exploration of Christian religious music among the Logooli of Western Kenya It describes how new musical styles developed through contact with popular radio and other media from abroad and became markers of the Logooli identity and culture Jean Ngoya Kidula narrates this history of a community through music and religious expression in local national and global settings The book is generously enhanced by audiovisual material on the Ethnomusicology Multimedia website The archival and ethnographic research is outstanding the accounts of mission history and then the musical explanations of a variety of forms of change that have accompanied mission intervention the incursion of forms of modernity and globalization at large are compelling and unparalleled Carol Muller University of Pennsylvania Explores contemporary African music through the prism of ethnographies through the people s engagement of Christianity as a unifying ideology in the context of history modernity nationalisms and globalisation Journal of Modern African Studies The meticulous and sometimes highly sophisticated musical analyses transcriptions and the rich historical and ethnographic perspectives illuminate not only ongoing discourses and contestations of syncretism and related analytical notions they also represent a plausible model of a balanced approach to ethnomusicology International Journal of African Historical Studies An essential text for thinking about world Christianities because it approaches a particular African Christianity from both insider and outsider perspectives Global Forum on Arts and Christian Faith **Unlimited Growth** Mike Mazzalongo, 2017-09-13 [Singing, Soldiering, and Sheet Music in America during the First World War](#) Christina Gier, 2016-10-19 An advertisement in the sheet music of the song Goodbye Broadway Hello France 1917 announces Music will help win the war This ad hits upon an American sentiment expressed not just in advertising but heard from other sectors of society during the American engagement in the First World War It was an idea both imagined and practiced from military culture to sheet music writers about the power of music to help create a strong military and national community in the face of the conflict it appears straightforward Nevertheless the published sheet music in addition to discourse about gender soldiering and music evince a more complex picture of society This book presents a study of sheet music and military singing practices in America during the First World War that critically situates them in the social discourses including issues of segregation and suffrage and the historical context of the war The transfer of musical styles between the civilian and military realm was fluid because so many men were enlisted from homes with the sheet music while they were also singing songs in their military training Close musical analysis brings the meaningful musical and lyrical expressions of this time period to the forefront of our understanding of soldier and civilian music making at this time
