Keevil,2023-04-15 More than a century ago a prospector discovered gold at Ontario s Kirkland Lake and a son was born to British immigrants in Saskatchewan The boy Norman Bell Keevil went on to become a renowned scientist teacher and prospector discovering a small but high grade copper mine in Ontario Parlaying that into control of the Kirkland Lake gold mine fifty years later he formed the fledgling mining company Teck Corporation In *Never Rest on Your Ores* Keevil s son Norman also a geoscientist recounts how over the next fifty years a growing team of like minded engineers and entrepreneurs built Canada s largest diversified mining company In candid detail he tells the story of a company and its makers of the discovery and creation of mines of the mechanics of industry financing and of the role that mergers and acquisitions play in a volatile environment Along the way he meets fascinating captains of industry and politicians not only in Canada but in the United States and around the world Finding an ore body rock that holds valuable metals and minerals and promoting its development in order to finance and create a mine most often in hard to access wilderness is complicated work comparable to locating and extracting a needle in a very messy haystack Underlying this history is a constant need to replenish the ore and this need drives the people involved Drawing new lessons from the turbulent period between 2005 and 2023 this new edition of *Never Rest on Your Ores* is both entertaining and instructive a rare insider s account of an industry that has been crucial to the building of this country *The Crimpoon* ,1916 *Outside the Magic Circle* Virginia Foster Durr,1990-06-30 Winner of the 1986 Alabama Library Author Award *Outside the Magic Circle* tells the remarkable story of Virginia Foster Durr a southern white woman born into privilege who along with her husband Clifford Durr a lawyer best known for defending Rosa Parks nonetheless devoted her life to Civil Rights activism *Outside the Magic Circle* is a valuable document engaging warm and shrewd Durr s odyssey of political commitment belongs in the collective biography of a remarkable generation of Southern liberals and radicals *Southern Exposure* Research in Collegiate Mathematics Education II James J. Kaput,Ed Dubinsky,Alan H. Schoenfeld,1996 The field of research in collegiate mathematics education has grown rapidly over the past 25 years Many people are convinced that improvement in mathematics education can only

come with a greater understanding of what is involved when a student tries to learn mathematics and how pedagogy can be more directly related to the learning process Today there is a substantial body of work and a growing group of researchers addressing both basic and applied issues of mathematics education at the collegiate level This second volume in Research in Collegiate Mathematics Education begins with a paper that attends to methodology and closes with a list of questions The lead off paper describes a distinctive approach to research on key concepts in the undergraduate mathematics curriculum This approach is distinguished from others in several ways especially its integration of research and instruction The papers in this volume exhibit a large diversity in methods and purposes ranging from historical studies to theoretical examinations of the role of gender in mathematics education to practical evaluations of particular practices and circumstances As in RCME I this volume poses a list of questions to the reader related to undergraduate mathematics education The eighteen questions were raised at the first Oberwolfach Conference in Undergraduate Mathematics Education which was held in the Fall of 1995 and are related to both research and curriculum This series is published in cooperation with the Mathematical Association of America
