## **The Gun:**

Under the Gun Cedric Dark, 2024-08-13 A doctor's firsthand account of the devastating impacts of gun violence and how we can end this epidemic. Gun violence has become the leading cause of death for children and has decreased the lifespan of American adults by 2.5 years. In 2021, more than forty-eight thousand people were killed by guns in the United States. Nearly twice as many were injured. But beyond these statistics are the untold stories of doctors and health care workers who work to save the lives of victims of gun violence. In this powerful and moving book, Cedric Dark takes readers into the harrowing experiences of these physicians. Dark intertwines these stories with an examination of policies that could save countless lives. Combining research, an examination of gun culture, and an exploration of policy options, *Under the Gun* equips readers with a new understanding of the data and stories needed to confront and persuade politicians to better protect the health and safety of Americans. As an emergency room doctor whose own family has been affected by gun violence, Dark intimately understands how gun violence can destroy lives and communities. He reflects on the events that bring people to the ER while also talking to doctors who not only treat victims of gun violence but also own guns themselves. *Under the Gun* is a powerful meditation on this uniquely American epidemic and an urgent call to action toward a balanced gun policy in the United States.

*The Gun Debate* Philip J. Cook, Kristin A. Goss, 2014 The authors explore the origins of the American gun culture and the makeup of both the gun rights and gun control movements. Written in question and answer format, the book will help readers make sense of the ideologically driven statistics and slogans that characterize our national conversation on firearms. **Under the Gun** Peter H. Rossi, 2017-09-29 In 1978, the Social and Demographic Research Institute of the University of Massachusetts Amherst received a grant from the National Institute of Justice to undertake a comprehensive review of the literature on weapons, crime, and violence in the United States. The purpose of the project is best described as a sifting and winnowing of the claims and counterclaims from both sides of the Great American Gun War, the perennial struggle in American political life over what to do if anything about guns, about violence, and about crime. The review and analysis of the available studies consumed the better part of three years; the results of this work are contained in this volume. The intention of any review is to take stock of the available fund of knowledge in some topical area. *Under the Gun* is no different. Our goal has been to glean from the volumes of previous studies those facts that in our view seem firmly and certainly established, those hypotheses that seem adequately supported by or at least approximately consistent with the best available research evidence, and those areas or topics about which it seems we need to know a lot more than we do. One of our major conclusions can be stated in advance: despite the large number of studies that have been done, many critically important questions have not been adequately researched, and some of them have not been examined at all. Much of the available research in the area of weapons and crime has been done by advocates for one or another policy position. As a consequence, the manifest intent of many studies is to persuade rather than to inform. We have tried to approach the topic from a purely

agnostic point of view treating as an open question what policies should be enacted with regard to gun or crime control Thus we have tried to judge each study on its own merits on the basis of the routine standards normally applied to social scientific research and not on the basis of how effectively it argues for a particular policy direction It would of course be presumptuous to claim that we have set aside all our own biases in conducting this study Whether or not our treatment is fair and objective is clearly something for the reader and not us to decide     The Rod and the Gun James Wilson,1844     *The Gun Debate*
