Dream Not of Other Worlds Huston Diehl, 2007-04 When Huston Diehl began teaching a fourth grade class in a Negro elementary school in rural Louisa County Virginia the school's white superintendent assured her that he didn't expect her to teach those children anything She soon discovered how these low expectations widely shared by the white community impeded her students ability to learn With its overcrowded classrooms poorly trained teachers empty bookshelves and meager supplies her segregated school was vastly inferior to the county's white elementary schools and the message it sent her students was clear dream not of other worlds In her often lyrical memoir Diehl reveals how in the intimacy of the classroom her students reached out to her a young white northerner and shared their fears anxieties and personal beliefs Repeatedly surprised and challenged by her students Diehl questions her long standing middle class assumptions and confronts her own prejudices In doing so she eloquently reflects on what the students taught her about the hurt of bigotry and the humiliation of poverty as well as dignity courage and resiliency Set in the waning days of the Jim Crow South Dream Not of Other Worlds chronicles an important moment in American history Diehl examines the history of black education in the South and narrates the dramatic struggle to integrate Virginia's public schools Meeting with some of her former students and colleagues and visiting the school where she once taught she considers what has and has not changed after more than thirty years of integrated schooling This provocative book raises many issues that are of urgent concern today the continuing social consequences of segregated schools the role of public education in American society and the challenges of educating minority and poor children

[Return to Warden's Grove](#) Christopher Norment, 2008-04 Based on three seasons of field research in the Canadian Arctic Christopher Norment's exquisitely crafted meditation on science and nature wildness and civilization is marked by bottomless prose reflection on timeless questions and keen observations of the world and our place in it In an era increasingly marked by cutting edge research at the cellular and molecular level what is the role for scientists of sympathetic observation What can patient waiting tell us about ourselves and our place in the world His family at home in the American Midwest Norment spends months on end living in isolation in the Northwest Territories studying the ecology of the Harris's Sparrow Although the fourteenth century German mystic Meister Eckhardt wrote God is at home we are in the far country Norment argues that an intellectual emotional and spiritual far country can be found in the lives of animals and arctic wilderness For Norment doing science can lead to an enriched aesthetic and
