That Magnificent 9th:

That Magnificent 9th Mark Johnston,2002 A comprehensive illustrated history of the Australian 9th Division during WWII *Armies of Empire* Allan Converse,2011-03-15 This book uniquely reflects upon the experience of two divisions from different armies in WWII **Memoirs of the Stuart Horse Artillery Battalion** Robert J. Trout,2008 Until recently it has been difficult for anyone with an interest in the Army of Northern Virginia s horse artillery which served under legendary cavalry commander J E B Stuart to envision what the men of the battalion endured With the publication in 2002 of Robert Trout s seminal book *Gallop Thunder* The Stuart Horse Artillery Battalion the endeavors of the unit were rescued from obscurity In *Memoirs of the Stuart Horse Artillery Battalion* Trout provides readers with complete versions of three important primary documents written by soldiers of the battalion Lt Lewis T Nunnelee s history of Moorman s Battery is based on a seven volume diary that Nunnelee kept during the war and features near daily entries of the battery s actions The History of Hart s Battery as told by Maj James F Hart Dr Levi C Stephens Louis Sherfese and Charles H Schwing is as Trout puts it a cannon of a different caliber It recounts in broader terms the battery s history from its inception before the war to its surrender as the last horse artillery in the field The authors offer rare glimpses into the development of tactics learned from the school of the battlefield Finally Louis Sherfese s *Reminiscences of A Color Bearer* fleshes out many of the stories in the history that he co wrote with Hart and his fellow soldiers Filled with short vignettes it offers a behind the scenes look at the battery in action Together these rich documents provide welcome insights into the day to day experiences of the often overlooked Confederate horse artillery which played an important role in cementing Stuart s reputation as one of the most outstanding cavalry commanders in the Civil War Book Jacket *Western Power in Asia* Arthur Cotterell,2011-08-04 For centuries the major poweres of the West were seduced by the allure of the countries of the Far East Spices textiles silk and tea were the staples of East West trade But competition between Western traders eventually caused military intervention in Asian affairs and the establishment of colonial empires These actions have shaped the history of mankind and left a legacy that still reverberates throughout Asia *Western Power in Asia* is a unique contribution to the understanding of present day Asia Essential reading for anyone interested in world history Arthur Cotterell offers fascinating insights into five hundred extraordinary years of power and influence by the West which disappeared spectacularly after the Second World War The author s ability to tell both sides of the story with the aid of contemporary illustrations as well as quotations makes this book a tremendous resource for students of Asian history And because the entire colonial experience is covered for the first time within a single volume *Western Power in Asia* also provides the general reader with an unusual and invaluable perspective on East West relations As countries such as China and India become key players on the world stage *Western Power in Asia* provides a timely reminder of the path that led to their present positions while allowing a poignant opportunity to reflect on how they might in future treat their Western trading partners *Victory in the Desert* Adrian Stewart,2022-04-11 The end of

the beginning An epic conflict North Africa was a turning point for the British in the Second World War a harsh landscape of sand and enemy tanks but ultimately a place of victory that Churchill famously called the end of the beginning When General Montgomery became commander of the Allied Eighth Army in 1942 he found the troops dispirited after a series of defeats by his nemesis General Rommel However under Monty's inspired leadership the army turned their fortunes around going on to win seven battles and driving the enemy out of North Africa However little credit has been attributed to the Eighth Army for its victories and even the legendary Battle of El Alamein has been consistently underrated This highly informed and gripping account brings to light how the troops and their leaders won these decisive battles and helped to win the war Lucid and accessible this masterly account is vital reading for all enthusiasts of military history Perfect for readers of Jonathan Dimbleby and Max Hastings

High Lean Country Iain Davidson, Andrew Piper, JS Ryan, 2020-07-22 High Lean Country captures the rich history and haunting character of the New England region of northern New South Wales The authors explore how memory of land of family of patterns of life on the other side of the world has influenced the identity of New England They also consider how the high country itself has shaped its people and their sense of regional uniqueness In doing so this book sets a new direction for understanding Australia as a whole Weaving together the histories of human settlement economic social and cultural development as well as interactions with the environment High Lean Country shows how colonial settlers strived for decades to literally create a new England It traces the story of the graduates of Oxford and Cambridge who turned their hands to sheep husbandry and developed a squattocracy the establishment of schools and other institutions and the cultivation of traditional arts It also examines the early colonial bushranging period and a history of not always friendly relations between white settlers and the local Aboriginal population A project of the Heritage Futures Research Centre at the University of New England High Lean Country is a fascinating study of this distinctive Australian high country

