**Schwann Opus Vol. 10** Becky Barnhart,1999-12      **Schwann opus** ,1998      *Harry Somers* Brian Cherney,1975-12-15  
Harry Somers is one of Canada's leading composers and one of the most original. In the 1950s he experimented with contrapuntal writing, serialism, and style juxtaposition. In more recent years he has been concerned with the development of new vocal resources and improvisation. Harry Somers: a detailed study of the composer and his works has been commissioned by the Canadian Music Centre as the first of a series, each volume of which will cover in depth the career and works of a major Canadian composer. Within the framework provided by major biographical events, Brian Cherney traces Somers' development as a composer from 1939 to 1973 by analysing works from various stages in his career. He discusses in particular the influences on Somers of Bartok, Debussy, and Weinzweig; the interrelationships between his works and his stylistic traits and compositional techniques. A chronological list of Somers' works is included, and because of its importance, an entire chapter is devoted to the opera *Louis Riel*. In view of the scarcity of in-depth critical literature on Canadian composers, this thorough and objective book will be of interest to music students, professional musicians, composers, and the general music public, both in Canada and abroad.      *Marc Blitzstein* Leonard Lehrman,2005-09-30  
Marc Blitzstein was one of the 20th century's most important American composers, lyricists, and critics, often credited with having virtually invented opera in the American vernacular. Called the father of American opera in the vernacular by luminaries Aaron Copland and Leonard Bernstein, Blitzstein was a masterful pianist, coach, and accompanist, though ironically he made more money on the lyrics to one song, *Mack the Knife*, than on everything else he ever did. Blitzstein's brilliant career was cut short in 1964 when he died at the age of 58. This book catalogs Blitzstein's own writings and writings about him, followed by detailed listings, chronological, alphabetical, and genre analysis, a comprehensive performance history, and summaries of all known critiques of his 128 original musical works and 18 texts set to the music of others. Shown in detail are the ways in which Blitzstein took music from his earlier works and developed it in later works, a process that Lehrman utilized in completing, with Bernstein's and the Estate's approval, 20 Blitzstein works for performance, including *The Cradle Will Rock*, *I've Got the Tune*, *No for an Answer*, *Idiot's First*, and *Sacco and Vanzetti*, which Blitzstein believed would be his magnum opus. The book provides a unique and full perspective on the works of one of America's greatest composers, one who deserves to be better known.      **The Gramophone** ,1959      **Havanaise** Camille Saint-Saëns,1999-01-01

New readings of the ten Beethoven sonatas for piano and violin, embracing both the performer's interpretation and the analyst's rigour. This book provides new readings of the ten Beethoven sonatas for piano and violin, many of which have been given surprisingly little attention by scholars to

date This may be because nine of the sonatas are relatively early works written between 1797-1803 with only the final sonata Op 96 1812 standing apart However within these ten works Beethoven demonstrates numerous aspects of his musical personality and compositional style The analyses in this book engage with postmodern concerns such as hermeneutics intertextuality gender humour narratology and human interest revealing characteristics within these sonatas that have been slow to come to light Here are examples of the Beethovenian narrative that do not always encapsulate heroic struggle and triumph in many of the sonatas we find a witty smiling composer at odds with the growling Beethoven iconography Works within the violin sonata cycle interrogate the hypermasculine Beethoven trope before the last sonata is explored via a host of intertextual relationships with a body of early Romantic repertoire that emerged after Beethoven's death Embracing both the performer's interpretation and the analyst's rigour or vice versa this work offers methodologies for performer's analysis whilst acknowledging that both disciplines are essential to any project that seeks to address the nature of music as it is experienced in time *Index to Record and Tape Reviews*, 1983
