The 613 Mitzvot A Contemporary Guide To The Commandments Of Judaism:

The 613 Mitzvot Ronald L. Eisenberg, 2005 Drawing on many rabbinic and post rabbinic sources the commandments by tradition 613 in number are explained in light of traditional sources in a clear and direct way for today's reader [The 613 Commandments](#) Dr. Robert H. Schram, 2020-09-28 The author Dr ROBERT H SCHRAM has degrees in Political Science BA and Personnel Counseling MA with a Doctorate in Public Administration and is Executive Director Emeritus of BARC Developmental Services 1977-2020 The 613 Commandments is his fourteenth published book that puts the Commandments into Thirty four Categories to make their comprehension more accessible Prophecy Clothing Prayer and Blessings Injuries and Damages The Firstborn Lepers and Leprosy Signs and Symbols Torah Treatment of Gentiles Vows Oaths and Swearing Criminal Laws Agriculture and Animal Husbandry The King God Nazarites Property and Property Rights The Poor and the Unfortunate Love and Brotherhood Business Practices Ritual Purity and Impurity Wars The Sabbatical and Jubilee Years Employees Servants and Slaves Marriage Divorce and Family Punishment and Restitution Tithes and Taxes Forbidden Sexual Relations Dietary Laws Kohanim and Levites The Temple the Sanctuary Sacred Objects Times and Seasons Court Judicial System Idolatry Idolaters and Idolatrous Practices Sacrifices and Offerings [The Triple Package](#) Jed Rubenfeld, Amy Chua, 2014-02-05 Why do Jews win so many Nobel Prizes and Pulitzer Prizes Why are Mormons running the business and finance sectors Why do the children of even impoverished and poorly educated Chinese immigrants excel so remarkably at school It may be taboo to say it but some cultural groups starkly outperform others The bestselling husband and wife team Amy Chua author of Battle Hymn of the Tiger Mother and Jed Rubenfeld author of The Interpretation of Murder reveal the three essential components of success its hidden spurs inner dynamics and its potentially damaging costs showing how ultimately when properly understood and harnessed the Triple Package can put anyone on their chosen path to success **The Triple Package** Amy Chua, Jed Rubenfeld, 2014-02-04 That certain groups do much better in America than others as measured by income occupational status test scores and so on is difficult to talk about In large part this is because the topic feels racially charged The irony is that the facts actually debunk racial stereotypes There are black and Hispanic subgroups in the United States far outperforming many white and Asian subgroups Moreover there's a demonstrable arc to group success in immigrant groups it typically dissipates by the third generation puncturing the notion of innate group differences and undermining the whole concept of model minorities Mormons have recently risen to astonishing business success Cubans in Miami climbed from poverty to prosperity in a generation Nigerians earn doctorates at stunningly high rates Indian and Chinese Americans have much higher incomes than other Americans Jews may have the highest of all Why do some groups rise Drawing on groundbreaking original research and startling statistics The Triple Package uncovers the secret to their success A superiority complex insecurity impulse control these are the elements of the Triple Package the rare and potent cultural constellation that drives disproportionate group success The Triple Package is open to anyone America

itself was once a Triple Package culture It s been losing that edge for a long time now Even as headlines proclaim the death of upward mobility in America the truth is that the old fashioned American Dream is very much alive but some groups have a cultural edge which enables them to take advantage of opportunity far more than others Americans are taught that everyone is equal that no group is superior to another But remarkably all of America s most successful groups believe even if they don t say so aloud that they re exceptional chosen superior in some way Americans are taught that self esteem feeling good about yourself is the key to a successful life But in all of America s most successful groups people tend to feel insecure inadequate that they have to prove themselves America today spreads a message of immediate gratification living for the moment But all of America s most successful groups cultivate heightened discipline and impulse control But the Triple Package has a dark underside too Each of its elements carries distinctive pathologies when taken to an extreme they can have truly toxic effects Should people strive for the Triple Package Should America Ultimately the authors conclude that the Triple Package is a ladder that should be climbed and then kicked away drawing on its power but breaking free from its constraints Provocative and profound The Triple Package will transform the way we think about success and achievement

Encyclopedia of Women in World Religions Susan de-Gaia,2018-11-16 This reference offers reliable knowledge about women s diverse faith practices throughout history and prehistory and across cultures Across the span of human history women have participated in world building and life sustaining cultural creativity making enormous contributions to religion and spirituality In the contemporary period women have achieved greater equality with more educational opportunities female role models in public life and opportunities for religious expression than ever before Contemporaneously with this increased visibility women are actively and energetically engaging with religion for themselves and for their communities Drawing on the expertise of a range of scholars this reference chronicles the religious experiences of women across time and cultures The book includes sections on major religions as well as on spirituality African religions prehistoric religions and other broad topics Each section begins with an introduction followed by reference entries on specialized subjects along with excerpts from primary source documents The entries provide numerous suggestions for further reading and the book closes with a detailed bibliography

