productive dialogue between contemporary ecocritical theories and the classical tradition is established that highlights similarities as well as differences This volume is the first book to bring ecocriticism and the classical tradition into a comprehensive dialogue It assembles recognized experts in the field and advanced scholars as well as young and aspiring ecocritics In order to ensure a dialogic exchange between the contributions the volume includes four response essays by established ecocritics which embed the sections within a larger theoretical and practical ecocritical framework and discuss the potential of including the pre modern world into our environmental debates

A Century of Welsh Myth in Children's Literature Donna R. White, 1998-04-08 Myth legend and folklore have been entrenched in children's literature for several centuries and continue to be popular Some of the most ancient traditional tales still extant come from the Celtic cultures of France and the British Isles whose languages are among the oldest in Europe Among these tales are four native Welsh legends collectively known as the Mabinogi which were first translated into English in 1845 by Lady Charlotte Guest Numerous children's books have been based on the Mabinogi since then and many have received awards and critical acclaim Because these books are written for children they are not necessarily faithful retellings of the original tales Instead authors have had to select certain elements to include and others to exclude This book examines how authors of children's fantasy literature from the 19th century to the present have adapted Welsh myth to meet the perceived needs of their young audience The volume begins

with a summary of the four principle tales of the Mabinogi Pwyll Prince of Dyfed Branwen Daughter of Llyr Manawydan Son of Llyr and Math Son of Mathonwy Books based on the Mabinogi generally fall into two categories retellings of the myths and original works of fantasy partially inspired by the Welsh tales Beginning with Sidney Lanier s The Boy s Mabinogion the first part of this book examines versions of the myths published for children between 1881 and 1988 The second part discusses imaginative literature that borrows elements from the Mabinogi including Alan Garner s The Owl Service which won a Carnegie medal and Lloyd Alexander s Chronicles of Prydain the final volume of which received the ALA Newbery Award for outstanding children s book Welsh Celtic Myth in Modern Fantasy Charles William Sullivan,1989-03-07 This study provides a fascinating look at the various ways in which 20th century fantasy writers have used Welsh Celtic mythology and folklore in their work Following the theories formulated by such scholars as John Vickery and Joseph Campbell the use of Celtic materials by each of the authors is discussed from a mythology in literature perspective Sullivan presents an extensive accounting of the Celtic material used and explores the primary ways in which the authors incorporate it into their fiction both structurally and thematically Sullivan identifies and analyzes the nature and extent of Welsh Celtic influence on subsequent cultures and their literatures and he considers some of the previous attempts to evaluate this influence The appendixes provide valuable background materials including critical commentary on the Welsh collection of myths legends folktales and beliefs that are of major importance in the work of the six authors represented Also included are extensive bibliographies of primary and secondary sources Illuminating reading for students and scholars of mythology modern fantasy and children s literature this book sheds new light on the Welsh influence in literature and opens paths for further research Catalog of Copyright Entries.
