James Thomas Flexner

That Wilder Image Painting Of Americas:

That Wilder Image James Thomas Flexner,1970 The Invention of Painting in America David Rosand,2004 David Rosand recounts the transformation of early American painters from provincial followers of the established traditions of Europe into some of the most innovative and influential artists in the world Moving beyond simple descriptions of what distinguishes American art from other movements and forms Rosand explores not only the status of artists and their relationship to their work but also the larger dialogue between the artist and society He looks to the intensely studied portraits of America s early painters especially Copley and Eakins and the landscapes of Homer and Inness among others Each of these artists grappled with conflicting cultural attitudes and different expressive styles He discusses the work of Davis Gorky de Kooning Pollock Rothko and Motherwell and the subjects and themes that engaged them Despite the indifference with which it was first met American art flourished against the odds and founded the aesthetic consciousness that we equate with American art today In this exhilarating study Rosand unearths the historical and artistic conditions that gave rise to the phenomenon of Abstract Expressionism *That Wilder Image* James T. Flexner,1986-06-01 **Emanuel Leutze** National Collection of Fine Arts (U.S.),1975 **Winslow Homer at Prout's Neck** Philip C. Beam,2014-11-07 Winslow Homer was the antithesis of the unkempt bohemian artist of the nineteenth century He not only always maintained the appearance of an English country gentleman but was also an everyday sort of man both in his life and his paintings Yet he is ranked as one of America s greatest painters The reason is not hard to discover for Winslow Homer s powerful epic statements spoke for America with a breadth that few other artists have achieved This is a lively intimate and immensely readable portrait of the artist that throws a new light on Homer s life and puts it in fresh perspective This biography concentrates on Homer s years at Prout s Neck on Maine s rugged coast where he would create his finest paintings from 1883 until his death in 1920 **Nature, Politics, and the Arts** Hermione de Almeida,2015-03-18 This interdisciplinary book honors Columbia professor and New York intellectual Carl Woodring Chapters on Romantic and Victorian literary culture written by leading scholars in the field join in conversation with Woodring s teachings on literature and visual art and his commentaries on American culture A multiple authored chapter of postscripts on the aesthetic range of Woodring s intellectual interests across cultural disciplines his contributions to English studies and his informing influence on several generations of scholars and their areas of interest follows A chapter from Woodring s unpublished autobiography on his childhood in small town America then concludes the volume with an ironic retrospection on intercultural origins Topics addressed among the chapters include portraiture and self fashioning landscape art physiognomy and caricatures radical print ephemera illustrated picaresque verse social and political satire traditions of the sublime in art and literature transatlantic influences and aesthetics chaos theory and the laws of thermodynamics the Caribbean slave trade revolutionary history Napoleonic wars the politics of multicultural communities gender and race marginalia and textual revelations Native
