This book challenges many suppositions surrounding sex tourism suggesting that elderly males who seek romance and are caught up in their fantasies of finding love with exotic black women are taken advantage of even while the women are often deluding themselves when searching for the mzungu who will enable them to fulfil their dreams of travel house ownership and comfort It is a complex story based on research into the lives of the sex workers obtained from a study conducted over 12 months in the bars and nightclubs of the Kenyan coast Fortunes are made and lost but the tragedy is that the success of the few in achieving their dreams becomes a false promise for the majority who seek to emulate the success of the few The book will be of immense value to those interested in gender studies and indeed those who hold an interest in the complexities of sex work **International approaches to prostitution** Gangoli, Geetanjali,Westmarland, Nicole,2006-05-31 What is to be done about prostitution Is it work or is it violence Are women involved in prostitution offenders or victims Is prostitution a private or a political issue The answers to these questions vary depending on many factors including where in the world you live This book provides a valuable detailed international comparison of the laws policies and interventions in eight countries across Europe England and Wales France Sweden and Moldova and Asia India Pakistan Thailand and Taiwan The countries were chosen because of their contrasting social policy and legislative frameworks Specific topics covered include national social and historical contexts in relation to prostitution legal frameworks with discussion of existing laws and policies and debates around legislation and decriminalisation key issues faced particularly relating to reasons for entering prostitution and analysis of policies and interventions The case studies are brought to life by giving voice to the experiences of women involved in prostitution themselves together with the personal reflections of the authors Aimed at a wide audience of students academics policy makers and practitioners this book makes an important contribution to academic and policy debates in the fields of criminology law social policy women s studies sociology politics and international relations

Love for Sale Nils Johan Ringdal, 2007-12-01 An enlightening and entertaining survey of the world's oldest profession from the Whore of Babylon to the modern sex worker movement Kirkus Reviews From Eve and Lilith to Julia Roberts in *Pretty Woman* the prostitute has been both a target of scorn and a catalyst for social change In *Love for Sale* cultural historian Nils Johan Ringdal delivers an authoritative and engaging history of this most maligned yet globally ubiquitous form of human commerce Beginning with the epic of Gilgamesh the Old Testament and ancient cultures from Asia to the Mediterranean Ringdal considers the varying way societies have dealt with and thought about prostitutes through history He discusses how they were included in the priestess class in ancient Greece and Rome how the rise of the courtesan in nineteenth century Europe shaped literature fashion the arts and modern sensibilities He uncovers the first manuals on the art of sex and seduction the British Empire's campaigns against prostitution in India and stories of the Japanese comfort women who served the armies in the Pacific theater of World War II Ringdal closes with the rise of the sex workers rights movement and sex positive feminism and a realistic look at the true risks and rewards of prostitution in the present day Recalling Camille Paglia's *Sexual Personae* with its broad sweep across centuries and continents *Love for Sale* uses its subject as a springboard for exploring the ever changing notions of love sexual identity morality and gender among various cultures Nan Goldberg Newark Sunday Star Ledger

Thailand Maurizio Peleggi, 2007-05-30 Tourist brochures and travel guides depict Thailand as an exotic country with a rich cultural heritage strong religious traditions and a popular monarchy Historians also contribute to Thailand's international allure with chronicles of its unique historical and cultural continuity in comparison to the other southeast Asian countries whose histories are stained by colonialism and nationalist struggles for independence Thailand challenges these stereotypes with a reinterpretation as well as an introduction to the emergence of Thailand as a nation state The book argues that the development of Thai nationhood was a long term process shaped by interactions with the outside world its pursuit of civilization and more recently globalization Maurizio Peleggi's original account investigates among other issues the evolution of the geographical and linguistic landscapes changes in class and gender relations the role of institutions and ideologies modern cultural expressions social memory and the conception of the Thai national self as contrasted against the racial and cultural Others of Burmese Chinese and Westerners Thailand is a concise and compelling introduction to the complexities that lie behind Thailand's exotic facade

Thailand's International Meditation Centers Brooke Schedneck, 2015-05-15 This book explores contemporary practices within the new institution of international meditation centers in Thailand It discusses the development of the lay vipassana meditation movement in Thailand and relates Thai Buddhism to contemporary processes of commodification and globalisation Through an examination of how meditation centers are promoted internationally the author considers how Thai Buddhism is

translated for and embodied within international tourists who participate in meditation retreats in Thailand Shedding new light on the decontextualization of religious practices and raising new questions concerning tourism and religion this book focuses on the nature of cultural exchange spiritual tourism and religious choice in modernity With an aim of reframing questions of religious modernity each chapter offers a new perspective on the phenomenon of spiritual seeking in Thailand Offering an analysis of why meditation practices appeal to non Buddhists this book contends that religions do not travel as whole entities but instead that partial elements resonate with different cultures and are appropriated over time Volunteer Tourism Mary Mostafanezhad,2016-02-17 Crossing disciplinary and chronological boundaries Volunteer Tourism Popular Humanitarianism in Neoliberal Times is the first full length treatment of volunteer tourism from a longitudinal ethnographic perspective Volunteer tourism one of the fastest growing niche tourism markets in the world is a type of tourism in which tourists pay to participate in conservation humanitarian or development oriented projects Volunteer Tourism is a comprehensive and comparative study of the perspectives of Thai host community members NGO practitioners and international volunteer tourists The book thus shines an ethnographic lens onto the complexities and contradictions of the volunteer tourism experience in northern Thailand Drawing on cross disciplinary perspectives in geography and anthropology as well as development tourism and cultural studies Volunteer Tourism illustrates how a focus on sentimentality in the volunteer tourism encounter obscures the structural inequalities on which the experience is based Such a focus situates volunteer tourism within the commodification and sentimentalization of development and global justice agendas which hail the new moral consumer and reframe questions of structural inequality as questions of individual morality As a result albeit inadvertently the practice of volunteer tourism serves the continued expansion of the cultural logics and economic practices of neoliberalism *Trafficking and Sex Work* Mathilde Darley,2022-12-30 Set in different national contexts Brazil Bulgaria France Germany Laos Norway Thailand and in different social science disciplines the chapters of this volume aim at questioning anti trafficking policies and their practical impact on sex work regulation Many actors from media to researchers from nonprofit organizations to law enforcement agencies from experts to reality tourists contribute to produce knowledge on trafficking and sexual exploitation and thus to institutionalize it as a category of thought and action by naming and framing perpetrators and victims they make trafficking come true as a public problem The book pays particular attention to the way the international expertise produced by these different actors and institutions on sexual exploitation and sex work impacts local control practices especially with regard to law enforcement The fight against trafficking as it gets institutionalized and put into practice then appears as a way to reaffirm a gendered and racialized public order Building analytical bridges between different national contexts and relying on contextualized fieldwork in different countries the book is of great interest for academics as well as for practitioners and or activists working on sex and gender issues and migration policies Also it resonates with a broader literature on the construction of public problems in sociology

and political science
