reviews the authenticity of certain Street Food specialties from the viewpoint of food chemists At present the food market clearly shows the predominance of fast food operators in many Western countries However the concomitant presence of the traditional lifestyle model known as the Mediterranean Diet in Europe has also been increasingly adopted in many countries in some cases with unforeseen effects such as offering Mediterranean like foods for out of home consumption This

commercial strategy also includes the so called Street Food which is marketed as a variation on Mediterranean foods One of the best known versions of Street Food products can be found in Sicily Italy and particularly in its largest city Palermo Because of certain authenticity issues the Italian National Council of Research Chemists has issued four procedural guidelines for various Palermo specialties with the aim of attaining the traditional specialty guaranteed status in accordance with European Regulation EU No 1151/2012 The first chapter of the book provides a brief introduction to the general concept of Street Foods The remaining four chapters describe four food specialties Arancina Sfincionello Pane ca meusa and Pane e panelle typically produced in Palermo with particular reference to their chemical composition identification of raw materials from a chemical viewpoint permissible cooking and preparation procedures with chemical explanations preservation and storage The book offers a unique guide to Street Food authenticity and can also serve as a reference work for other traditional historical products

Wonder Foods Lisa Haushofer, 2022-12-27 Between 1850 and 1950 experts and entrepreneurs in Britain and the United States forged new connections between the nutrition sciences and the commercial realm through their enthusiasm for new edible consumables The resulting food products promised wondrous solutions for what seemed to be both individual and social ills By examining creations such as Gail Borden's meat biscuit Benger's Food Kellogg's health foods and Fleischmann's yeast *Wonder Foods* shows how new products dazzled with visions of modernity efficiency and scientific progress even as they perpetuated exclusionary views about who deserved to eat thrive and live Drawing on extensive archival research historian Lisa Haushofer reveals that the story of modern food and nutrition was not about innocuous technological advances or superior scientific insights but rather about the powerful logic of exploitation and economization that undergirded colonial and industrial food projects In the process these wonder foods shaped both modern food regimes and how we think about food
