Smallholders and Political Voice in Zimbabwe Stephen F. Burgess, 1997-08-28 To find more information on Rowman Littlefield titles please visit us at www.rowmanlittlefield.com **Political Voice in Rural Africa** Stephen Franklin Burgess, 1992 *Twenty Years of Independence in Zimbabwe* S. Darnolf, L. Laakso, 2016-01-13 This collection offers comprehensive insights into pivotal areas of concern regarding developments in Zimbabwe since its independence By disclosing the intra elite competition assessing the performance of Zimbabwe's economy and explaining how the country's natural resources have been managed we can better understand the ruling ZANU PF's increasing reliance on the so called war veterans and the land reform issue for its political survival **The End of an Era? Robert Mugabe and a Conflicting Legacy** Munyaradzi, Mawere, Marongwe, Ngonidzashe, 2018-11-17 Arguably one of the most polarising figures in modern times has been Robert Gabriel Mugabe the former President of the Republic of Zimbabwe The mere mentioning of his name raises a lot of debate and often times vicious if not irreconcilable differences both in Zimbabwe and beyond In an article titled Lessons of Zimbabwe Mahmood Mamdani succinctly captures the polarity thus It is hard to think of a figure more reviled in the West than Robert Mugabe and his land reform measures however harsh have won him considerable popularity not just in Zimbabwe but throughout southern Africa This together with his recent stylised ouster speaks volumes to his conflicted legacy The divided opinion on Mugabe's legacy can broadly be represented first by those who consider him as a champion of African liberation a Pan Africanist an unmatched revolutionary and an avid anti imperialist who literally spoke the truth to Western imperialists On the other end of the spectrum are those who seemingly paying scant regard to the predicament of millions of black Zimbabweans brutally dispossessed of their land and human dignity since the Rhodesian days have differentially characterised Mugabe as a rabid black fascist an anti white racist an oppressor and a dictator Drawing on all these opinions and characterisations the chapters ensconced in this volume critically reflect on the personality leadership style and contributions of Robert Mugabe during his time in office from 1980 to November 2017 The volume is timely in view of the current contested transition in Zimbabwe and with regard to the ongoing consultations on the Land Question in neighbouring South Africa It is a handy and richly documented text for students and practitioners in political science African studies economics policy studies development studies and global studies **The Rollback of South Africa's Chemical and Biological Warfare Program** Stephen Franklin Burgess, 2001 Details the chemical and biological weapons program of South Africa [The World's Most Threatening Terrorist Networks and Criminal Gangs](#) B. Schneider, J. Post, M. Kindt, 2009-07-20 Terrorist organizations and international criminal networks pose an increasing danger to the world This book looks at diverse groups from Al Qaeda to Mexican drug cartels and includes a chapter on terrorist WMD threats This look at sub state rivals is recommended to all serious students of international security [Democratic Transitions in East Africa](#) F. Wafula Okumu, 2019-07-16 Originally published in 2004 Genocide in Rwanda massive floods of

refugees and displaced people in the Horn of Africa violent civil wars in the West African countries of Sierra Leone and Liberia these are testimonies to the tremendous cost to grassroots communities when the authority and legitimacy of national political systems and leaders are called into question The consolidation of democracy represents one tangible strategy to restore authority and legitimacy of political rule providing the peace and security necessary for political enfranchisement and economic opportunity This volume explores the factors that are crucial to the emergence of democratic political systems on the African continent specifically focusing on Kenya Tanzania and Uganda It highlights the political challenges facing these countries during this crucial transition period and provides insights that are applicable to other countries engaged in this process in Africa and beyond

New Armies from Old Roy Licklider, 2014-04-15 Negotiating a peaceful end to civil wars which often includes an attempt to bring together former rival military or insurgent factions into a new national army has been a frequent goal of conflict resolution practitioners since the Cold War In practice however very little is known about what works and what doesn't work in bringing together former opponents to build a lasting peace Contributors to this volume assess why some civil wars result in successful military integration while others dissolve into further strife factionalism and even renewed civil war Eleven cases are studied in detail Sudan Zimbabwe Lebanon Rwanda the Philippines South Africa Mozambique Bosnia Herzegovina Sierra Leone Democratic Republic of the Congo and Burundi while other chapters compare military integration with corporate mergers and discuss some of the hidden costs and risks of merging military forces *New Armies from Old* fills a serious gap in our understanding of civil wars their possible resolution and how to promote lasting peace and will be of interest to scholars and students of conflict resolution international affairs and peace and security studies

