Sorrell, 1988-12-08 One of the best loved saints of all time Francis of Assisi is often depicted today as a kind of proto hippie or early environmentalist This book the most comprehensive study in English of Francis's view of nature in the context of medieval tradition debunks modern anachronistic interpretations arguing convincingly that Francis's ideas can only be understood in their 13th century context Through close analysis of Francis's writings particularly the *Canticle of the Sun* Sorrell shows that many of Francis's beliefs concerning the proper relation of humanity to the natural world have their antecedents in scripture and the medieval monastic orders while other ideas and practices his nature mysticism his concept of familial relationships with created things and his extension of chivalric conceptions to interactions with creatures are entirely his own Sorrell insists however that only by seeing Francis in terms of the Western traditions from which he arose can we appreciate the true originality of this extraordinary figure and the relevance of his thought to modern religious and environmental concerns **Fantasy Literature for Children and Young Adults** Ruth Nadelman Lynn, 1995-01-30 Drawing on distinguished review sources this updated and expanded guide recommends more than 4 800 American and British fantasy novels and anthologies including nearly 1 500 new to this edition Ten topical chapters embrace the entire range of fantasy literature from allegory to witchcraft Detailed annotations note major awards won review citations suggested reading level other related titles by the author and more Back cover **Children's Literature in the Elementary School** Charlotte S.
