual Practice 11** . This downloadable ebook, shrouded in suspense, is available in a PDF format ( Download in PDF: \*).