Handbook of Nuclear Proliferation Harsh V Pant, 2012-02-27 The chapters of this proposed volume are intended to shed light on the diverse themes surrounding this very important issue area in international security Each of the six major sections addresses an aspect of nuclear proliferation that will be critical in determining the future trajectory of global politics in the years to come The first section examines the major thematic issues underlying the contemporary discourse on nuclear proliferation How do we understand this period in proliferation What accounts for a taboo on the use of nuclear weapons so far and will it survive What is the present state of nuclear deterrence models built during the Cold War What is the relationship between the pursuit of civilian nuclear energy and the risks of proliferation Why are we witnessing a move away from non proliferation to counter proliferation The second section gives an overview of the evolving nuclear policies of the five established nuclear powers the USA Russia the United Kingdom France and the People's Republic of China Section three looks at the three de facto nuclear states India Pakistan and Israel The fourth section examines the three problem areas in the proliferation matrix today Iran North Korea and the potent mix of non state actors and nuclear weapons The fifth section sheds light on an important issue often ignored during discussions of nuclear proliferation cases where states have made a deliberate policy choice of either renouncing their nuclear weapons programme or have decided to

remain a threshold state The cases of South Africa Egypt and Japan will be the focus of this section The final section will examine the present state of the global nuclear non proliferation regime which most observers agree is currently facing a crisis of credibility The three pillars of this regime the Nuclear Non Proliferation Treaty NPT the Comprehensive Test Ban Treaty CTBT and the Fissile Material Cut Off Treaty FMCT will be examined This is followed by an analysis of the present trends and prospects for US Russia nuclear arms control The impact of missile defenses and the US India civilian nuclear energy co operation pact will be examined so as to ascertain whether they have weakened or strengthened the global non proliferation regime The chapters in this volume aim to document the increasing complexity of the global nuclear proliferation dynamic and the inability of the international community to come to terms with a rapidly changing strategic milieu The future in all likelihood will be very different from the past and the chapters in this volume will try to develop a framework that may help gain a better understanding of the forces that will shape the nuclear proliferation debate in the years to come

Perotti,2002-12-30 One of the most significant areas of activity in the George Bush administration was foreign affairs Drawing together participants as well as foreign policy scholars and journalists Hofstra Universtiy organized the 1997 Conference on the Presidency of George Bush This volume covers the key foreign affairs activities of the administration The essays examine major areas of the Bush foreign policy record Included are papers on international trade the Middle East Latin America Somalia Bosnia arms control and U S base closing Scholars students and other researchers involved with the policies of the Bush administration will find this a useful resource India's emerging security strategy, missile defense, and arms control , **Nuclear Weapons Proliferation in the Next Decade** Peter Lavoy,2020-09-23 The intensification of the Iranian and North Korean nuclear crises has created new fears that deteriorating security conditions in the Middle East Northeast Asia and other regions will lead additional countries to seek their own nuclear arsenals in the years to come This special issue examines the factors that are likely to shape nuclear weapons proliferation over the next decade The internationally recognized authors of this issue many of whom are prominent scholars and others of whom have held influential governmental positions with responsibility for countering nuclear proliferation bring to light the conditions and events that might drive new countries to pursue nuclear weapons the indicators and cautionary signs that can provide early warning that a country is interested in building nuclear bombs and the policy and military measures that can be adopted to prevent or at least dissuade new proliferators The introductory chapter develops a novel analytical approach focusing on the role of nuclear myths and mythmakers and the subsequent chapters draw on this approach to help analysts better understand and policy makers better manage nuclear proliferation over the next ten years *Ibss: Political Science: 1998* Compiled by the British Library of Political and Economic Science,2000-02 Renowned for its international coverage and rigorous selection procedures this series provides the most comprehensive and scholarly bibliographic service available in the social sciences Arranged by topic and indexed by author subject and place name each bibliography lists and annotates the most important works published in its field during the year of 1997 including hard to locate journal articles Each volume also includes a complete list of the periodicals consulted **Agriculture and Environment for Developing Regions** ,1999

The History and Political Transition of Zimbabwe Sabelo J. Ndlovu-Gatsheni,Pedzisai Ruhanya,2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis Its focus is on a very problematic political culture that is proving very hard to transcend At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti colonial liberation struggle in the 1970s Inevitably violence misogyny and masculinity are constitutive of the political culture Economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self styled Chimurenga aristocracy However this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe s ousting from power was preceded by dirty and protracted internal factionalism At the center of the factional politics was the

first family Robert Mugabe and his wife Grace Mugabe This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe taking seriously such issues as gender misogyny militarism violence media identity modes of accumulation the ethnicization of politics attempts to open lines of credit and FDI national healing and the national question as key variables not only of a complete political culture but also of difficult transitional politics *The Impact of Policy in African Agriculture* William Kenneth Jaeger, 1991 Policy in Sub Saharan African countries is linked with the region s agricultural performance Exchange rate policies high taxes on agriculture and government control of export marketing are associated with the deterioration in agricultural export performance in 1970 87 And the policy reforms of the late 1980s where sustained and effective are linked with increased agricultural productivity **Delivering Land and Securing Rural Livelihoods** Francis Gonesse, Michael Roth, 2003 *Journal of African Policy Studies*, 2007
