Internal Revenue Service, 1979 **The Free State of Jones, Movie Edition** Victoria E. Bynum, 2016-01-25 Between late 1863 and mid 1864 an armed band of Confederate deserters battled Confederate cavalry in the Piney Woods region of Jones County Mississippi Calling themselves the Knight Company after their captain Newton Knight they set up headquarters in the swamps of the Leaf River where they declared their loyalty to the U S government The story of the Jones County rebellion is well known among Mississippians and debate over whether the county actually seceded from the state during the war has smoldered for more than a century Adding further controversy to the legend is the story of Newt Knight's interracial romance with his wartime accomplice Rachel a slave From their

relationship there developed a mixed race community that endured long after the Civil War had ended and the ambiguous racial identity of their descendants confounded the rules of segregated Mississippi well into the twentieth century Victoria Bynum traces the origins and legacy of the Jones County uprising from the American Revolution to the modern civil rights movement In bridging the gap between the legendary and the real Free State of Jones she shows how the legend what was told what was embellished and what was left out reveals a great deal about the South s transition from slavery to segregation the racial gender and class politics of the period and the contingent nature of history and memory In a new afterword Bynum updates readers on recent scholarship current issues of race and Southern heritage and the coming movie that make this Civil War story essential reading The Free State of Jones film starring Matthew McConaughey Gugu Mbatha Raw and Keri Russell will be released in May 2016

Naval Air Systems Command,1970 **Reason and Action** Bruce Aune,2013-06-29

Philosophers writing on the subject of human action have found it tempting to introduce their subject by raising Wittgenstein s question What is left over if you subtract the fact that my arm goes up from the fact that I raise my arm The presumption is that something of particular interest is involved in an action of raising an arm that is not present in a mere bodily movement and the philosopher s task is to specify just what this is Unfortunately such an approach does not take us very far since a person could properly be said to raise his or her arm while asleep or hypnotized even though he or she would not be performing an action in the sense of action with which philosophers are particularly concerned To avoid this kind of difficulty I shall approach the subject of human action in a more academic way I shall expound some important rival theories of human action and introduce the relevant issues by commenting critically on those theories One of the issues I eventually introduce is a metaphysical one A theory of action makes sense I contend only on the assumption that there are such things as actions or events After considering some key arguments bearing on the issue I conclude that as matters currently stand in philosophy a metaphysically noncommittal attitude toward actions and events seems justified Dissolving the Gettier Problem John Ian K. Boongaling,2020-11-18 This book argues that a complete dissolution of the Gettier problem is possible using Jaakko Hintikka s Socratic Epistemology with its emphasis on questioning as a knowledge seeking procedure The key to accomplishing this task is to treat Gettier s counterexamples as a game of inquiry where epistemic agents deal with various pieces of information employ different moves and make different choices or strategies such as bracketing or unbracketing an item of information in determining for themselves what to believe in or what they can claim to have knowledge of This book will appeal to both undergraduate and graduate students as well as post graduate researchers as it offers a novel perspective for understanding the Gettier problem and a cogent explanation for the failures of previously proposed solutions to it All this is made possible by going beyond analysis and dealing with the experiences of epistemic agents in actual problem solving
