Olajide,2013-01-23 This book is written mainly from my experience since my arrival in the United Kingdom in the early 1960s I came to the UK before I came in contact with any Afro American or Caribbean In Nigeria I know some people whose parents originally returned to Nigeria from Brazil and Cuba The names of these great people are household names in Nigeria and particularly in Lagos The more I stay in the UK the more I realise that our people from America and Caribbean have very little knowledge of Africa To my greatest surprise some of them think that Africa is a small country I came to the UK before the slave trade became a common topic It is quite clear from my observation that the history of the slave trade is wrongly taught in overseas as far as it concerns Africa Worse still some of our people here think that the whole of Africa was involved in the slave trade This book is to put forward the authentic history of the slave trade Moreover this book will show clearly the areas affected by the slave trade The aim of the writer of this book is to make the history of the slave trade clear and simple to read The idea is to make the book affordable and available as much as possible in order to study the history in Africa and overseas If the history of the slave trade is taught and studied carefully any such mistakes will be avoided in future The Homeschooler's Book of Lists Sonya Haskins,2007-10 With more than 250 lists home educators private school teachers and others will find important facts and essential information in one easy to use resource Toussaint Louverture and the American Civil War Matthew J. Clavin,2012-02-23 At the end of the eighteenth century a massive slave revolt rocked French Saint Domingue the most profitable European colony in the Americas Under the leadership of the charismatic former slave Francois Dominique Toussaint Louverture a disciplined and determined republican army consisting almost entirely of rebel slaves defeated all of its rivals and restored peace to the embattled territory The slave uprising that we now refer to as the Haitian Revolution concluded on January 1 1804 with the establishment of Haiti the first black republic in the Western Hemisphere The Haitian Revolution cast a long shadow over the Atlantic world In the United States according to Matthew J Clavin there emerged two competing narratives that vied for the revolution's legacy One emphasized vengeful African slaves committing unspeakable acts of violence against white men women and children The other was the story of an enslaved people who under the leadership of Louverture vanquished their oppressors in an effort to eradicate slavery and build a new nation Toussaint Louverture and the American Civil War examines the significance of these competing narratives in American society on the eve of and during the Civil War Clavin argues that at the height of the longstanding conflict between North and South Louverture and the Haitian Revolution were resonant polarizing symbols which antislavery and proslavery groups exploited both to provoke a violent confrontation and to determine the fate of slavery in the United States In public orations and printed texts African Americans and their white allies insisted that the Civil War was a second Haitian Revolution a bloody conflict in which thousands of armed bondmen American Toussaints would redeem the republic by

securing the abolition of slavery and proving the equality of the black race Southern secessionists and northern anti abolitionists responded by launching a cultural counterrevolution to prevent a second Haitian Revolution from taking place