Monty's Greatest Battles 1942-1945 Adrian Stewart, 2025-11-04 Examines both the strengths and weaknesses of one of Great Britain's most renowned military leaders Field Marshal Bernard Law Montgomery had a dynamic personality that often led to difficulties with political or military superiors but made him an immensely effective leader of men He identified himself closely with his soldiers whose welfare was his continual concern and whom he treated almost as family In return they fought for him magnificently in some of the most important battles of the Second World War These battles varied in type terrain and tactics defended river crossings including that of the Rhine amphibious landings including the D Day landings defensive encounters including Alam Halfa and the Ardennes mobile operations including the capture of Tripoli the left hook at the Mareth Line and the dash from the Seine to the Scheldt culminating in the daring attempt to seize the Rhine bridges set piece conflicts against enemies in prepared positions equipped with often superior weapons including Alamein and Normandy In addition to describing the battles that made Montgomery the legendary military commander for which he is rightly remembered this fascinating book examines both his qualities and weaknesses Notwithstanding the latter there is no

doubt that he fully justified the trust and loyalty that soldiers gave to the man they knew as Monty **Eighth Army's Greatest Victories** Adrian Turner,1999-03-16 To read many accounts it would appear that the Eighth Army's victory at El Alamein was quickly followed by its triumphant arrival at Tunis Adrian Turner the experienced authority on the period redresses the imbalance by describing brilliantly the progress of this legendary fighting force and describing the ferocity of such battles as that for the Mareth Line The author deftly handles strategic level thinking the tactical battles and individual contributions Aviation readers will be thrilled by recognition of the Desert Air Force's contribution too often neglected

Justice In Arms Australian Army Legal Corps,2014-01-05 Justice in Arms brings to life a fascinating and important element of Australia's legal history the role of Army legal officers in Australia and in expeditionary operations from the Boer War until 2000 This is a comprehensive and absorbing history which describes the dynamic interaction of institutional and political imperatives and the personalities who managed this interaction over the decades It is populated by colourful characters and legal luminaries and demonstrates that military justice is rightly concerned with discipline and cohesiveness Reflecting broader societal norms it is also concerned with the rule of law and respect for the rights liberties and fair treatment of those who serve in the armed forces Justice in Arms describes the extraordinary contribution of Army legal officers to both the profession of arms and the development of the law charting the evolving personal and structural relationships between Army legal officers and command dictated by the changing legal needs of the Army and the broader Australian Defence Force Today Army legal officers apply adapt and shape the law to meet evolving needs in peacetime and during armed conflict and peace operations ensuring the legitimacy of military action and the maintenance of domestic and international support for national objectives **We Who Proudly Served** Peter Francis Kenny,2015-05-27 Although Australia is only a young country in comparison to other nations it can hold its head up high and proudly proclaim that it is one of the giants in this world of toil and trouble in which we live When the odds are stacked against Australians they don't turn and run instead they stand and fight and overcome the obstacles that face them The contents of this volume are a tribute to all the men and women of this proud and great country who have come from all walks of life to give of their time and unfortunately some have even given their lives to defend this great land and keep it free There have been politicians doctors nurses police officers average everyday citizens musicians actors artists farmers graziers authors sportsmen and women journalists and a host of others who have taken up the cause for their country and the monarchy serving from the Crimean to the war in Vietnam and beyond Their heroic deeds and their many sacrifices have ensured that today's generation can rest easier proud in the knowledge that these servicemen and women have paved the way for our freedom Now they come together once again as one big family to shed an insight on their achievements so that you can fully understand and appreciate what they have and had experienced I dedicate this work to the memory of all those who have made the supreme sacrifice in order that we may live in peace and prosperity and also to the families of those who did not return The book is not

a glorification of war but a glorification of the individual and his or her actions and deeds