Transcendental Judaism David L. Lieberman,2023-06-12 Is it really possible to connect with God Can we find spirituality in Judaism The answer to both these questions is yes Traditionally Judaism teaches that we connect with God through the performance of the commandments the mitzvot from the Aramaic word tzavta meaning connection But what if we are not mitzvah observant in the traditional ways Can we still experience a palpable closeness to God and have a sense that we are all connected as one To this question our sages also answer yes Through the meditative quieting of the mind we can directly experience that still small voice It is the awesome voice of infinite intelligence that created and upholds our world with compassion and justice When we repeatedly experience it we enliven its qualities into our lives we walk in God s ways When we do so we uplift not only ourselves but the world around us

Restoring the Gospels' Jewish Voice

Watson, Murray, 2023 Although Chouraqui and his work are well known and celebrated in many parts of the world especially in Israel and in the francophone world he is almost completely unknown in the anglophone world This book represents an attempt to introduce his important work and inspiring legacy to an English speaking audience and to explore how it can enrich Jewish Christian dialogue today As a bilingual translator and Biblical scholar I am able to make Chouraqui's work accessible to English speakers who are unfamiliar with him who may be intrigued by him but unable to directly access much of the material written by and about him in French

Finding Freedom Donna J. Stundahl, 2015-01-29 Do you ever feel like you're wandering in a wilderness alone Are you searching for the same freedom the children of Israel sought only to find oppression at every turn Are you looking for a life filled with promise only to be repeatedly disappointed You are not alone We are all on a journey from slavery to sin to the ultimate Promised Land in Heaven where we will be free Everything in between is a wilderness experience Moses expounded on freedom in the wilderness He explained exactly where to find it and how to get there He clearly spoke to the Jew and the foreigner The question is Does He speak to the Christian as well In her book Finding Freedom Dr Stundahl will wander through the wilderness of Deuteronomy and explore the Hebraic roots of Christianity Finding Freedom reveals the concepts of the Torah assembled in the same format in which they were studied by the Jewish communities since the Babylonian exile These concepts include humility idolatry evil speech teaching learning remembering and listening The analysis of each portion of the Torah considers its applicability to the life of a Christian As the history of Christianity and the Jewish elements of the Gospel are discovered the shadows of Jesus Christ are revealed Wherever you are in the wilderness of your life you too can find the freedom intended just for you Experience the reading the writing and the dance of the Torah

The Psychology of World Religions and Spiritualities Timothy A. Sisemore, Joshua J. Knabb, 2021-09-20 This compendium of introductory essays invites scholars and clinicians to better understand people of various faiths from around the world It is intended to correct the tendency among scientists to study religious behavior without accounting for its human dimension For example a psychologist describes a religious ceremony in a certain community as a sociological phenomenon Such a technical description is likely to strike members of that community as an attempt by science to explain away their beliefs This is counterproductive In order to work effectively and empathetically with people of faith psychologists should seek an intimate knowledge of how religion operates in the hearts and minds of living breathing human beings With this goal in mind editors Timothy Sisemore and Joshua Knabb have made one of the world's major religions the subject of a separate chapter In addition they have arranged for each chapter to be written by a psychologist who practices or is culturally connected with that religion This marks the book's unique contribution to the field it is the product of people who have lived the world's religions not merely studied them By taking such a respectful approach the book promotes an appreciation for the ways that religious belief animates inspires and instructs its adherents Moreover the indigenous point of view of these essays will help scholars identify their own biases

when researching religious groups allowing them to produce more accurate and holistic analyses Psychologists understand that religion and spirituality provide meaning and purpose to billions of people around the globe But the actual experience of these beliefs eludes the grasp of the reductionistic methods of science With this resource at their side psychologists in academic and clinical settings will be equipped to understand religious experience from the bottom up and honor the beliefs and practices of the people they are trying to help

Crossdressing in Context, Vol. 4 Transgender & Religion Ph. D. G. G. Bolich, 2009-01-01 Much debate exists over the proper religious perspective on transgender realities and people This volume examines transgender in the major world religions Extensive consideration is given to Christianity including the arguments presented both against transgender behaviors and by supporters of transgender people Religions covered include Christianity Judaism Islam Hinduism Buddhism Jainism Confucianism Taoism Shinto and indigenous religions such as Native American religions of the United States
