The Hidden Door to Reality Herman Rednick,1982 **Living in the Presence** Herman Rednick,2000-09 Cosmic Consciousness : We are one Ricardo Motta / Swami Kadakrshna,2025-11-06 This ebook is an invitation to awaken In it we explore the journey of human consciousness from its biological and energetic foundations to the most daring possibilities of cosmic expansion It is a map of transformation that integrates science spirituality philosophy and technology in a single and comprehensive vision Over the course of 12 structured chapters the reader dives into themes such as parallel dimensions interdimensional contact ancestral wisdom artificial intelligence and spirituality of the future Each part of the work was designed to lead step by step from personal self discovery to the understanding of our role within the universe It is not just a theoretical study but a practical manual The book offers reflections practices and paths that can be applied in everyday life whether through conscious breathing the cultivation of life energy or integration with emerging spiritual communities The strength of this work lies in its vision of unity body mind spirit and cosmos are presented as inseparable aspects of the same reality This integration breaks down boundaries between religion science and philosophy proposing a renewed look at human evolution Another highlight is the approach to how modern technologies especially artificial intelligence can align with the expansion of consciousness as long as they are guided by cosmic ethics The book shows that we don t have to fear the future we can shape it from conscious choices More than answers the reader will find transformative questions those that open inner doors and awaken the realization that we are cosmic travelers in a continuous process of evolution This reading does not end when the book is closed it extends in the way we start to live and relate to the world If you feel that there is something beyond routine if you seek to understand the signs of a greater reality this ebook is for you Get ready after this reading it will be impossible to look at yourself and the universe in the same way Kadakrshna The Shaman's Mirror Hope MacLean,2012-08-24 Huichol Indian yarn paintings are one of the world s great indigenous arts sold around the world and advertised as authentic records of dreams and visions of the shamans Using glowing colored yarns the Huichol Indians of Mexico paint the mystical symbols of their culture the hallucinogenic peyote cactus the blue deer spirit who appears to the shamans as they croon their songs around the fire in all night ceremonies deep in the Sierra Madre mountains and the pilgrimages to sacred sites high in the central Mexican desert of Wirikuta Hope MacLean provides the first comprehensive study of Huichol yarn paintings from their origins as sacred offerings to their transformation into commercial art Drawing on twenty years of ethnographic fieldwork she interviews Huichol artists who have innovated important themes and styles She compares the artists views with those of art dealers and government officials to show how yarn painters respond to market influences while still keeping their religious beliefs Most innovative is her exploration of what it means to say a tourist art is based on dreams and visions of the shamans She explains what visionary experience means in Huichol culture and discusses the influence of the hallucinogenic peyote cactus on the Huichol s remarkable use of color She uncovers a deep structure of

visionary experience rooted in Huichol concepts of soul energy and shows how this remarkable conception may be linked to visionary experiences as described by other Uto Aztecan and Meso American cultures **American Book Publishing**
