presents typical philosophical disputes and illustrates the new procedure asking what has led philosophers to say the extraordinary things they have said At this stage the study aims to carry this inquiry only far enough to reveal some of the confusions excuses and reasons behind philosophical doctrines Finally the inquiry is carried further and submits that there are often causes for adherence to a philosophical theory deeper than those which appear when we ask the reasons for the theory In illustration of this it ventures in outline a surmise as to one of the deeper sources which lie behind the old and phoenix like paradox Change is unreal
