Skokholm A Naturalists Island:

The Natural History of Skokholm Island Graham Victor Frederick Thompson, 2008-01-16 Skokholm is a remote island nature reserve located off the southwest coast of Pembrokeshire Wales Home to over 100 000 seabirds including the third largest Manx shearwater colony in the World it was made famous by pioneer naturalist Ronald Mathias Lockley in the 1930s and 1940s as a result of the many books that he wrote about it He leased Skokholm for 20 years from 1928 until 1948 during which time he established Britain's first Bird Observatory in 1933 The field outing of the 8th International Ornithological Congress was held on the island in the following year The Pembrokeshire Bird Protection Society now the Wildlife Trust of South West Wales of which Lockley was a founder took over the lease in 1948 and ran the island as a ringing station and nature reserve In 1954 it was notified as a Site of Special Scientific Interest A huge number of studies have been carried out looking into the lives of the various birds the House Mice and Rabbits invertebrates plants and plant communities In 1963 the Edward Grey Institute for Field Ornithology became involved and began a number of studies looking at seabird biology and populations The Council for the Promotion of Field Studies now the Field Studies Council was at this time running the island under license from the Wildlife Trust The Medical Research Council and then the Royal Free Hospital School of Medicine undertook a study on the genetically unique island House Mouse and the Ministry of Agriculture studied the Rabbit population as the disease Myxomatosis swept across Britain but did not affect the island animals at all making the site even more interesting

Ecocriticism and the Island Pippa Marland, 2022-12-19 Islands have long been the subject of cultural fascination but in recent decades they have exerted an increasingly powerful centrifugal force sending writers to the outer edges of the British Irish archipelago in search of inspiration and insight Drawing on contemporary ecocritical approaches island studies and emergent archipelagic perspectives Ecocriticism and the Island explores a wide selection of island themed creative non fiction Through a combination of textual analysis and where possible original interviews and archival research Pippa Marland offers new insights into the work of Tim Robinson Brenda Chamberlain Christine Evans W G Sebald Stephen Watts Amy Liptrot Kathleen Jamie Adam Nicolson Robert Macfarlane and David Gange In assessing the ways in which these authors negotiate existing cultural tropes of the island while offering their own distinctive articulations of islandness this book represents an important intervention into island literary studies At the same time it contributes to the development of an archipelagic strand of ecocriticism one that offers a valuable perspective on human environmental relationships in an Anthropocene context

The Natural History of Wales William Condry, William Condry Staff, 1990 **The Zoological Record**, 2002-12 **Birds in a Cage** Derek Niemann, 2012-01-11 At Warburg Germany in 1941 four British PoWs find an unexpected means of escape from the horrors of internment when they form a birdwatching society and embark on an obsessive quest behind barbed wire Through their shared love of birds they overcome hunger hardship fear and stultifying boredom Their quest draws in not only their fellow prisoners but also some of the German guards at great risk to them all

Derek Niemann draws on original diaries letters and drawings to tell of how Conder Barrett Waterston and Buxton were forged by their experiences as POWs into the giants of post war wildlife conservation Their legacy lives on in institutions such as the RSPB and the British Wildlife Trust *Reel Nature* Gregg Mitman,2012-09-01 Winner of the History of Science Society s Watson Davis and Helen Miles Davis Prize in the History of Science From the early exploits of Teddy Roosevelt in Africa to blockbuster films such as March of the Penguins Gregg Mitman s *Reel Nature* reveals how changing values scientific developments and new technologies have come to shape American encounters with wildlife on and off the big screen Whether crafted to elicit thrills or to educate audiences about the real life drama of threatened wildlife nature films then and now have had an enormous impact on how Americans see think about consume and struggle to protect animals across the globe For more information about the author go to <http://gmitman.com> **The New Nature Writing** Jos Smith,2017-05-04 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com In the last decade there has been a proliferation of landscape writing in Britain and Ireland often referred to as The New Nature Writing Rooted in the work of an older generation of environment focused authors and activists this new form is both stylistically innovative and mindful of ecology and conservation practice The New Nature Writing Rethinking the Literature of Place connects these two generations to show that the contemporary energy around the cultures of landscape and place is the outcome of a long standing relationship between environmentalism and the arts Drawing on original interviews with authors archival research and scholarly work in the fields of literary geographies ecocriticism and archipelagic criticism the book covers the work of such writers as Robert Macfarlane Richard Mabey Tim Robinson and Alice Oswald Examining the ways in which these authors have engaged with a wide range of different environments from the edgelands to island spaces Jos Smith reveals how they recreate a resourceful and dynamic sense of localism in rebellion against the homogenising growth of clone town Britain **Discovery** ,1948 **The Irish Naturalists' Journal** ,1955 **Transactions of the Cardiff Naturalists' Society** Cardiff Naturalists' Society,1886 [The Naturalist](#) ,1982 **Contemporary Authors** CONTEMPORARY.,1981 **Curious Naturalists** Dr. Niko Tinbergen,2017-01-12 Dr Niko Tinbergen was well known as a naturalist and a student of animal behaviour in England on the Continent and in the United States Ever since he was a young student in Holland he had been curious about nature and in this book he sets out some of the facts that 25 years of curiosity gave him As a biologist anything living was his province the bee killing wasps and the digger wasps of the Dutch sand dunes the Snow Bruntings and Phalaropes of Greenland Hobbies and other hawks moths and butterflies in various parts of England and Holland Black headed Gulls of the Ravenglass nature reserve Cumberland the Kittiwakes and Eider Ducks of the Farne Islands off the coast of Northumberland Readers cannot fail to be struck and possibly sometimes amused by the patience and ingenuity shown in the field studies undertaken by Dr Tinbergen and his fellow naturalists and which are now passed on for the benefit and interest of his readers The studies were always

undertaken seriously but this did not prevent Dr Tinbergen from writing about them in the liveliest way he realised that quite often he and his friends must have seemed to onlookers to be very curious naturalists indeed *British Birds* ,1976
