The Thaw Collection Cara D. Denison,1994 *The Thaw Collection of Master Drawings* Colin J. Bailey,2009 *The Thaw Collection* Cara D. Denison,Egbert Haverkamp Begemann,2002 *The Triumph of Modernism* Hilton Kramer,2013-12-09

Widely acknowledged as the most authoritative art critic of his generation Hilton Kramer advanced his comments and judgments largely in the form of essays and short pieces Thus this first collection of his work to appear in twenty years is a signal event for the art world and for criticism generally *The Triumph of Modernism* not only traces the vicissitudes of the art scene but diagnoses the state of modernism and its vital legacy in the postmodern world Mr Kramer bracingly updates his incisive critique of the artists critics institutions and movements that have formed the basis for modern art Appearing for the first time in greatly expanded form is his consideration of the foundations of modern abstract painting and the future of abstraction The aesthetic intelligence that Mr Kramer brings to bear on certain tired assumptions about modernism many of them derived from methodologies and politics that have little to do with art helps rescue the artwork itself and its appreciation from the very institutions such as the art museum and the academy that purport to foster it Always clear eyed and vastly illuminating Hilton Kramer s art criticism remains among the very finest written in the past hundred years Readers of *The Triumph of Modernism* will be treated to an exhilarating experience

Jacob van Ruisdael's Ecological Landscapes Catherine Levesque,2025-10-01 This book examines Jacob van Ruisdael s treatment of five subjects dunes grainfields ruins rushing water and woodlands that recur throughout his career The paintings though fictive show close attention to the complexities of particular environments that can be fruitfully considered ecological The pattern of Ruisdael s reworking each environment and associated phenomena shows him as laboring over these themes His work across media conveys something of his demanding and methodical procedure as he sought to achieve pictorially the force temporality vitality and motion of nature Ruisdael s paintings decenter humankind within familiar yet reimagined landscapes His ability to depict nature s dynamism provided an alternative vision at a foundational moment when landscape increasingly manipulated and controlled was most often considered property and investment His focus on the techniques and processes of his own work to render these entities was essential to his ecological perspective and invites a similar recognition from an attentive viewer
