National Approaches to the Governance of Historical Heritage Over Time Stefan Fisch, 2008 The five elements governmental authorities public discourse corporate and market interests citizens associations and international agencies may help in figuring out the complex and challenging purpose of

the research work presented in this volume which is nothing less than the history of the governance of cultural and natural heritage in eleven countries from its outset to the present Speaking about governance is challenging The term has been vastly used and misused But today when the feverish popularity of the concept is probably in decline we rest with one solid conviction at least that social economic cultural and institutional processes are governed not only through government be it national or local with its legislative administrative and jurisdictional mechanisms but through a larger array of different actors and factors These include schools and universities citizens associations public opinion economic corporations non governmental organizations learned societies unions media international agencies clubs consultants etc In fact the reader is going to meet quite a few of these actors in this publication they are the unavoidable characters involved in the story the authors have set out to tell

The Purity and Sanctuary of the Body in Second Temple Judaism Hannah K. Harrington, 2019-08-12 This study traces the emergence of the concept of the body as a sanctuary from its biblical roots to its expressions in late Second Temple Judaism Harrington s hypothesis is that the destruction of the first Jerusalem temple was a catalyst for a new reality vis vis the temple and the emergence of increased emphasis on the holiness of the people along with concomitant standards of purity in a certain stream of Judaism The study brings into relief elements of this attitude from exilic texts e g Ezekiel to Ezra Nehemiah the Dead Sea Scrolls and other Second Temple Jewish texts including early Jesus and Pauline traditions The goal is to provide a history of the concept of the body cum temple metaphor which comes to its fullest expression in the letters of Paul to the Corinthians The concept of the body as a sanctuary as it comes to fruition in late second temple Judaism must be understood within the conceptual world of Jewish holiness of the time The metaphor of the temple provides a frame of reference but only a close analysis of the concepts of holiness purity and impurity and the dynamics between them can provide depth and distinction Of particular importance critical to proper understanding of the temple metaphor are the notions of the elect holy status of Israel and its possible desecration by wrongful sexual relations the loss of the temple and the ripple effect of creating at least temporary substitutes for processes of the cult the widespread concern in Second Temple Judaism for ritual purity in support of greater

holiness and a desire among Jews for the residence and agency of the spirit of holiness *Dante and the French Romantics*

Michael Pitwood,1985 **Alexander the Great and Bactria** Frank L. Holt,2018-07-17 The creation of a Greek Frontier in Central Asia was one of the most famous and far reaching achievements of Alexander the Great Yet the process was shaped as much by the political traditions of the natives as by the cultural traditions of the newcomers This book examines this key historical clash from both sides and shows that the birth of Hellenistic Bactria was a traumatic one eliciting more bitterness than brotherhood The book is composed of four major parts Part I provides an introduction to both Bactrian and Alexander studies Part II surveys the land and peoples of Central Asia prior to Alexander s conquest Part III covers the Graeco Macedonian invasion and the effects of colonization Part IV treats the aftermath from the death of Alexander to the accession of Seleucus Decolonising Heritage in South Asia Himanshu Prabha Ray,2018-09-05 This volume cross examines the

stability of heritage as a concept It interrogates the past which materialises through multi layered narratives on monuments and other objects that sustain cultural diversity It seeks to understand how interpretations of monuments as texts are affected at the local level of experience even as institutions such as UNESCO work to globalise and fix constructs of stable and universal heritage Shifting away from a largely Eurocentric concept associated with architecture and monumental archaeology this book reassesses how local and regional heritage needs to be balanced with the global and transnational It argues that material objects and monuments are not static embodiments of culture but are rather a medium through which identity power and society are produced and reproduced This is especially relevant in South and Southeast Asian contexts where debates over heritage often have local regional and national political implications and consequences Reevaluating how traditional valuation of monuments and cultural landscapes could help aid sustainability and long term preservation of the heritage this book will be useful for scholars and researchers of South and Southeast Asian history heritage studies archaeology cultural studies tourism studies and political history as well *Handbook for Classical Research* David Schaps,2010-09-13 The Handbook for Classical Research offers guidance to students needing to learn more about the different fields and subfields of classical research and its methods and resources **Controversial Monuments and**

Memorials David B. Allison,2023-09-02 The impetus for the first edition was violent actions the white supremacist rally in Charlottesville Virginia in 2017 which was touched off by discussions about removing a statue to Robert E Lee and resulted in the death of Heather Heyer Since the publication of the first edition both history and democracy are being threatened in ways that we were only seeing small glimpses of in 2018 Today attempts to elevate new or more complex history has been met with vilification States across the country have passed legislation to ban critical race theory from being taught in public schools and are seeking ways to limit what teachers are allowed to teach about slavery and race in the United States These threats are unlikely to abate As such our responsibility as historians community leaders museum professionals and citizens is to redouble our efforts to share human stories in relatable ways and to exercise our rights and wield our power whenever and

however we can The revised edition tackles the great issues of our time against the backdrop of monument culture and historical truth
