and fascinating anecdotes with a mini literary history of African American writing this upbeat savvy essential guide is a publishing primer with soul *The Strangers Book* Lloyd Pratt, 2016 *The Strangers Book* explores how various nineteenth century African American writers radically reframed the terms of humanism by redefining what it meant to be a stranger Rejecting the idea that humans have easy access to a common reserve of experiences and emotions they countered the notion that a person can use a supposed knowledge of human nature to claim full understanding of any other person's life Instead they posited that being a stranger unknown and unknowable was an essential part of the human condition Affirming the unknown and unknowable differences between people as individuals and in groups laid the groundwork for an ethical and democratic society in which all persons could find a place If everyone is a stranger then no individual or class can lay claim to the characteristics that define who gets to be a human in political and public arenas Lloyd Pratt focuses on nineteenth century African American writing and publishing venues and practices such as the Colored National Convention movement and literary societies in Nantucket and New Orleans Examining the writing of Frederick Douglass in tandem with that of the francophone free men of color who published the first anthology of African American poetry in 1845 he contends these authors were never interested in petitioning whites for sympathy or for recognition of their humanity Instead they presented a moral imperative to develop practices of stranger humanism in order to forge personal and political connections based on mutually acknowledged and always evolving differences **The Routledge Introduction to African American**

African American Literary Theory Winston Napier, 2000 African American Literary Theory is an extraordinary gift to literary studies. It is necessary, authoritative, and thorough. The timing of this book is superb. Karla F C Holloway, Duke University. The influence of African American literature can be attributed in no small part to the literary theorists gathered in this collection. This is a superb anthology that represents a diversity of voices and points of view and a much needed historical retrospective of how African American literary theory has developed. Marlon B Ross, University of Michigan. A volume of great conceptual significance and originality in its focus on the development of African American literary theory. Farah Jasmine Griffin, University of Pennsylvania. African American Literary Theory: A Reader is the first volume to document the central texts and arguments in African American literary theory from the 1920s through the present. As the volume progresses chronologically from the rise of a black aesthetic criticism through the Black Arts Movement, feminism, structuralism, and poststructuralism, and the rise of queer theory, it focuses on the key arguments, themes, and debates in each period. By constantly bringing attention to the larger political and cultural issues at stake in the interpretation of literary texts, the critics gathered here have contributed mightily to the prominence and popularity of African American literature in this country and abroad. African American Literary Theory provides a unique historical analysis of how these thinkers have shaped literary theory and literature at large and will be an indispensable text for the study of African American intellectual culture.
