The Beardsley Industry Jane Haville Desmarais, 2019-07-23 First published in 1998 this is the first book to examine the critical reception accorded to Beardsley's work For most of his short working life fierce debate raged in Britain over the merit of Aubrey Beardsley's black and white drawings Applauded for their technical skill they were as often deplored for their slimy nastiness their fin de siècle decadence and their foreign styles There are tainted whiffs from across the channel which lodge the Gallic germs in our lungs Our Beardsleys have identical symptoms with Verlaine Degas Le Grand Forain and might quite well be sick from infection stormed Margaret Armour in the Magazine of Art Jane Haville Desmarais opens with an account of the English response exploring the fascinating interplay between Beardsley's exploitation of the new media to shape his public persona and promote his work and the critics use of his life and art to articulate the fears and anxieties of the English fin de siècle The second half of the book moves to France and deals with a different set of preoccupation The French perceived Beardsley as the natural inheritor of the mantle of Pre Raphaelitism His work remained current largely through the interest of the Symbolists and in particular Robert de Montesquiou who celebrated Beardsley's picturing of the fantasy realms of desire The intriguing study of two very different critical traditions casts light on key issues of art history and literary studies in particular the relationship between critical response and social perception With 21 black and white illustrations the book also has invaluable appendices which include a bibliography of criticism and comment on the work of Aubrey Beardsley between 1893 and 1914 *A New York Collection of First Editions, Autograph Letters & Relics of Lord Byron* Anderson Galleries, Inc, 1925 *McGill University Publications* McGill University, 1921
